The Enterprise Fund can no longer provide support for ZIMAS. Funding and regular authority for a fourth position, one Management Analyst II, were deleted in the Technology Support Reduction Blue Book item; therefore, the impact to the General Fund by the transfer of funding sources is reduced by the cost of the Management Analyst II. The remaining three positions have been paid for by the Enterprise fund for approximately 10 years because Building and Safety is one of the largest users of ZIMAS data. The three positions will continue to support and maintain ZIMAS for the use of Building and Safety as well as other City departments and the public as they have since the implementation of the system. | | Accumulated Overtime Add funding to the Accumulated Overtime account. Due to the increase in the Compensated Time Off Bank limit for Sworn Officers from 96 hours to 400 hours, the average number of hours of overtime accumulated and the average amount paid at separation is increasing. SOPOA \$1,500,000 | 1,500,000 | - | 1,500,000 |

| 12 . | 2009-10 Position Eliminations Delete funding for as-needed Community Police Aides and Police Student Workers. These positions provided administrative support in many areas. These duties will be absorbed by the remaining staff. SAN \$(999,421) | (999,421) | - | (999,421) |
| Effici | encies to Services | | | |
| 13 . | Sworn Labor Agreement Savings The 2009-11 Memorandum of Understanding for Bargaining Unit No 24 Police Officers Lieutenant and Below included deferral of the 2010-11 Uniform Allowance (\$10,000,000) and conversion of the 2010 and 2011 Excess Sick Bank payouts (\$5,000,000) to compensated time off. It also increased the Accumulated Overtime bank limit from 96 hours to 400 hours. This provision, combined with a Departmental commitment to have Officers utilize Compensated Time Off instead of Overtime payoffs, is estimated to save \$72,000,000 in 2010-11. Not included in the \$87 million shown here is savings from the reduced new recruit salary (\$3.2 million). These savings are accounted for in the Sworn Hiring line item. Combined, the agreement is estimated to save \$90.2 million in 2010-11. SW \$(15,000,000); SWOT \$(72,000,000) | | - (| 87,000,000) |

Revenue from this legislative grant program is anticipated to be almost completely eliminated in 2010-11 due to the State's financial condition. Offsetting the General Fund impact of the decreased revenue is the reduction of \$1.5 million in appropriations from SLESF (See Deletion of One-Time Expenses - \$1 million and Deletion of Funding for Resolution Authorities \$500,000 items). Other Changes or Adjustments

8 . Program and Funding Source Adjustments

Adjust funding sources to realign various positions within Clean Water, Solid Resources and Watershed Protection operations. Funding for one Environmental Supervisor, two Water Biologists, one Chemist and one Laboratory Technician in the Pollution Assessment Section (PAS) is moved from the Stormwater Pollution Abatement Fund (SPAF) to the Sewer Construction and Maintenance Fund. PAS activities have evolved from general watershed assessments to compliance sampling and monitoring for permit and other legally mandated requirements for Publicly Owned Treatment Works. Funding for two Management Analyst IIs in the Financial Management Division is moved from the SPAF to the Solid Waste Resources Revenue Fund (SWRRF) to shift support to the Bureau's five Solid Resources divisions. Funding for six Maintenance Laborers is moved from the SWRRF to the Citywide Recycling and Used Oil trust funds to accommodate expanded Citywide Recycling programs, as well as a miscellaneous adjustment in the Household Hazardous Waste Trust Fund. These actions result in no net change to the overall position authority provided.

TOTAL CHANGES APPLICABLE TO VARIOUS PROGRAMS

Watershed Protection

This program provides for the inspection, cleaning, operation and maintenance of the stormwater drainage system and manages flood protection and pollution abatement programs for the City. The program develops and formulates pollution abatement projects to comply with the City's federal permit that is designed to eliminate polluted discharges to the storm drain system and local waters.

Solid Resources

This program includes the collection, recycling, and disposal of solid waste, green waste, bulky items, and other special solid resources materials for single-family residences and small apartment complexes city-wide, and manages contracted recycling programs for apartments and commercial and industrial businesses. It provides for the proper recycling and disposal of household hazardous waste to residences and small businesses city-wide and conducts the necessary planning and development of long-term alternatives to landfill disposal and for clean fuel programs related to solid waste.

Continue funding and resolution authority for two Refuse Collection Truck Operator II positions and one Maintenance Laborer for the joint City of Los Angeles - Los Angