Preface

“Exhibit B, Budget Summary Receipts” included in Section 1 of the “2011-12 Proposed Budget” itemizes City revenue by source. Additional information on 2010-11 and 2011-12 receipts is displayed in the “Detailed Statement of Receipts” included in Section 3 of that document. Revenue information is also displayed in other parts of the budget such as “The Detail of Department Programs.”

This “Revenue Outlook” is a supplement to the 2011-12 Proposed Budget and provides, in one place, supporting information for all General Fund revenue estimates and for estimates for certain special funds that directly finance the budget.

Section 1 of the Revenue Outlook provides an overview, major revenue assumptions, and a five-year revenue forecast. Section 2 provides historical perspective and current information on each General Fund revenue, except for the category, “Licenses, Permits, Fees and Fines,” which is provided in Section 3. Section 4 provides similar information for special fund revenue directly financing the budget.

REVENUE SUMMARY
FISCAL YEAR 2011-12
(Thousands Dollars)

2010-11		2011-12	
Budget	Revised	Budget	
\$1,408,529	\$1,424,143	Property Tax *	\$1,436,363
778,177	710,068	Licenses, Permits, Fees and Fines	721,272
654,600	624,898	Utility Users' Tax	627,832
411,960	424,036	Business Tax	439,219
289,412	291,656	Sales Tax	306,239
257,000	258,815	Power Revenue Transfer	254,000
142,446	133,500	Parking Fines	141,000
122,700	127,193	Transient Occupancy Tax	136,200
105,000	100,000	Documentary Transfer Tax	105,000
6,000	2,000	Real Property Transfer Tax - Corporate	2,000
85,983	84,000	Parking Users' Tax	88,200
45,541	46,700	Franchise Income	48,100
12,400	14,890	Interest	14,280
12,000	13,792	State Motor Vehicle License Fees	14,700
11,300	9,500	Tobacco Settlement	9,500
9,200	12,198	Grants Receipts	9,820
7,650	7,650	Transfer from Telecommunications Development Account	5,170
1,700	1,500	Residential Development Tax	1,905
10,000	10,000	Special Parking Revenue Transfer	18,200
3,617	3,617	Reserve Fund Transfer	
\$4,375,215	\$4,300,156	Total General Fund Receipts	\$4,379,000

* Property tax includes all categories of the City allocation of one percent-property tax collections such as secured, unsecured, state replacement, redemptions and penalties, supplemental receipts and other adjustments and is net of refunds and County charges. Also included are property taxes remitted to the City as replacement revenue for both vehicle license fees and sales and use taxes.

Fiscal Year 2011-12

Revenue Assumptions

The economy is showing signs of recovery from the recent economic recession. That recession (December 2007 to July 2009), was the longest economic downturn since the Great Depression of the 1930's. It is still having a lingering effect on the City, particularly in the housing market and employment.

More than 70 percent of City General Fund revenue is from seven major taxes: property, utility, business, sales, hotel, documentary and parking. Although fiscal year 2008-09 was well into the recession, these City tax receipts increased by 1-percent that year. Tax receipts decreased by almost 5 percent in 2009-10, as the full impact of the recession was felt. Based on receipts through the first 9 months of 2010-11, overall tax receipts are projected to remain close the 2009-10 level. Some taxes, such as sales, business and hotel are well above the prior-year level, but such gains are offset by lower property and utility tax receipts. But the 2011-12 Proposed Budget forecasts growth in General Fund taxes of 2.5 percent as property values are projected to increase and add property tax to the list of growing tax receipts.

City tax receipts usually do not begin to increase at the time of economic recovery and City tax receipts continue to grow after a recession begins. Major tax revenue is typically received by the City some time after an economic event; the property tax is collected more than a year after valuations are determined and business tax collections are dependent on business activity in the prior year. Sales tax collections trail economic activity by three to six months and utility and documentary tax receipts follow the economy by one to two months. If the economy continues to grow, City tax receipts should pick up in 2011-12.

This recovery carries with it more than the usual uncertainties.

- Unemployment is still high and California's personal income has been flat since 2008;
- Home prices and sales have been falling;
- The effects of rising oil prices, international tensions and the disaster in Japan on the Los Angeles area economy are not known.

Summaries of Major Categories

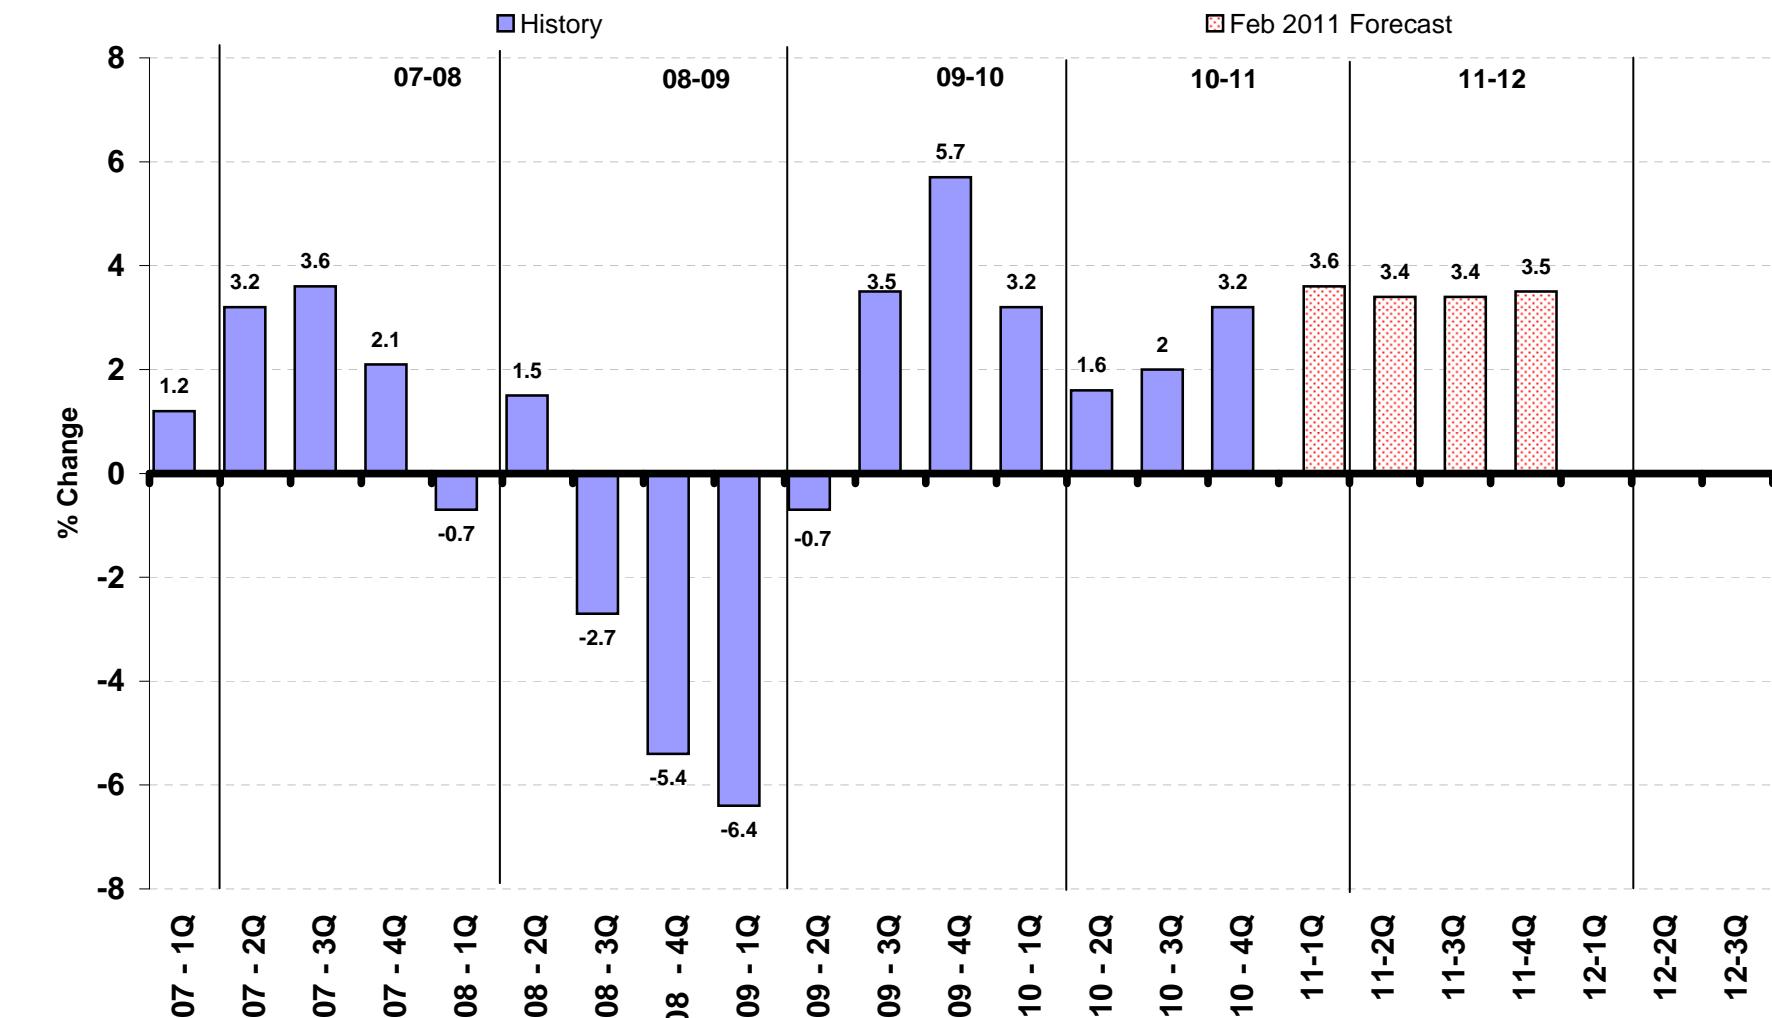

- The sales tax is expected to increase 5% and reach \$306 million. This is \$14 million more than the 2010-11 revised estimate but still below the peak of \$335.6 million reached in 2007-08. The City's sales tax is one of the most economy-sensitive revenues. Some economists and analysts are

- forecasting growth in taxable sales in the 6 to 7% range in 2011-12. The Proposed Budget forecast is more cautious.
- The business tax is projected to increase by \$15 million (3.6%) and reach over \$439 million. This is still below the 2007-08 level.
 - The property tax is estimated to increase by \$12 million (0.9%) in 2011-12. After making an adjustment for a one-time event, this is still \$55 million below 2008-09 property tax receipts.
 - The utility users' tax is projected to increase by 0.5% in 2011-12. The electric users' tax is projected to rise by 1.6% as a result of increased electric consumption and the gas users' tax is projected to increase as a result of rising natural gas prices. Communication users' taxes are continuing to decline, due to a variety of factors including market competition and changes in wireless plan purchases.
 - The transient occupancy tax is projected to increase 7% based on strong performance in recent months. Hotel tax revenue of \$136.2 million is projected in 2011-12. For perspective, collections were \$148.5 million in 2007-08, but fell to \$118.5 million in 2009-10. Recent events in Japan, a major trading partner and a source of visitors for Los Angeles, will likely dampen growth from our earlier transient occupancy tax forecast of 8%.
 - The documentary transfer tax is projected to increase by 5% to reach \$107 million. This account peaked at \$217 million in 2005-06 and fell to \$84 million in 2008-09.

The following two pages provide a perspective on the economy and the City's General Fund taxes. The balance of this book provides detail on each General Fund revenue.

Gross Domestic Product

Survey Conducted by Wall Street Journal,

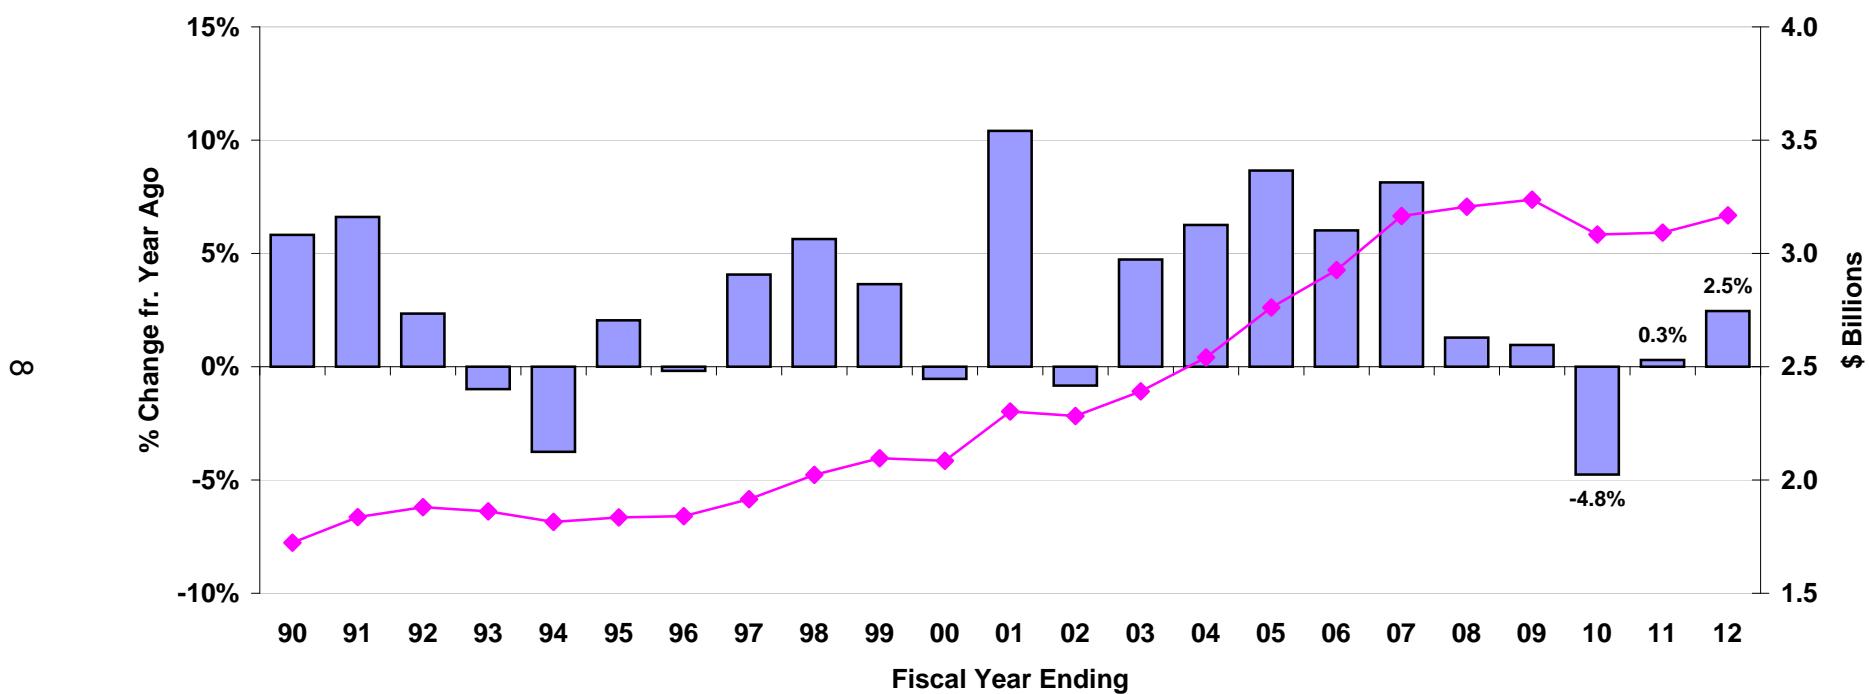

Growth in gross domestic product resumed in the third quarter of 2009. Average growth in 2010 was 2.5%. The forecast for 2011 averages 3.5%.

Property (includes VLF), Utility, Business, Sales, Hotel, Documentary and Parking Taxes

% change -- Left Scale

7 General Fund Taxes (\$Billions) -- Right Scale

Major General Fund taxes currently account for more than 70% of all General Fund revenue. The balance is fees, transfers from other funds, interest income etc. The recession affected each of these major taxes and combined revenue from these sources declined by 4.9% in 2009-10. Based on receipts through the first three quarters of 2010-11, some accounts such as sales and business taxes appear to be recovering, but property and utility taxes are still below the prior-year level. Current estimates are that, in aggregate, these major taxes will not grow significantly until 2011-12.

The property tax is almost one-third of City General Fund revenue. The following pages outline the many components of the property tax, but the primary determinant of City property tax receipts is the change in City assessed value which is calculated by the County Assessor. The Assessor's preliminary forecast of growth in Countywide assessed values for 2011-12 is 0.7%.

Change in Assessed Value - City of Los Angeles

This table displays the change in City assessed values since shortly after enactment of Proposition 13. FY 2010-11 is only the fourth year in the 30 year series with a decline in value. The 2010-11 decline is the second largest in the series, trailing only 1995-96, which reflected the property losses related to the Northridge earthquake. Very modest growth is forecast for 2011-12. The components of the Assessor's preliminary forecast are outlined on the following page.

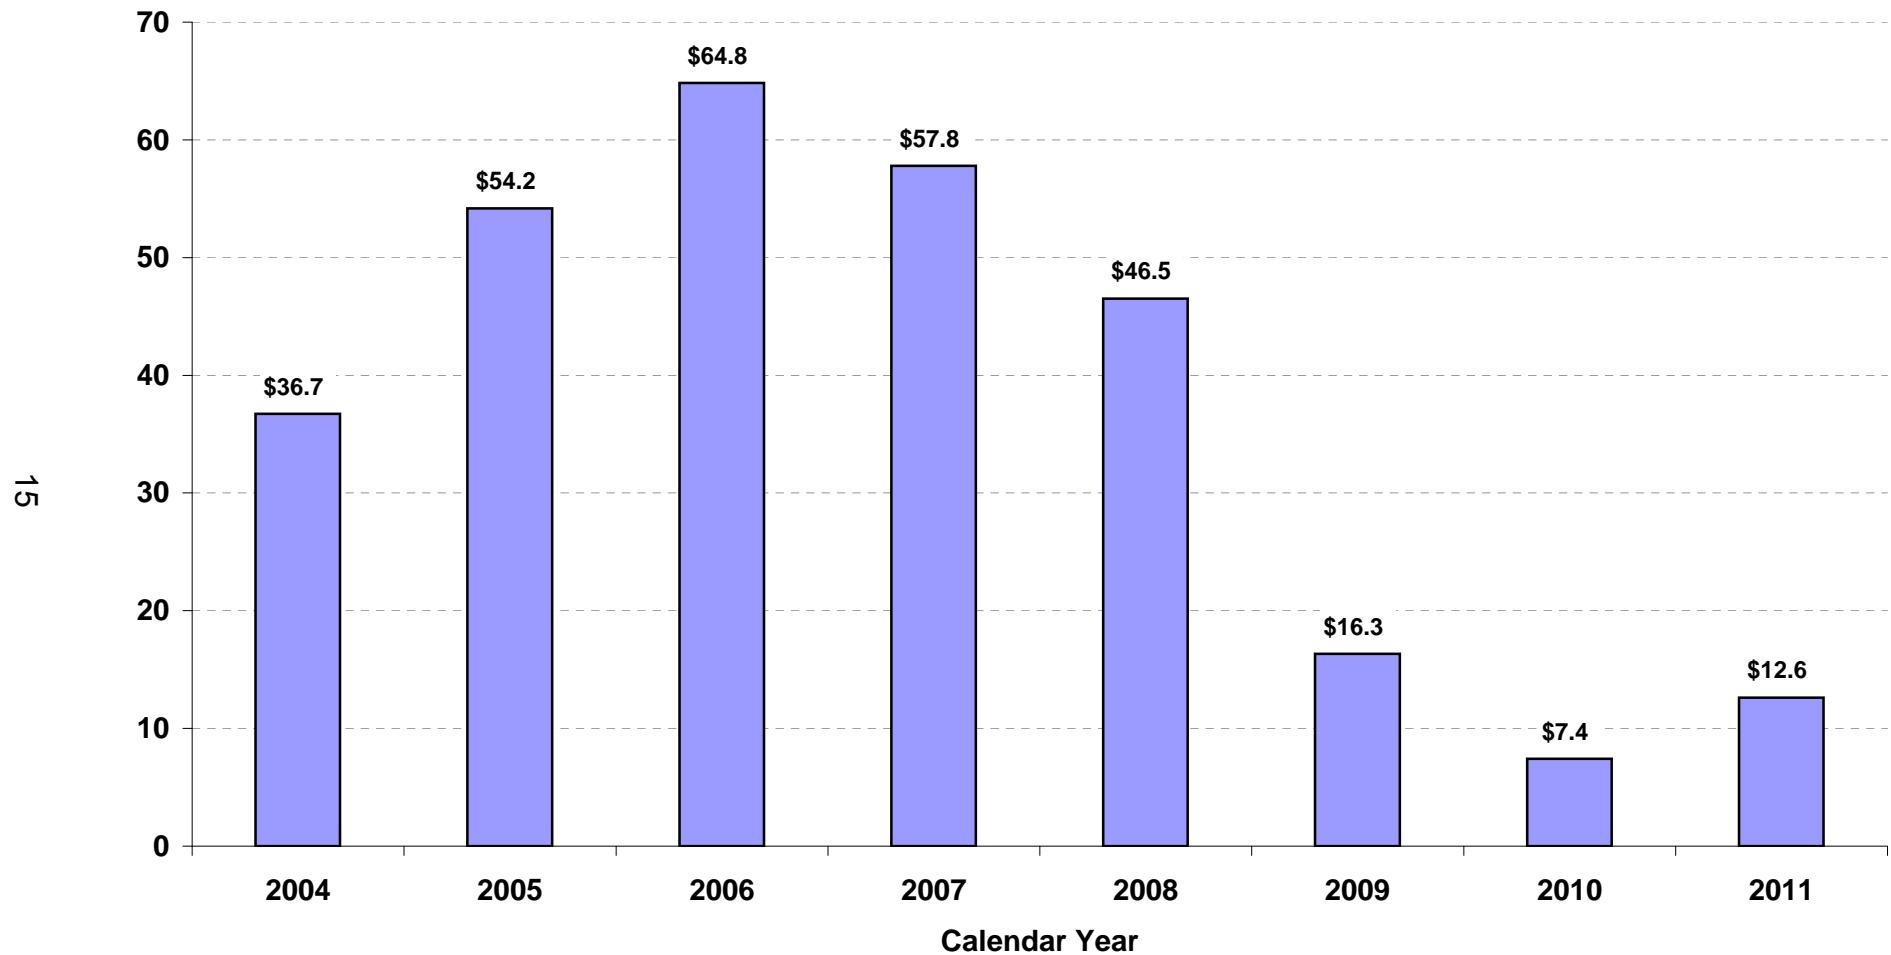

Factors Causing Valuation Changes in Countywide Roll
2011 Estimate for Change in Countywide Valuations Provided by Assessor on March 15, 2011
Dollar Values in \$ Millions

FOR CITY OF LOS ANGELES				
City Net Local Roll -- % change from prior year	7.9%	-0.1%	-2.2%	

Change in the City roll typically closely parallels change in the county roll.

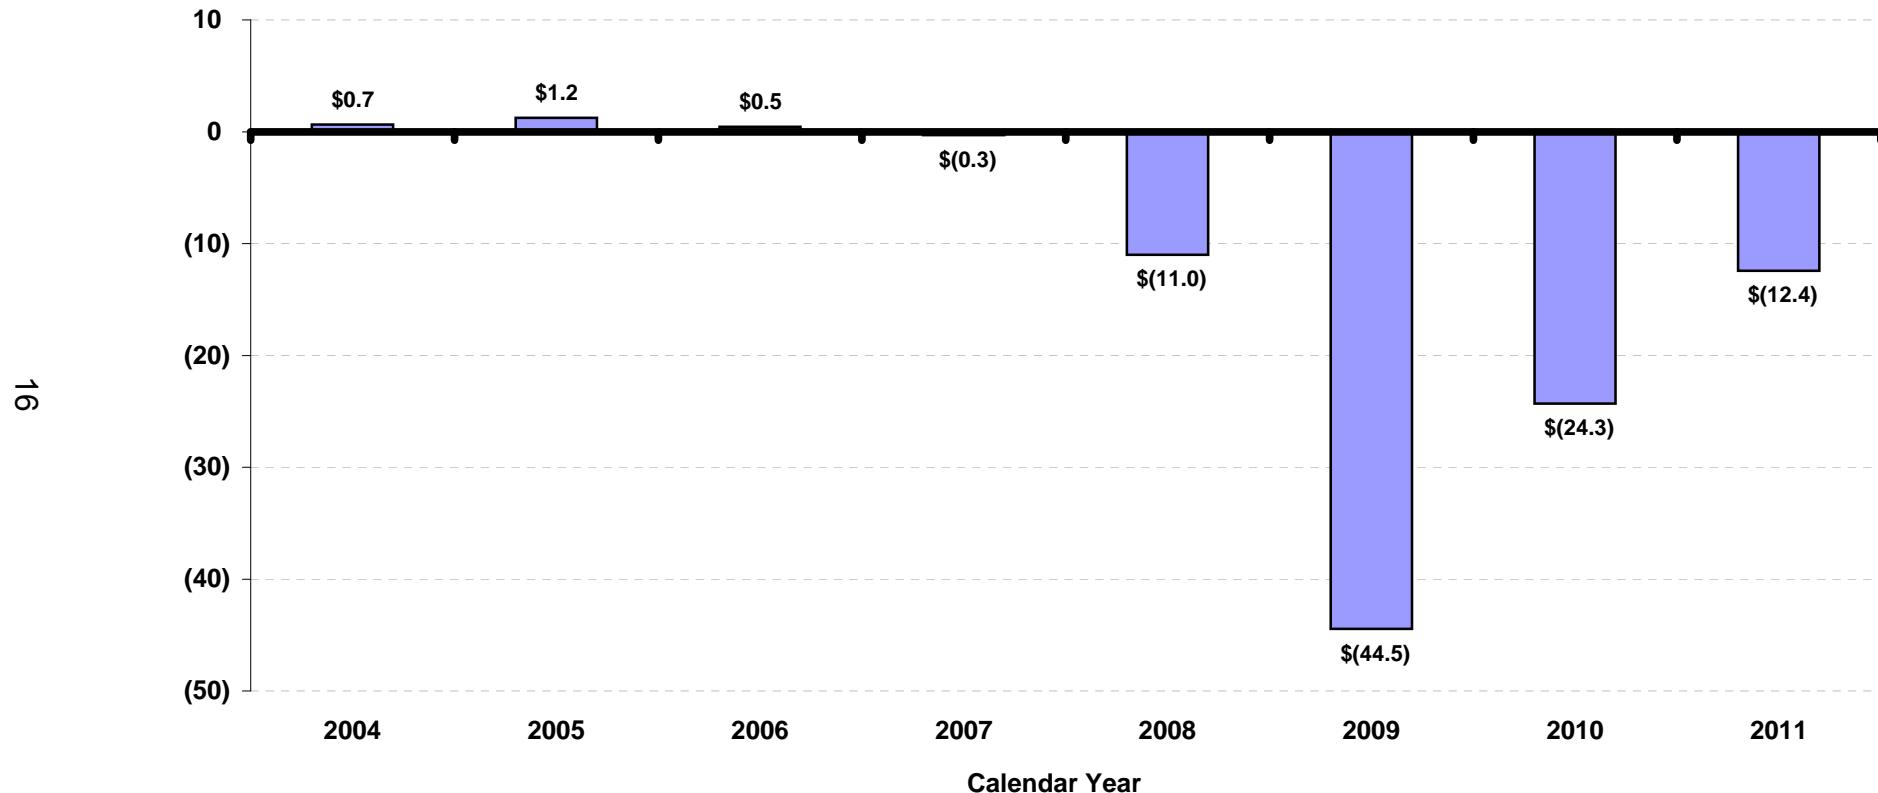

Charts on next pages provide some context for Proposition 8 changes and inflation adjustment.

Change in Countywide Roll Due to Sale of Property in \$ Billions

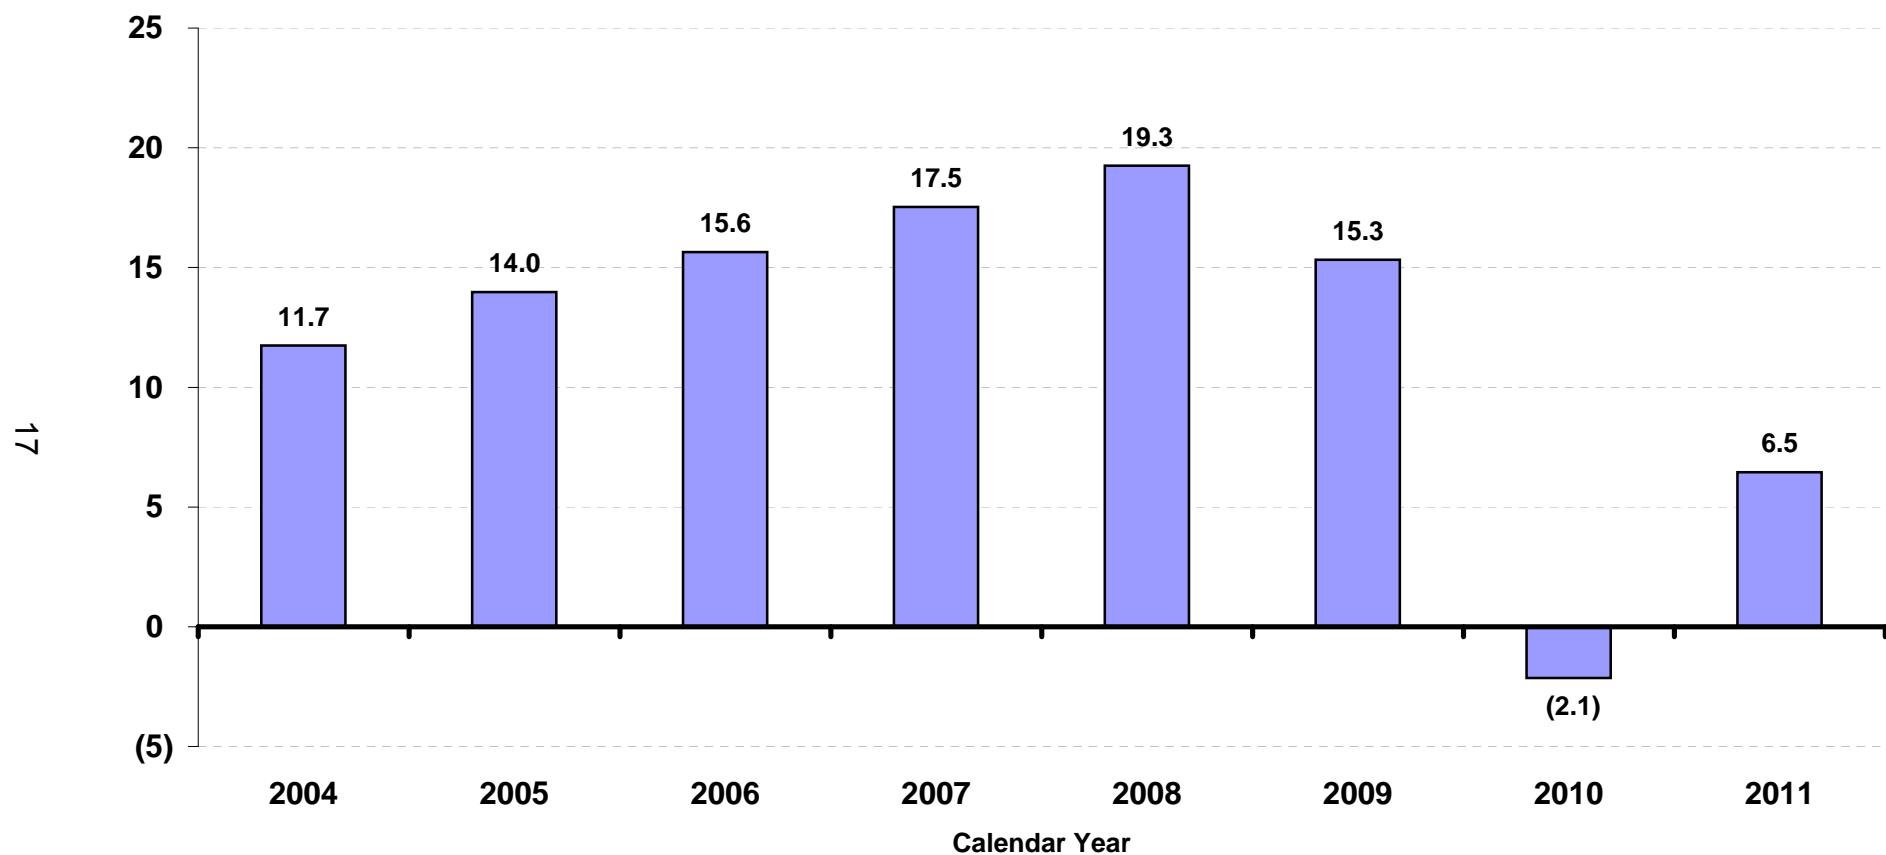

The value shown for 2011 is an early estimate by the Los Angeles County Assessor. Changes related to real estate activity remain below prior levels.

Proposition 8 Changes in Countywide Assessment Roll in \$ Billions

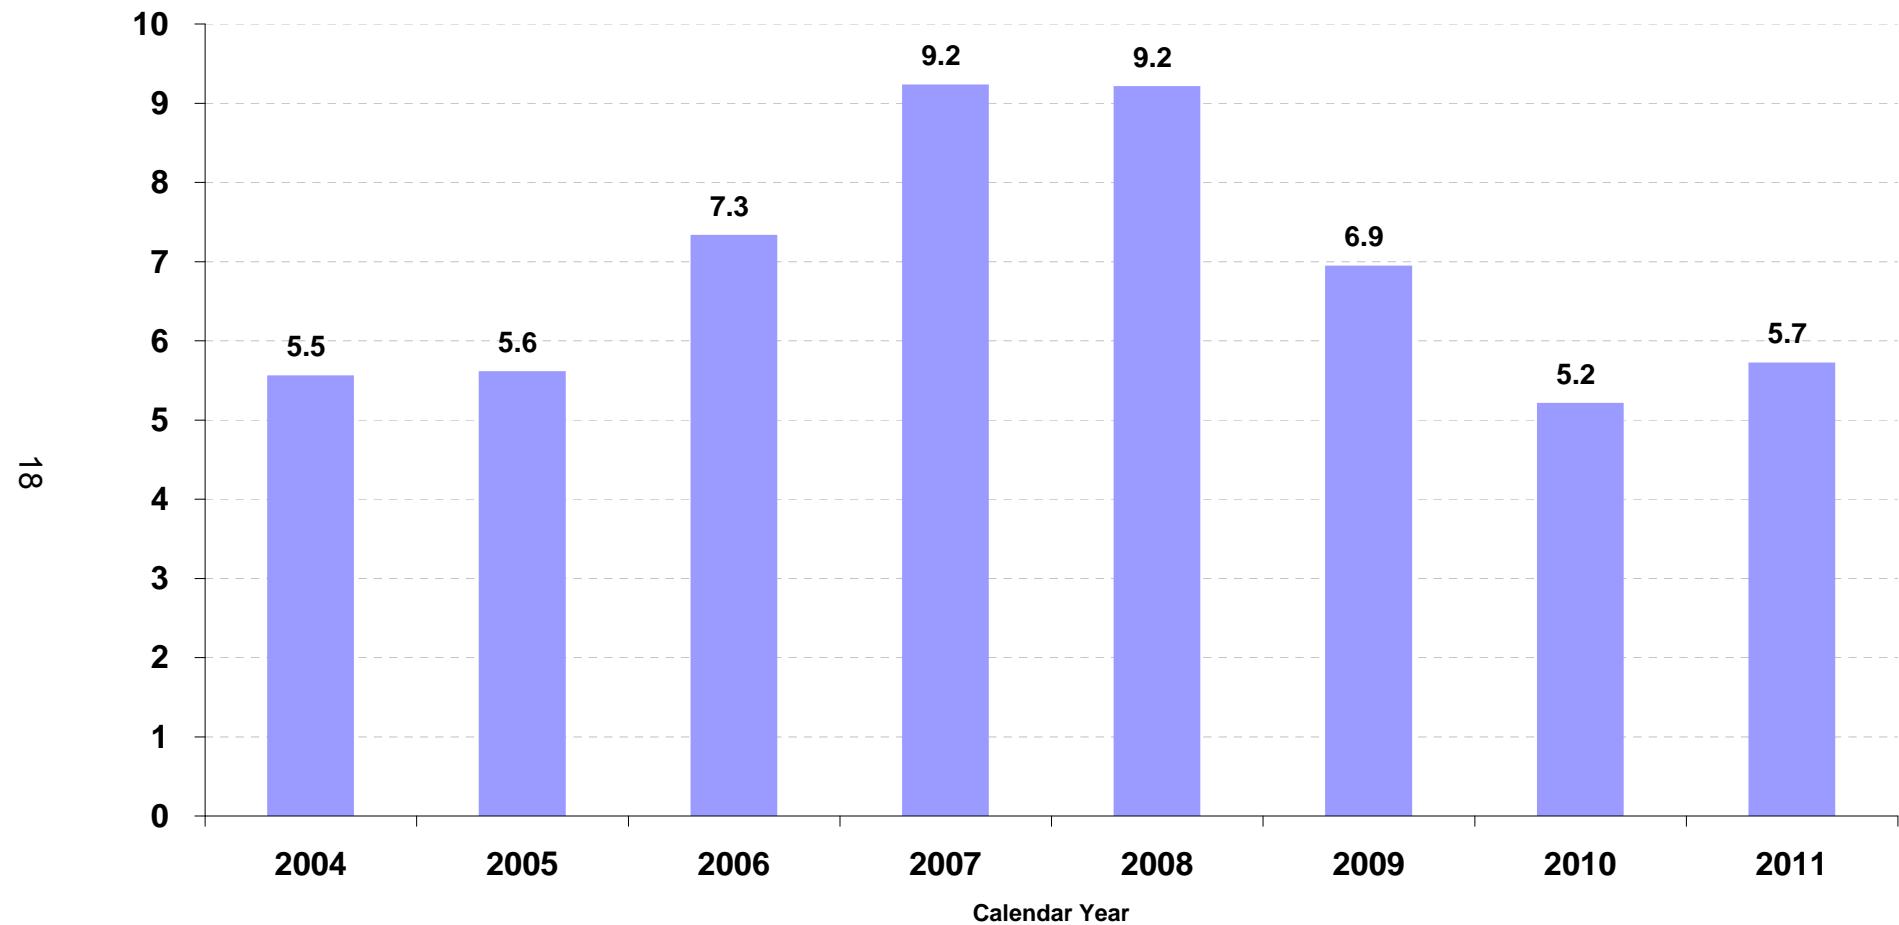

Proposition 8 changes include restorations in value after reductions in earlier years related to casualties or market conditions. Proposition 8 changes also include declines in value based on scheduled Assessment Appeals Board cases and cases decided in the current year. Between 2004 and 2007, restorations and declines in value offset each other. The value shown for 2011 is an early estimate by the Los Angeles County Assessor, and will offset growth in other categories. But the negative offset is only one-half of last year's amount.

Inflation Adjustment in Billions

City receipts from this category will be below normal level, reflecting a very low consumer price index.

Changes in New Construction in \$ Billions

Even in the downturn, new construction continues to increase the roll.

Vehicle license fees (VLF) are in-lieu of an "ad valorem" tax on the value of non-exempt registered vehicles in the State. The State collects this revenue and distributes receipts to local governments. Beginning in 2004-05, the State redirected most local VLF monies to itself and shifted property taxes to California cities to offset the loss of VLF monies. This account receives the property taxes in-lieu of all but a small portion of VLF receipts.

Taxable sales in 2009-10 were significantly below the prior year, but it appears state payments may have overcompensated. The 2010-11 remittance appears to adjust for the prior year payment.

Beginning in 2004-05, one-quarter of City sales tax receipts was redirected to the state to pay for state economic recovery bonds. To offset the local revenue loss, state law was amended to increase City property tax receipts by an amount equal to the sales tax loss. This account includes property tax remittances directed to the City in-lieu of the lost sales taxes. Over time, any annual change in this account should be in proportion to the change in sales tax receipts. Because the property tax collections and remittances to the City are on a different schedule than sales tax collections and remittances, matching of these revenues straddles fiscal years.

FY 2006-07 revenue included a \$44 million carryover from FY 2005-06. And FY 2008-09 contains a carryover of secured receipts that should have been received in FY 2007-08. This distorts presentation of the rate of growth in FY 2007-08 and FY 2008-09. The estimates on this page represent the "base" for the property tax revenue. Adjustments to the property tax revenue due to VLF and sales tax replacement are shown separately and are not included in this table. Detail for each property tax component follows.

The County tax year runs from December to August, overlapping two City fiscal years. Receipts in July and August belong to the County's prior tax year, but are recorded in the City's current fiscal year. When the County's payment pattern is normal, the City receives about 2 percent of secured receipts in July and August.

Secured Property tax -- 1%

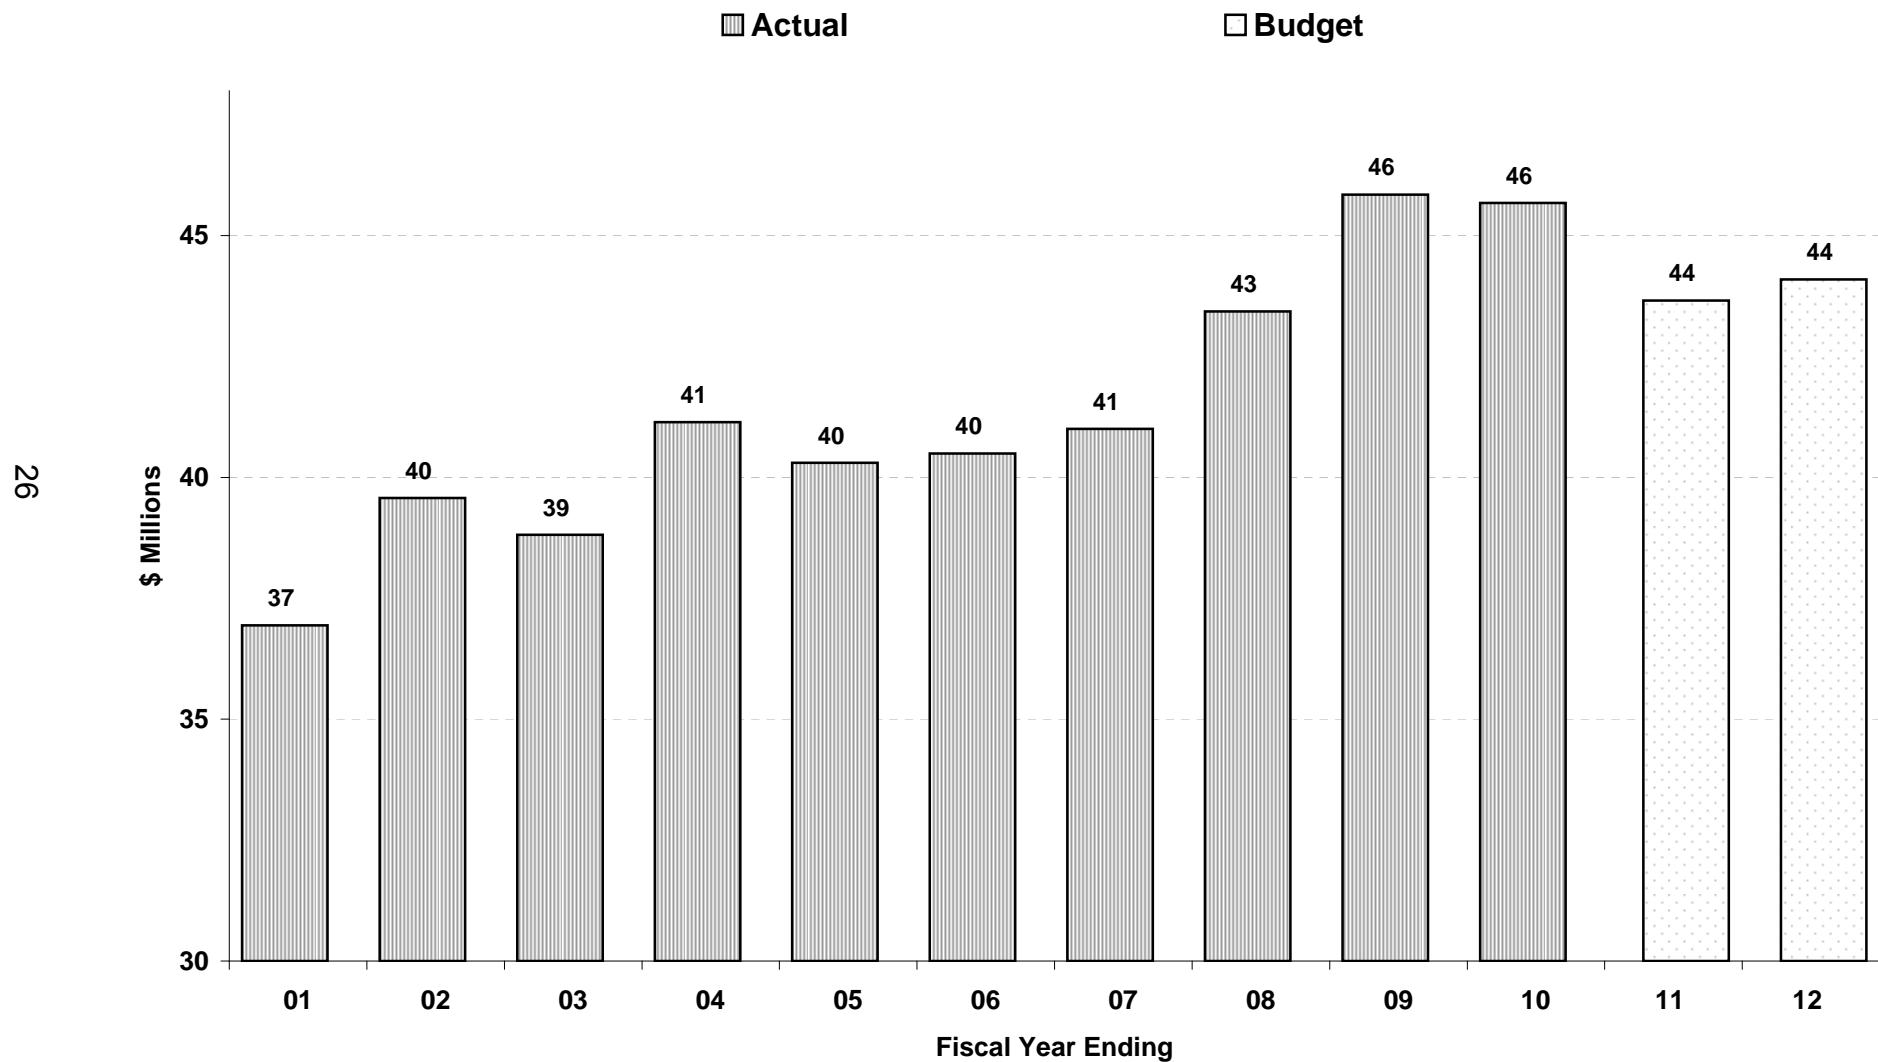

This shows a decline in secured receipts in FY 2010-11 and a modest increase in FY 2011-12. The unusual growth in FY 2006-07 was caused by receipt delayed remittance belonging to FY 2005-06.

Unsecured property tax is levied on property of common business usage not secured as liens for payment of taxes. Unsecured property is typically business equipment not attached to a building. Personal residences are exempt from unsecured property taxes. Estimating unsecured receipts involves an estimate of the current year levy, an estimate of the portion of the current year levy that will not be collected by June, and an estimate of prior levies that will be collected in the current year.

Unpaid property taxes, both secured and unsecured, are known as delinquencies. Delinquent taxes accumulate interest and penalties. Properties with taxes unpaid for five years are sold through auction by the State to recover unpaid taxes. The taxpayer may settle the delinquency by redemption. The City's share of principal, penalties and interest is distributed by the County.

Levy of property taxes is based on the lien date of January 1. Properties assessed after the lien date as a result of real estate sales or improvement are counted as supplemental taxes. These taxes are distributed by the county to the various taxing jurisdictions about six months following receipt by the County. The double-digit annual percentage price increases in the real estate market through FY 2005-06 created an environment for a relatively high level of supplemental adjustments. FY 2008-09 was a transition year. The 2010-11 and 2011-12 estimates are near normal level.

Property Tax Supplemental -- 12-Month Moving Sum

Supplemental receipts exceeded \$50 million in the three-year period ending 2007-08. The 2010-11 and 2011-12 estimates are back to historic levels.

The property tax administrative cost is recovered from each jurisdiction that shares in the distribution of property tax revenue, unless the jurisdiction is exempted by law. The County Auditor-Controller determines each local jurisdiction's proportionate share of the property tax administrative costs by multiplying the total property tax administration costs by the ratio of property tax revenue received by each jurisdiction.

Assessed valuations of property are revised downwards when an appeal of the valuation is successful. There are two types of appeals. The base year appeal revises the assessed value downwards and the revision of value continues for the tenure that the property does not change hands. A proposition 8 appeal is an economic hardship relief afforded to a property owner for the specific period of one year.

Refunds

Refunds associated with declining market value are still working through the system.

This category includes what is usually a relatively small amount for adjustments to property taxes due to assessment appeal reductions; mistakes; incorrect assessments; or corrections to assessment payments collected by the Treasurer/Tax Collector. Adjustments can be either positive or negative. The March 2008 receipt was unusually large and included a prior year misplaced tax due the City and a litigation settlement. Since these adjustments are usually under \$1 million annually and could be either positive or negative, the estimate includes all entries to date for the current fiscal year and neither adds or subtracts anything for the budget year.

The Central Business District (CBD) Community Redevelopment Agency (CRA) received its last special increment of property tax late in FY 1999-00. Monies previously dedicated to the CRA are now redirected to the original taxing jurisdictions.

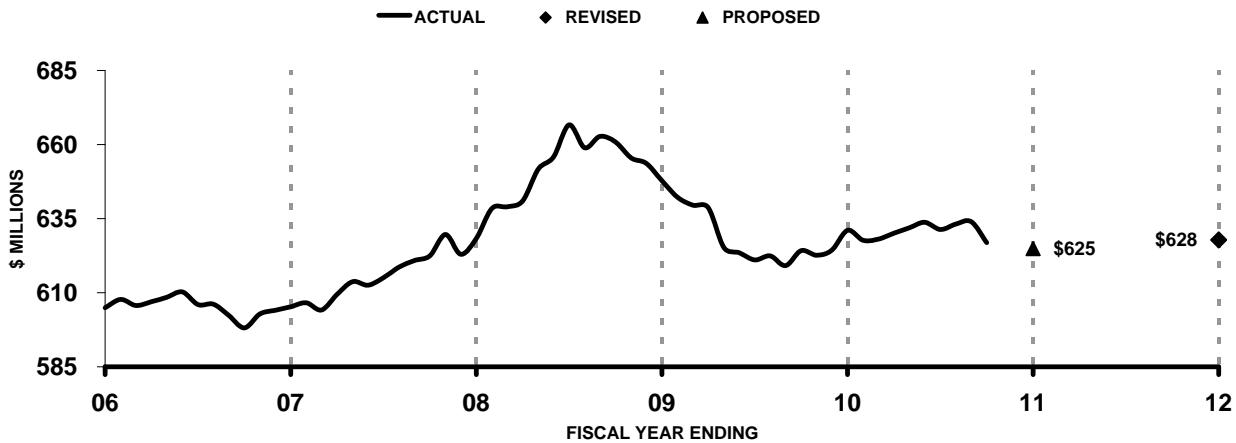

Beginning in FY 2006-07, the County Auditor-Recorder no longer reports current-year secured property taxes in this category and includes such receipts with secured property taxes. The amounts shown for FY 2007-08 and FY 2008-09 are for prior years. Given the uncertainty regarding the CRA, no estimate is made for this category.

UTILITY USERS' TAX
12-MONTH MOVING SUM

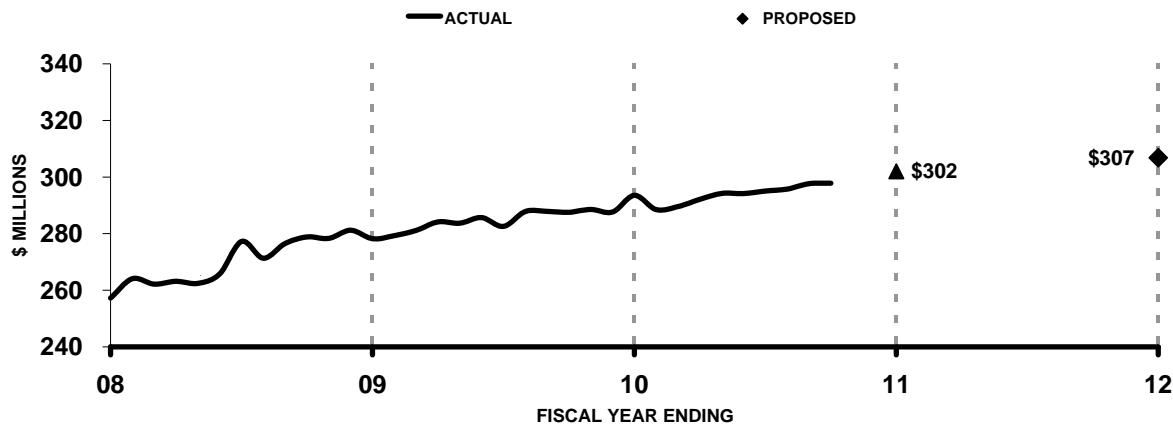

The utility users' tax is composed of the electric, gas and communications users' taxes. Its components are affected by the price of fuel, weather and the changing telecommunications marketplace. In 2010-11, electric users' tax revenue increased by 2.9% due to rate increases; the gas users' tax is projected to be about the same as the prior year due to relatively stable gas commodity prices; and the telephone users' tax is projected to decline by 6% based on current trends. For 2011-12, the electric users' tax is expected to grow at the same rate as electric consumption -- 1.6%; the gas users tax is projected to grow due to projected rising gas commodity prices; and the telephone users' tax is expected to continue declining. Detail on each account follows.

Consumption in Gigawatts
12 Month Moving Sum

— Gigawatt Hour Sales ▲ DWP Estimate

Power sales (measured in Gigawatt hour sales) declined 4.7% in FY 2009-10 and another 2.4% in the first eight months of FY 2010-11. Consumption stabilized beginning in November 2010. Power sales are anticipated to increase by 1.6% in 2011-12 and be at about the same level as 2009-10 electric use.

TELEPHONE USERS' TAX - 12-MONTH MOVING SUM

This account has been declining steadily since the beginning of FY 2009-10. The estimate is based on current revenue and trends. At this time, there is no basis to anticipate possible revenue consequences of any pending litigation.

The City imposes a tax upon businesses located within the City or doing business therein. The City's business tax is typically based on gross receipts; it is not an income tax. The applicable tax rate varies from \$1.01 per \$1,000 to \$5.07 per \$1,000 of gross receipts depending on which classifications are applicable to each business. Taxpayers apportion gross receipts between jurisdictions in cases in which they operate or make sales both inside and outside the City. Business tax reform to date includes a 15% tax rate reduction, a small business exemption, a start-up incentive, a bad debt deduction, entertainment industry tax relief, tax simplification through consolidation of business tax classes, internet tax relief and the recently-approved film production tax credit. The 2011-12 estimate includes \$15.2 million in economic growth; after adjusting for the film production tax credit, this is 4% above estimated 2010-11 renewal revenue.

Tax receipts through March 2010 are \$2 million ahead of budget and 5% more than the prior year.

Change in City Sales Tax Allocation by Quarter

The City's fiscal year sales tax revenue (July-June) is based on taxable sales between April and March. The budget anticipated 2010-11 taxable sales growth in City of 4%. City taxable sales growth for the Christmas quarter (September-December) is 6.1%. Average growth for the first three quarters of 2010-11 is 4.2%. Results for the final quarter affecting 2010-11 will be available in late June. Growth of 5% is estimated for 2011-12.

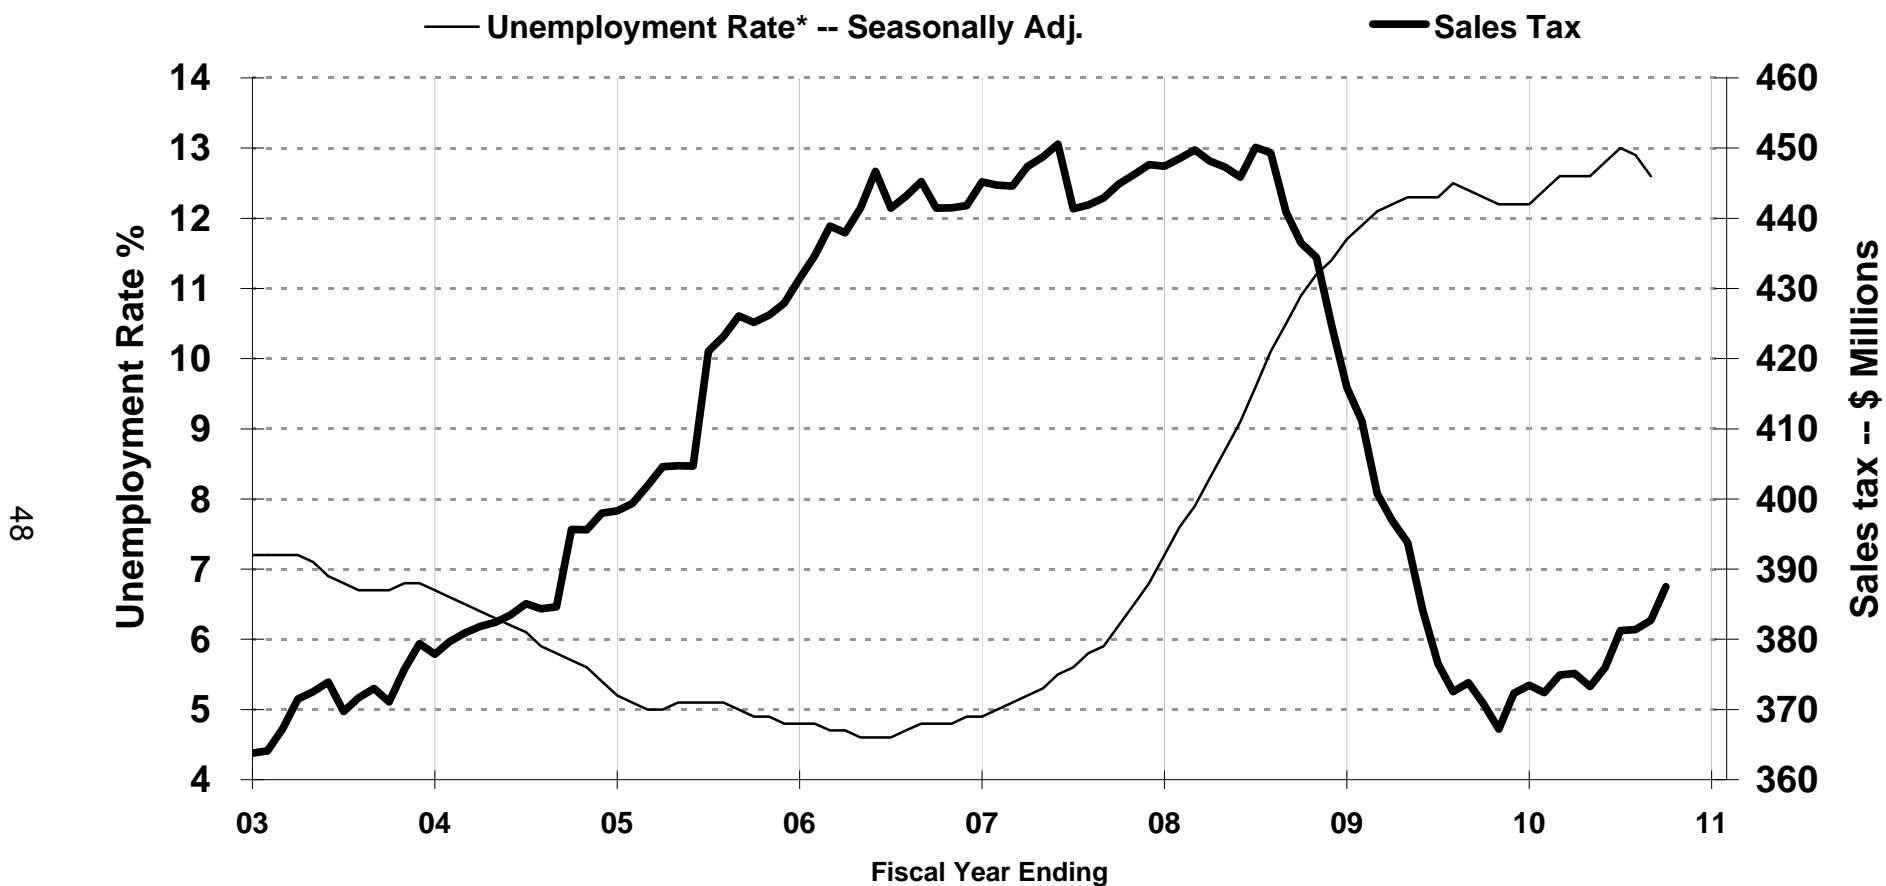

Taxable Sales / Sales Tax Forecasts

	<u>10-11</u>	<u>11-12</u>
State Legislative Analyst Taxable Sales for California @ February 2010	8.5%	7.0%
Los Angeles County Economic Development Corporation Taxable Sales for Los Angeles County @ Feb 16, 2010	4.5%	6.3%
Beacon Economics Taxable Sales for California @ March 2010	5.4%	7.0%
UCLA Taxable Sales for California @ March 2010	2.2%	6.0%
LA County CEO Sales Tax for LA County @ March 2010	4.0%	5.0%
Board of Equalization statewide sales tax advance for 1st quarter of 2011	0.0%	--
MuniServices Los Angeles City Sales Tax Forecast @ December 2010 based on data through September 2010	2.6%	2.3%
City of Los Angeles Sales Tax Cash Receipts for first 3 quarters of 2010-11	5.0%	--
City of Los Angeles Allocation for first 3 quarters of 2010-11 (actual allocation basis)	4.2%	--
Proposed Budget for City of Los Angeles Sales Tax	4.1%	5.0%

The unusually wide range of estimates is partially the result of recent state action shifting state-level gasoline taxes out of the sales tax account. Experts are trying to sort out cash shifts to determine underlying taxable sales in recent periods. It is possible the base for some forecasts is distorted by this shift. As shown in the table above, the Board of Equalization reduced the current quarter cash advance to cities because of this concern. With the exception of the Board action, all of the forecasts shown above are for growth through 2011-12.

The City budget estimate is more cautious than the higher estimates shown on this table. This caution is because links between international tensions, rising oil prices and the effects of the disaster in Japan on the Los Angeles area economy are not currently known. The budget estimate also recognizes there may be some distortion in analysis of statewide taxable sales caused by changes in the state-level tax law.

City 1% Sales Tax and Local Unemployment Rate

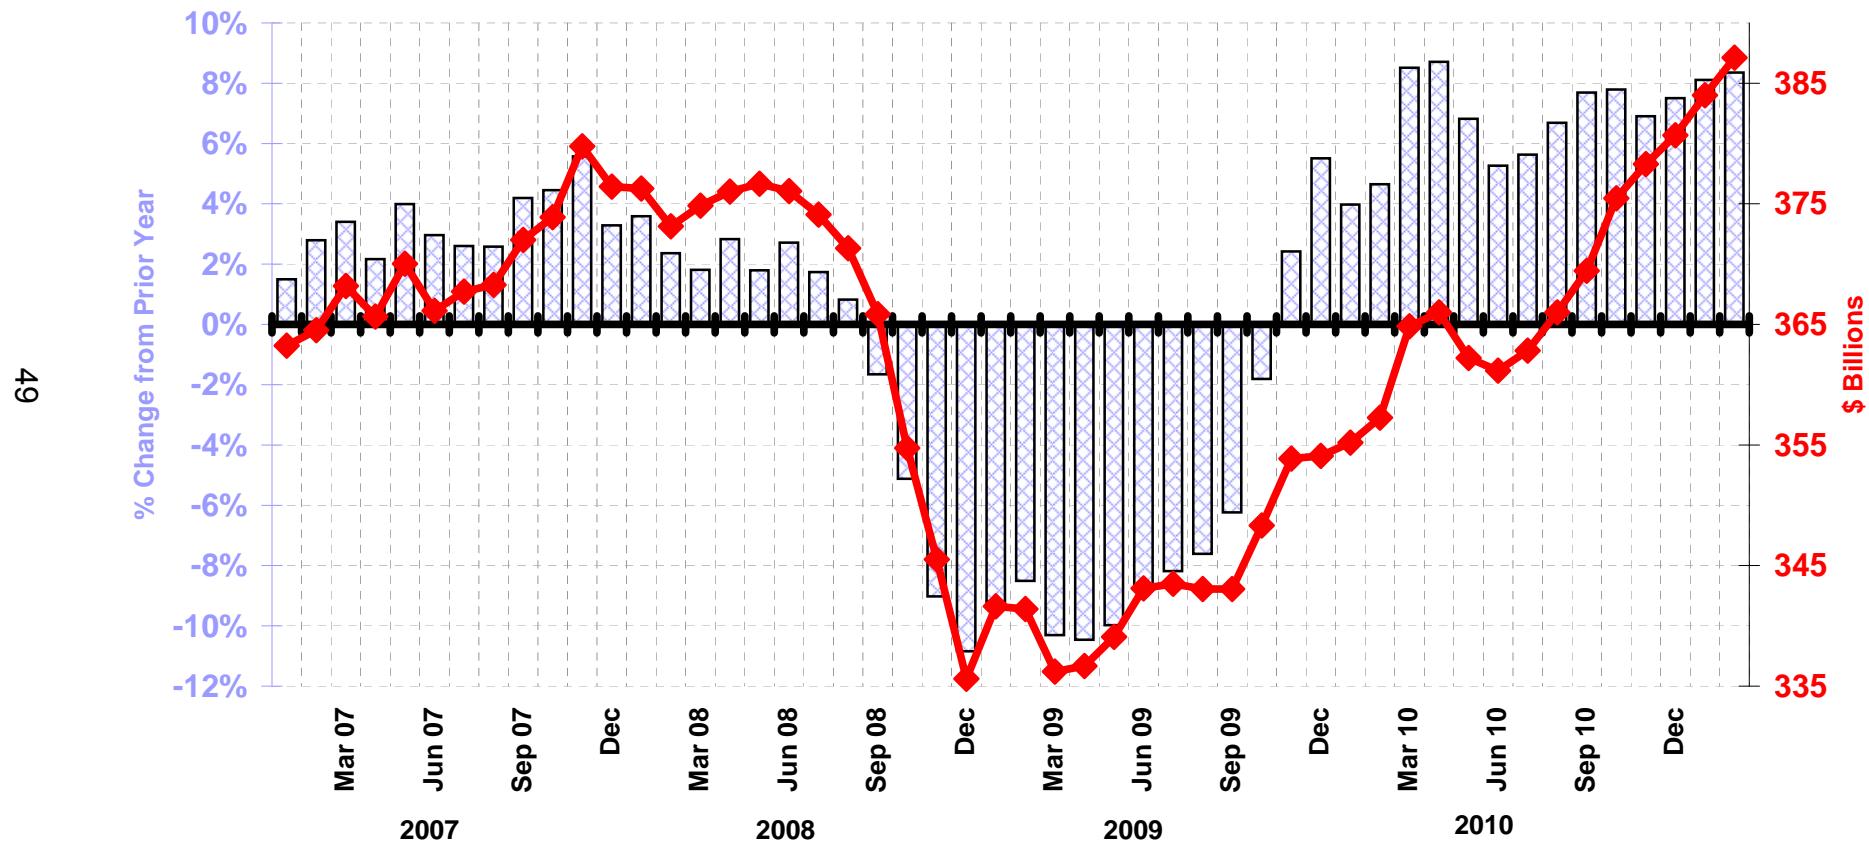

Unemployment Rate at February 2011: 12.6% -- Over time, as the local * unemployment rate declines (thin line), the rate of growth of City sales tax (thick line) increases. As the unemployment rate increases, growth in City sales tax slows or decreases. In December, the unemployment rate was at its highest level in at least 35 years. This high local unemployment rate suggests caution when considering higher taxable sales forecasts currently available.

*Los Angeles-Long Beach-Glendale, CA Metropolitan Division

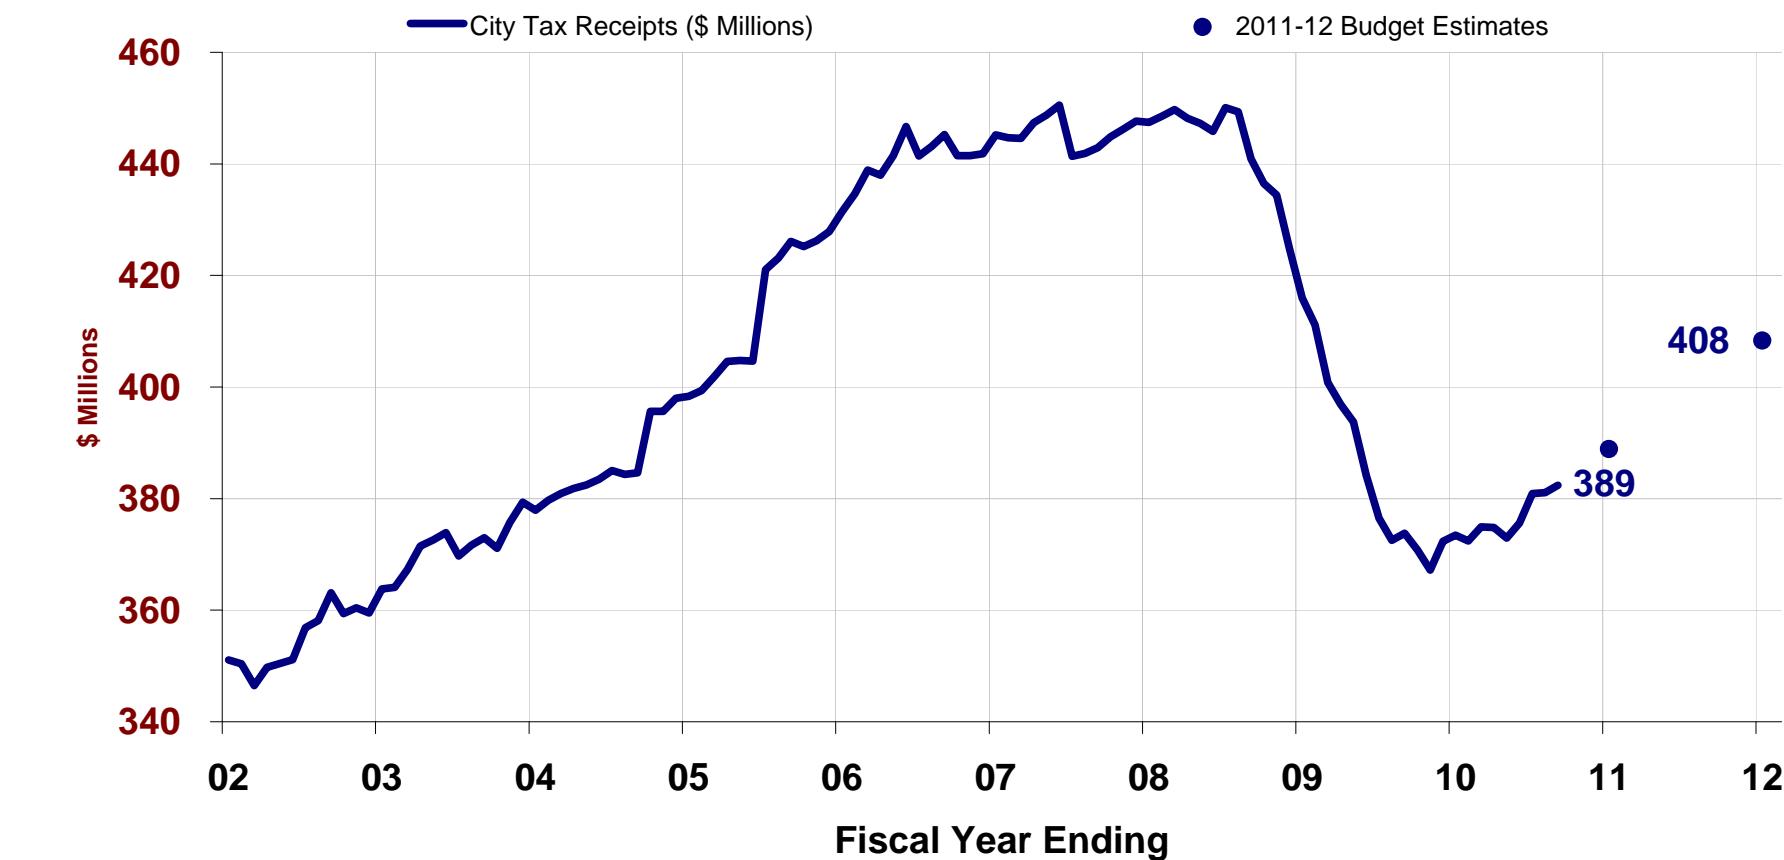

U.S. Retail Sales -- Seasonally Adjusted

% Change from Same Period Year Ago U.S. Retail Sales in \$ Billions

Nationwide sales through February 2011 are 8.4% above the same period in 2010.

Sales Tax -- City Sales Tax at 1% Rate

The City tax rate was changed from 1% of taxable sales to 3/4% as part of a state budget balancing plan. For comparative purposes, this table shows sales tax at the 1%-tax rate. Growth of 4% in 2010-11 and 5% in 2011-12 are consistent with rising receipts during the last 12 months and are cautious compared to some forecasts by analysts and economists. International tensions, rising oil prices and the effects of the disaster in Japan on the Los Angeles Area economy suggest this caution.

CITY OF LOS ANGELES
Sales Tax 55-Year Perspective
 1% OF TAXABLE SALES -- (THOUSAND DOLLARS)
 (FIRST FULL YEAR OF STATE COLLECTION OF THIS LOCAL REVENUE WAS FY1956-57)

FISCAL YEAR	COLLECTION	% CHANGE	
1956-57	39,313		This table presents City sales tax receipts from FY 1956-57 through FY 2008-09 and estimates for FY 2010-11 and FY 2011-12.
1957-58	39,565	0.6%	
1958-59	40,196	1.6%	
1959-60	43,335	7.8%	Beginning in FY 2004-05, the local sales tax was temporarily reduced from 1% to 0.75%. To facilitate comparison, this table shows City sales tax in FY 2004-05 and thereafter on a pro forma basis at the previous 1% rate.
1960-61	43,360	0.1%	
1961-62	44,433	2.5% }	
1962-63	47,500	6.9% }	
1963-64	50,001	5.3% }	Each year is affected to some extent by such events as audits, tax increases known as "base broadeners," new tax exemptions, law changes, major refunds and other adjustments. Many factors besides the economy influence City sales tax receipts.
1964-65	52,541	5.1% }	
1965-66	54,355	3.5% }	
1966-67	57,107	5.1% }

The City's tax rate is .75% of taxable sales beginning in FY 2005-06 (previously the rate was 1%). The overall tax rate in the City is 9.75%.

Sales Tax Components

Los Angeles County

2011

<u>State Rate</u>		
General Fund Portion	6.00%	State General Fund; increased from 5% effective April 1, 2009.
Local Revenue Fund	0.25%	State Fiscal Recovery Fund
Local Public Safety	0.50%	To support health program costs.
Total State Rate	<u>7.25%</u>	
<hr/>		
<u>Uniform Local Tax Rate</u>		
County Transportation	0.25%	This rate is levied by all counties, of which .25 % is for county transportation funding. The remaining portion is allocated to the point of sale jurisdiction.
Local Point of Sale	0.75%	This is the City sales tax. The City's share was reduced by the triple flip starting September 2004.
Total Uniform Local Rate	<u>1.00%</u>	
<hr/>		
<u>Optional Local Rates</u>		
Proposition A	0.50% }	State law permits optional voter approval of local tax rates. These rates are levied in .25% and .5% increments.
Proposition C	0.50% }	Voter approved measures to improve public transit and reduce traffic congestion. Measure R was approved on the November 2008 ballot.
Measure R	0.50% }	
Total Optional Local Rate	<u>1.50%</u>	
Total Sales Tax Rate in Los Angeles County	9.75%	The highest rate in California is currently 10.25%

The transfer from the Power Revenue Fund has historically been set as a percentage of prior-year gross operating power revenue. The Charter provides that the transfer may not exceed power system net income. The estimate for City Fiscal Year 2011-12 was provided by the Department of Water and Power General Manager.

Parking citation issuance has steadily declined from 3.2 million citations in 2005-06 to under 2.6 million in the previous 12 months. The parking fine schedule has increased during that time including additional fines and late penalties established in 2010-11. Even with significant fine increases, parking fine revenue is stagnant. See charts on following two pages.

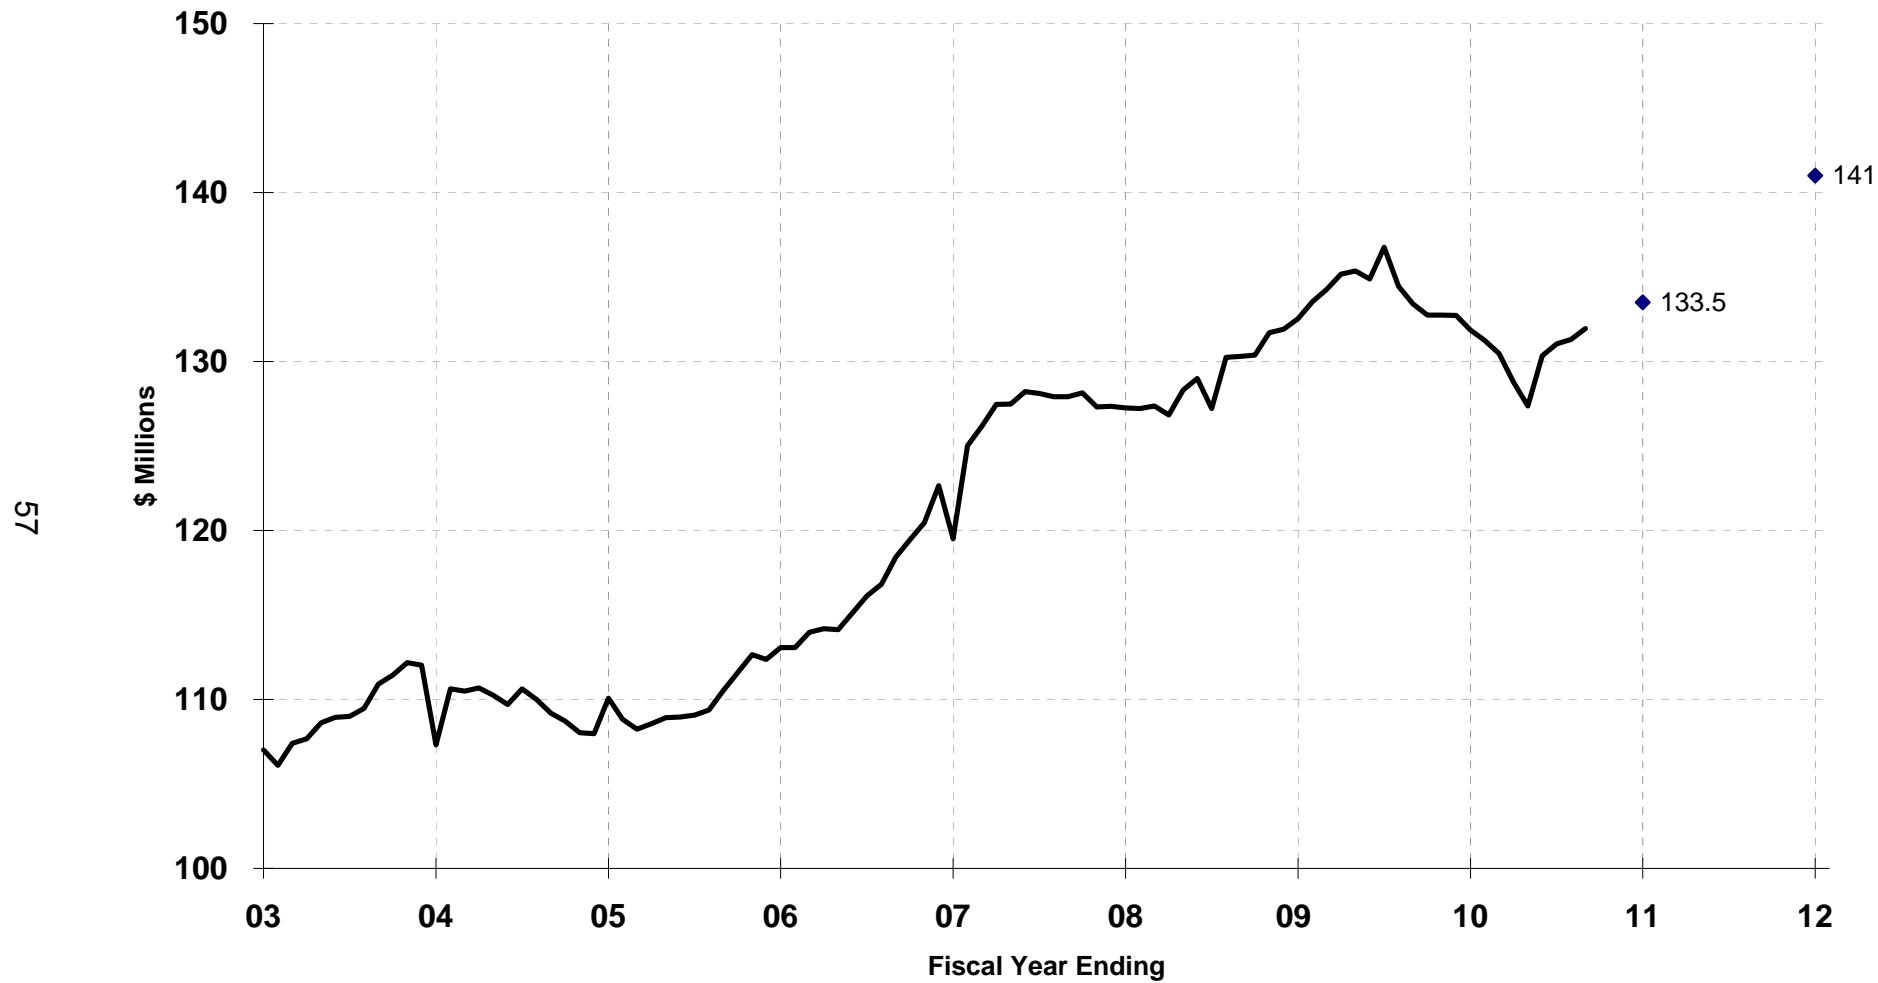

To supplement enforcement staff, the budget proposes that the Department of Transportation begin recruiting and hiring part-time traffic officers. It is estimated this will increase 2011-12 revenue by \$9 million from the projected \$132 million if current trends continue.

Parking Citations Issued 12-Month Moving Sum

A part-time traffic officer program is proposed to effectively enforce parking regulations.

Parking Revenue 12-Month Moving Sum

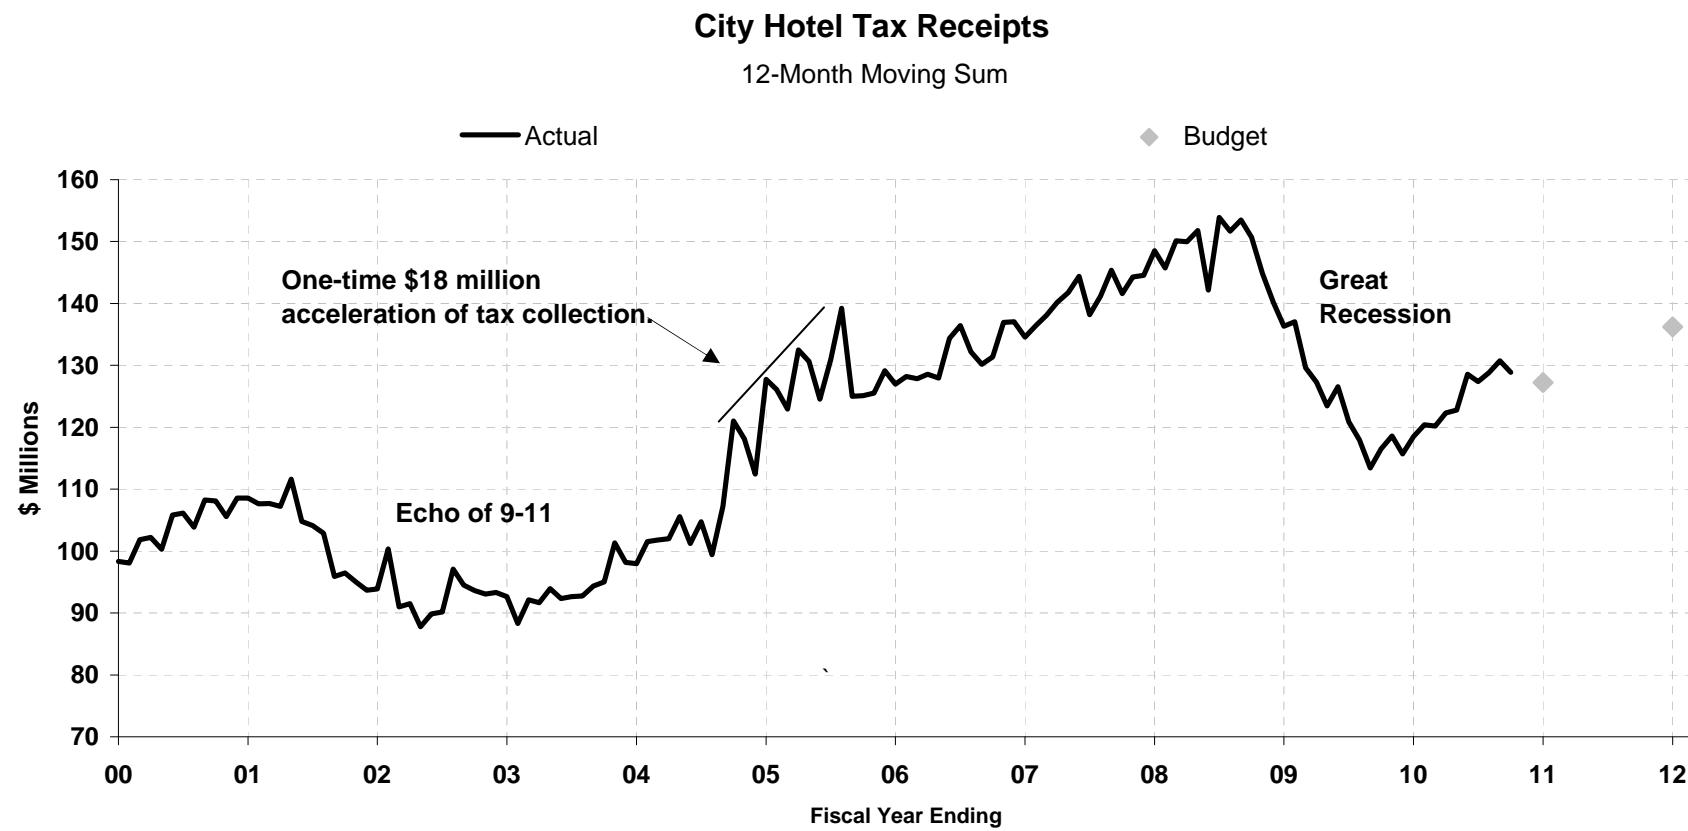

The projected revenue increase is linked to fine and penalty increase established in 2010-11 and full implementation of a part-time traffic officer program.

Cumulative receipts for the first nine months of 2010-11 are 12% above the same period last year. But March 2011 receipts were below last year's level. Recent events suggest caution. See discussion on next page.

Annualized receipts fell 35% between February 2009 and February 2010. Receipts began rising in March 2010, and have been in the \$128 million range since November 2010. Receipts for the first nine months of 2010-11 are 12% above the same period last year, and double-digit growth in the hotel tax is common after a recession. Although month-to-month variations are not necessarily significant, annualized receipts declined in March. That and recent developments provide a cautionary note in estimating this City revenue. International tensions, rising oil prices and the effects of the disaster in Japan dampen the recent strong forecast of growth in Los Angeles visitor-related industries. Although the first nine months of 2010-11 experienced 12% growth, the proposed budget projects about 7% growth for both 2010-11 and 2011-12.

Documentary Transfer Tax

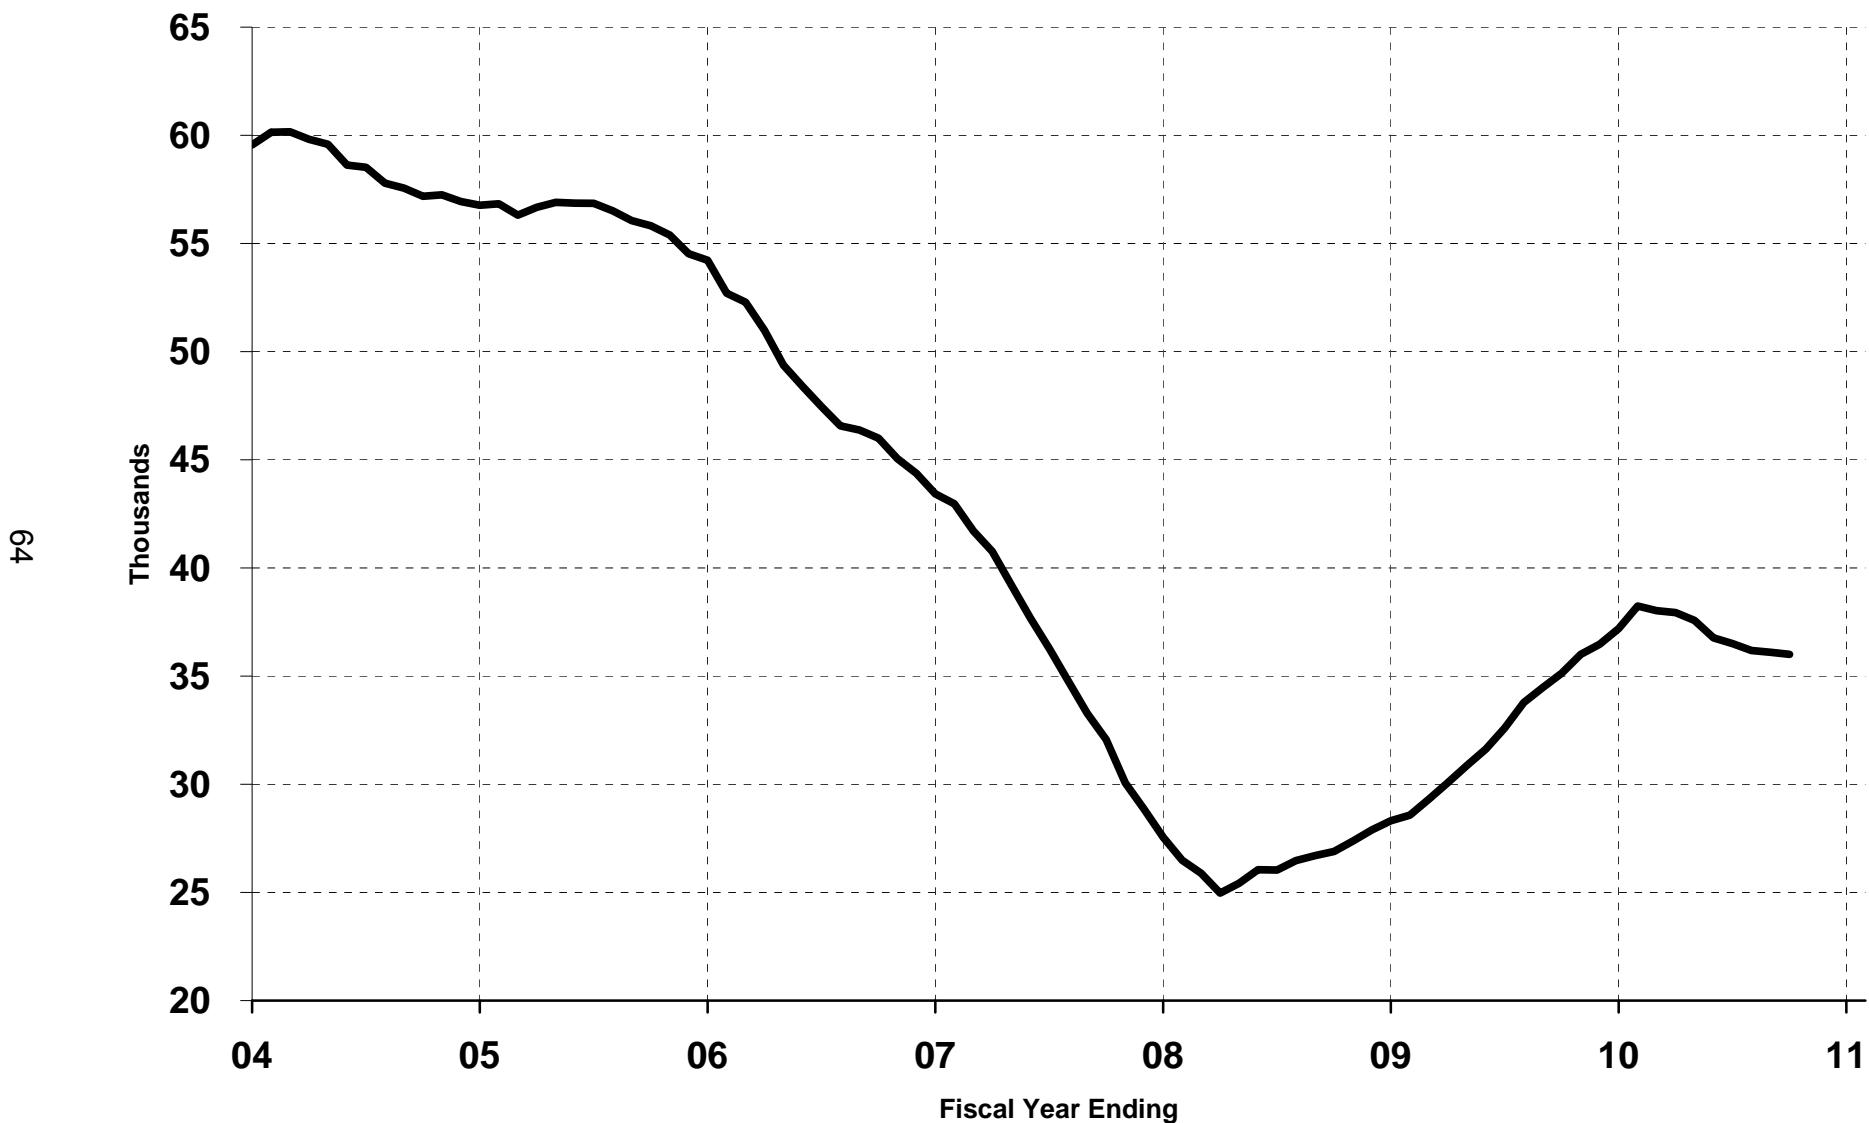

12-Month Moving Sum

Receipts for the first 9 months of FY 2010-11 are 13.2% above the prior year, but below the level needed to realize the 17% budgeted revenue increase. Estimate for 2011-12 is based on continued modest recovery in housing market.

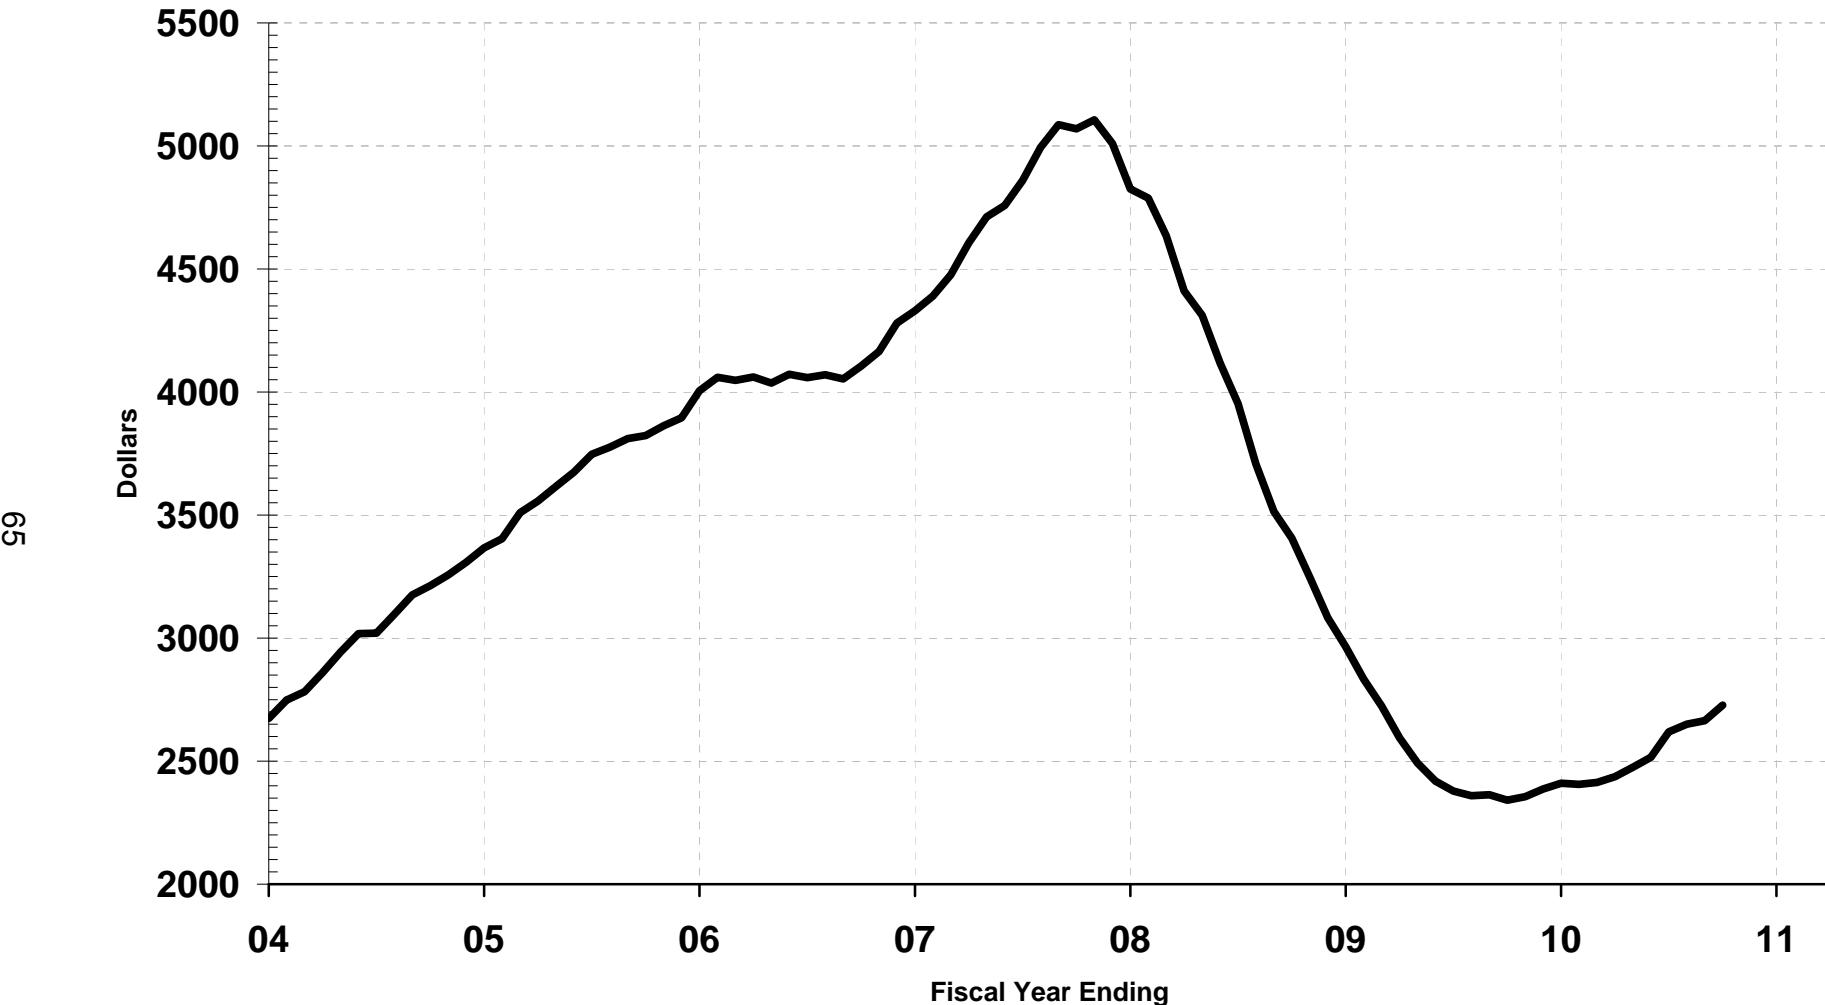

* Data prior to August 1991 adjusted for tax rate change.

**Deeds Recorded in City
12-month Moving Sum**

Volume, as measured by recorded deeds, was at the historic low point in October 2008; it increased consistently for the next 21 months, but has declined since August 2010.

City Revenue Per Recorded Deed
12-Month Moving Average
(Imputed from documentary transfer tax receipts and deed recordings)

This index is a proxy for combined commercial and residential real estate prices in the City.

This account is recovering slowly from the economic downturn. Forecast for 2011-12 is based on improved economy and increased enforcement. See graph on next page.

Parking Users' Tax

12-Month Moving Sum

■ % Change from Year Ago -- Left Scale ▲ Revenue -- Right Scale ● Budget -- Right Scale

Monthly pattern of receipts is erratic, but when viewed annually, parking tax follows economy.

The largest and most variable component of franchise income is the natural gas franchise fee. A major factor in the calculation of this fee is the price of natural gas, which is rising. The Official Police Garage franchise fee estimate is adjusted to reflect the shift from a quarterly payment schedule to a bi-weekly scheduli. Additional information on these and other franchise fee accounts is presented on the following pages.

This category records franchise fees (generally from users of public rights-of-way). This includes the distributors of natural gas; cable TV operators; and other businesses that operate as a result of obtaining a City franchise, including official police garages and taxi cabs. Additional detail on current franchise revenue is presented in the following pages.

This category records franchise fees (generally from users of public rights-of-way). This includes the distributors of natural gas; cable TV operators; and other businesses that operate as a result of obtaining a City franchise, including official police garages and taxi cabs. Additional detail on current franchise revenue is presented in the following pages.

Franchise Income - Gas

4-Quarter Moving Sum

The commodity price of natural gas is rising. Gas franchise fee estimates for 2010-11 and 2011-12 are indicated with the square markers.

The franchise fee is 7% of an Official Police Garage operator's revenue from towing fees, storage fees, and vehicle lien processing fees. The account has considerable fluctuation, some of which is attributable to enforcement activity such as audits.

Beginning in April 2011, payments for franchise fees by Official Police Garage operators is due on a bi-weekly basis instead of the long-standing quarterly remittance schedule. This change will have a beneficial effect on police monitoring of franchisees and will also result in a one-time acceleration of revenue in 2010-11 and in 2011-12. The 2010-11 Official Police Garage franchise fee estimate is increased by \$1 million and \$0.2 million is added to the 2011-12 revenue estimate.

OPG franchise fees averaged \$1.1 million in the first three quarters of 2010-11. But in the prior two years, quarterly revenue averaged \$1.3 million including one-time audit recoveries. We use \$1.2 million as a best available basis for quarterly planning. Best estimate for 2010-12 revenue is \$5.5 million (\$3.3 million received through March; \$1.2 million to be received during the April-June quarter for January-March activity; and \$1.0 million in acceleration). Best estimate for 2011-12 is \$5.0 million (average of \$0.4 million per month plus 0.2 million in acceleration to be received after June 30, 2011.)

Franchise Income - Official Police Garage

The data points on the above graph for FYs 2010-11 and 2011-12 represent estimates. The spikes typically reflect enforcement activity such as audits. The estimates are consistent with recent experience.

The estimated receipts shown for 2010-11 include \$1 million in accelerated collections. The estimated receipts shown in 2011-12 include \$0.2 million in accelerated collections.

Franchise income includes a fixed franchise fee per taxi cab; a fee charged each time a cab franchise changes hands; and miscellaneous charges and penalties. Most taxi cab franchise income is determined by multiplying the number of cabs in service by the established City franchise fee.

Franchise Income - Taxicab

This account shows significant monthly variation. The spikes reflect enforcement activity such as audits. The square data points indicate estimated revenue.

The pipeline franchise payment is based on the size and length of pipe and an established fee which is adjusted for the change in the producer price index. It is also affected by the number of franchisees. Although there is some annual variation, franchise income from pipelines has averaged \$2 million annually for the past ten years.

Interest income credited to the General Fund to date is not a predictor of fiscal year General Fund receipts since the amounts shown include interest earnings that must be credited to proprietary departments and special funds before the end of the fiscal year. The revised estimate for 2010-11 and the budget estimate for 2011-12 are provided by the Treasurer.

Interest Income

\$ Millions

More than 90 percent of this local revenue has been diverted by state action to property tax. The remaining portion, is linked to vehicle license fee payments received by the state. The 2011-12 estimate is based on an improving economy and modest gains in new car sales.

The City receives a population-based share of the distribution to all California cities -- about 13% of the distribution. But before the distribution, monies budgeted by the state for state administrative costs and funding requirements of the Revenue and Taxation code are deducted. For months for which such state-mandated costs exceed the total collection, nothing is left for distribution to California cities.

Annual estimates are projected by California Attorney General and adjusted based on recent city experience.

This revenue is part of a settlement in which seven tobacco companies agreed to restrictions on marketing practices and to pay \$206 billion during a 25-year period ending 2025 to California, 45 other states, the District of Columbia and five U.S. territories. In January 2000, the California Attorney General's office began receiving California's share of the settlement, which is projected to be more than \$0.9 billion annually. Half of the payment goes to California's General Fund. The remainder is divided, based on population, among California's 58 counties and four largest cities for use as decided by each local government. Major assumptions include an adjustment for the volume of cigarettes shipped, a price-level adjustment, and that relative population of California counties will not shift. Revenue has been below Attorney General's estimates in recent years as a result of declining tobacco consumption and the estimates on this page are adjusted based on the City's recent experience.

Section 5.97 of the Los Angeles Administrative Code provides for the Telecommunications Liquidated Damages and Lost Franchise Fees Fund which receives all monies collected from cable television franchise holders as liquidated damages and franchise fees lost to the City due to unexcused delays in the construction or activation of cable systems. In addition, the Telecommunications Development Account within the Fund receives a two-percent share, or 40 percent, of the five-percent franchise fee payments from cable television and other telecommunications franchise holders. Monies from this account may be used for public, educational and municipal access programming and other telecommunications uses in the City, such as funding the costs of the Information Technology Agency.

The Administrative Code further provides that funds from the Telecommunications Development Account may be transferred to the General Fund upon a majority vote of the Council and approval by the Mayor. This revenue source receives any such transfers authorized by the Mayor and Council. The transfer amount is a budget policy decision, but cannot exceed the available balance in the Telecommunications Development Account.

A \$300 tax is imposed on each new dwelling unit constructed in the City. This is called the residential development tax and is deposited into the General Fund. An additional \$200 tax is called the dwelling unit construction tax and is deposited into the Parks and Recreation Sites and Facilities Fund. Monies in that fund are used exclusively for the acquisition and development of park and recreational sites and facilities.

Developers can receive a credit for contributions to park sites and facilities; this credit offsets up to the full amount of the dwelling unit construction tax. No such credit is allowed for the residential development tax. Hence the ratio of tax receipts in any year is typically close to 3 to 2, but, because of credits applicable to the dwelling unit tax but not to the residential development tax, in some years the ratio varies to much less than 3 to 2. This is a very volatile account since it is based on a relatively low volume of activity -- 3,000 to 7,000 units annually. Building activity is determined by economic conditions and the availability of building sites in the City. Because the City is relatively "built up," its housing construction activity is not directly comparable to that of the State and County.

Dwelling Unit Construction and Residential Development Taxes

Values for 2010-11 and 2011-12 are estimates.

The sources that contribute to this revenue include fees collected by various departments for services such as animal registrations and ambulance services. Additionally, more than one-half of this revenue comes from reimbursements from special funds and proprietary departments for services paid for by the General Fund, such as health insurance.

Details of this revenue category can be seen on the following pages.

Many departmental receipts are reimbursements from special funds and proprietary departments or other revenue that is best viewed on a City-wide basis. This perspective is presented on the following page.

The Environmental Affairs Department was deleted for the 2010-11 Budget; its functions were merged into Sanitation and Building and Safety.

LICENSES, PERMITS, FEES AND FINES

SIGNIFICANT CHANGES

	Millions
FY2009-10 Actuals	\$ 735.3
◆ One Time - Reimbursements from Library and Recreation & Parks are increased to near full cost recovery.	11.7
◆ Ambulance - The estimate is a combination of fee increases, better billing practices and the use of handheld billing devices.	10.8
◆ Gas Tax projects - The increase is due to an effort to pay more related costs.	9.8
◆ Special Funds - Like with Gas Tax, additional revenues are expected for related costs.	6.8
◆ City Attorney - additional reimbursements are expected from the consumer protection fund.	4.2
◆ Police - Impound fee is expected to receive increased collections in 2010-11.	3.1
◆ Building and Safety code enforcement collections are up in 2010-11.	3.0
◆ City Clerk - 2010-11 is an election year, so the City Clerk expects increased reimbursement of election costs from the LAUSD and Community Colleges for their share of election costs.	2.7
◆ Stormwater - Like with most special funds, a greater effort is being made in 2010-11 to recover overhead costs.	2.3
◆ DWP - This increase is primarily due to the recovery of Treasurer bank costs from DWP.	2.0
◆ Mayor - A \$1.5 million donation was received in 2010-11.	1.7
◆ Treasurer - recovery of bank costs from credit card transactions.	1.6
◆ GSD - Increased revenues from lab testing fees.	1.4
◆ Overall good collections in Fire related revenues.	1.0
◆ ITA received a \$1.5 million one-time reimbursement in 2009-10.	(1.6)
◆ Engineering - Overall street and curb permits lower revenue.	(1.6)
◆ 2010-11 aircraft tax collections are lower than 2009-10, due to the economic downturn.	(1.6)
◆ Solid Waste - Lower CAP rates reduce reimbursements.	(2.4)
◆ Transportation - This decrease is due to a \$2 million one-time reimbursement in 2009-10 and overall lower permit revenue in 2010-11.	(2.7)
◆ Services to Sewer - Like solid waste above, lower CAP rates are bringing revenues down.	(2.9)
◆ Services to Harbor - Because Recreation and Parks pays nearly full overhead costs to the General Fund, reimbursements from the Harbor for Recreation and Parks are no longer recorded as a General Fund revenue.	(7.8)
◆ Planning revenues are now recognized in a special fund.	(9.3)
◆ Liability Claims reimbursements were \$43 million higher in 2009-10, due to judgment obligation bond reimbursements. Also, Recreation and Parks will pay the estimated \$16.5 million in water and electricity costs directly to DWP.	(56.5)
◆ All others	(1.1)
FY2010-11 Revised Budget	\$ 710.1
Change from FY2009-10 Actuals	\$ (25.3)

LICENSES, PERMITS, FEES AND FINES

SIGNIFICANT CHANGES

	Millions
FY 2010-11 Adopted Budget	\$ 778.2
◆ Gas Tax - more funding was made available to pay overhead costs for the revised budget.	10.0
◆ Special Funded Overhead Costs - Like with Gas Tax, funding was made available to pay additional overhead costs.	3.5
◆ Police - Additional receipts are expected for impound fees and excessive false alarm fees.	2.1
◆ Mayor - Primarily due to an unforeseen \$1.6 million donation.	1.7
◆ Treasurer - new credit card transaction fee reimbursement is the reason for this variance.	1.7
◆ This is from the Consumer Protection fund, for reimbursement of City Attorney costs.	1.6
◆ Finance - Collection fees are \$0.5 million below plan and collection services of \$650,000 is to be allocated to other departments.	(1.1)
◆ Services to DWP - the revised estimate brings down the reimbursement for the City Attorney due to furloughs.	(1.5)
◆ Miscellaneous Taxes and Fees are below plan due to the lingering effects of the prior recession.	(1.5)
◆ Services to Airports - police overtime reimbursement is being brought down; less overtime being worked.	(4.5)
◆ Transportation - reimbursements from Special Parking are reduced to free up funding for other purposes.	(4.9)
◆ Building and Safety - the department reports it will receive almost nothing for the \$5 million in fines on foreclosed properties .	(5.3)
◆ The \$16.5 million expected from Recreation and Parks for water and electricity will now be paid directly to DWP. This will be offset by a reduction in appropriations. Offsetting this are additional receipts in CIEP, El Pueblo, Cap Financing and Liability Claims.	(13.1)
◆ Asset Restructuring - The P3 lease of City-owned parking structures (and its associated revenue) is no longer viable.	(55.4)
◆ All others.	(1.4)
FY 2010-11 Revised Budget	\$ 710.1
Change from FY 2010-11 Adopted Budget	\$ (68.1)

LICENSES, PERMITS, FEES AND FINES

SIGNIFICANT CHANGES		Millions
FY 2010-11 Revised Budget		\$ 710.1
◆ Additional overhead reimbursements from Libraries and Recreation & Parks.		11.3
◆ Special Funds - Additional revenues from various special funds such as Prop 1B and ARRA reimbursements.		7.4
◆ Additional reimbursements are expected from the Special Parking Revenue Fund.		2.7
◆ Services to Sewer - SCM overhead costs are increased due to transfer of positions from the General Fund.		2.2
◆ Treasurer - bank fee reimbursements and credit card transaction fees are expected to increase in 2011-12.		2.1
◆ Building and Safety - Code Violation fees are estimated to increase in 2011-12.		1.6
◆ City Clerk - Because the Community College District and the LAUSD are having run-off elections in May 2011, additional reimbursement of election costs are expected in 2011-12.		1.5
◆ Gas tax reimbursements for oevrhead costs are budgeted at a lower amount in 2011-12. This is still \$8.4 million higher than the typical reimbursement of \$16 million.		(1.4)
◆ Services to Harbor - The Fire Department is providing less services to the Harbor.		(1.5)
◆ Services to Airports - This decrease is due to a settlement credit for prior overpayments.		(1.6)
◆ Mayor - The Mayor received a donation of \$1.6 million in 2010-11; this is not expected in 2011-12.		(1.7)
◆ City Attorney - Reimbursements from the Consumer Protection Fund are not expected in 2011-12.		(2.3)
◆ 2010-11 received proceeds from a property sale. Also, CIEP (a component of General Fund - Miscellaneous) is reduced \$1.2 million.		(2.6)
◆ No surplus property sales are expected in 2011-12 and salvage sales are reduced as well.		(5.7)
◆ All others		(0.8)

Revenues in 2009-10 were expected to increase due to adoption of handheld billing information devices and improved billing practices. These improvements were delayed until 2010-11. The 2011-12 estimate is a continuation of fee increases, better billing practices and the long promised handheld billing devices.

This chart reflects reimbursements for City services provided to the Harbor. The drop in 2010-11 is based on the transfer of the Harbor payment for Recreation and Park services from the General Fund to Recreation and Parks directly. The revenue estimate is further reduced by roughly \$2 million annually due to the Nexus lawsuit settlement.

This chart reflects various reimbursements for work classified as "one-time" and are not expected to continue in the following year. Although the items are non-recurring, in the aggregate, such reimbursements occur each year. A major one-time item for 2010-11 was Asset Restructuring, estimated at \$53,204,000. This item was included under the "General Fund Miscellaneous" category and is no longer viable in 2010-11. This accounts for much of the reduction in the 2010-11 revised estimate.

2010-11 Special Category Receipts

Category/Department	FISCAL YEAR TOTALS				BUDGET		
	2006-07 Actual	2007-08 Actual	2008-09 Actual	2009-10 Actual	2010-11 Budget	2010-11 Revised	2011-12 Proposed
State Mandated							
Building and Safety	-	-	165	-	-	-	-

Animal Services revenue is almost completely comprised of fees. Efforts are being made to increase animal licensing and this is hoped to translate into increased revenues. While revenues are up compared to previous years, prior efforts often have fallen short of initial estimates.

Starting in FY 2005-06, Building and Safety receipts are now deposited into the Building and Safety Building Permit Enterprise Fund. The revenue estimates are primarily made up of overhead cost reimbursements to the General Fund and code enforcement efforts. FY 2006-07 included a one-time \$8 million reimbursement of start-up costs to the General Fund. As part of the elimination of the Environmental Affairs Department, Building and Safety absorbed positions and revenues related to Local Enforcement Agency fees. Greater efforts are being made in code enforcement.

The majority of the City Clerk's revenue is for reimbursement of election costs from the Community College District and LAUSD school board elections. Because FY 2010-11 is an election year, reimbursements from the Community College District and LAUSD school board are increased. The May 2011 election will be fully reimbursable by the Community College District and LAUSD school board due to runoffs and no elections are required for the City.

The Community Development Department's revenue is primarily from reimbursements from block grant and other special funds for overhead costs. Lower CAP rates are the driving force in reducing revenues for the revised and proposed budgets.

The primary components of the Fire Department's revenue are ambulance billings, special fire services, unified program fees and reimbursement of services from the proprietary departments. New revenues totaling slightly over \$1 million are planned for 2011-12 from the Industrial Building Inspection and Above Ground Inspection fees. The department reports ambulance revenue will reach budget.

Ambulance revenue is expected at higher levels due to increased efficiencies from handheld computerized billing devices and the use of an outside contractor for billing. Despite delays in implementing these efficiencies, ambulance revenues appear to be returning to plan and the department reports it will reach budget in 2010-11. Revenues in 2011-12 are expected at the same level as 2010-11.

General Service's revenue is made up of special fund overhead reimbursements, sale of surplus property and equipment, chargebacks to CERS and Pensions and lab testing fees. For 2011-12, nearly \$1.2 million in Gas Tax overhead reimbursements are budgeted. No surplus property sales and reduced salvage sales are anticipated in the proposed budget.

Housing's revenue budget includes reimbursements from special and block grant funds for the overhead costs of the City's housing programs. The 2010-11 budget expected full employment for overhead cost reimbursements; this was not attainable and revenues have been reduced.

The Information Technology Agency's revenue is primarily made up of proprietary department reimbursements, chargebacks from CERS and Pensions and various special fund reimbursements. The Telecommunications Development Account includes more funding to pay for overhead cost reimbursements in 2011-12.

The Mayor's budget reflects reimbursements from proprietary departments and special funds. FY 2010-11 includes \$250,000 in revenue for the Municipal Retrofit and Workforce Development Executive Director, divided between CRA (\$100,000), DWP (\$75,000) and Workforce Investment Board (\$75,000). Also for 2010-11, a \$1.6 million donation was received.

Planning Department's revenue is largely from various zoning and land use fees and reimbursement of overhead costs from special funds. For 2010-11, planning fee revenues were moved to the Planning Case Processing Special Fund. The recommendations from a fee study were expected to raise planning fee revenues significantly in 2010-11. But collections have been lower than anticipated and the revised estimate is almost \$5 million less than budget.

Police revenue is primarily from reimbursements for services to Airports, police alarm permits, false alarm fees and impound fees. A fee increase for police alarm permits was expected to bring in an additional \$1.2 million, but the results have not materialized. Additional overtime reimbursements are being transferred from off-budget special funds.

The Bureau of Contract Administration's revenue includes street and curb permits, special excavation inspections, services provided to proprietary departments and reimbursement of overhead costs from special funds. Reimbursements for Prop O work was overstated in the 2010-11 budget and have been reduced to realistic levels.

Engineering revenues are comprised of street and curb permits, zoning and subdivision fees, other engineering fees and overhead reimbursements from special funds. Overhead reimbursements are increasing due to higher CAP rates and filling of vacant positions. Street/curb permits and overhead reimbursements are projected lower than 2009-10.

The Bureau of Sanitation's revenue is primarily special fund reimbursement of City overhead costs. Overhead reimbursements for SCM and Solid Waste are expected to drive total Sanitation revenue back up to 2009-10 levels.

Street Services revenue is primarily from street/curb permits and reimbursement of City overhead costs from special funds. Gas tax overhead reimbursements are estimated to exceed the 2010-11 budget by \$10 million. Also, the 2011-12 proposed estimate is \$5 million higher than the 2010-11 original budget.

For both 2010-11 and 2011-12, miscellaneous taxes are reduced due to the local economy. Airport reimbursements are also reduced for both years based on less police overtime performed at LAX. The Convention Center and El Pueblo are reimbursing the General Fund for a portion of their related costs.

The \$27.5 million item in 2010-11 is the reimbursements from the Library and Recreation and Parks for reimbursable overhead costs. This reimbursement will increase to \$37 million in 2011-12. The Library will also pay close to \$3 million in utility costs for both 2010-11 and 2011-12. The Asset Restructuring item was expected to bring in \$53.2 million for 2010-11 but was not implemented. The Commissions on the Status of Women and Children Youth and their Family and Department will be transferred to the Community Development Department (CDD). Environmental Affairs was deleted and its function were absorbed into Building and Safety, Sanitation and Mayor.

In 1993, state legislation provided for the allocation of 1/2 cent sales tax to local government. Proposition 172 was approved by the electorate in November 1993 which extended the allocation for use exclusively for public safety purposes. Funds are allocated by the Board of Equalization to counties, which in turn, distribute a portion to cities. A city's share is determined by the amount of property taxes shifted to schools in the 1993-94 state budget and further adjusted by other state actions.

The rate of growth is different than that used to estimate the Proposition A and C sales tax-related allocations, which are driven by L.A. County taxable sales. The rate of change is also different than that used to estimate City sales tax, which is determined by taxable sales in the City.

The Traffic Safety Fund receives revenue from fines, bail and traffic school fees associated with citations for moving violations within the City, except where other disposition of such revenue is provided by law. Tickets are primarily issued by LAPD, but some are issued by the California Highway Patrol and all other traffic enforcement agencies.

The City's share of moving violation revenue varies by type of citation, but is typically 92% of non-penalty collections. Except in specific case provided by law, the City does not receive revenue from assessments added by law to traffic fines.
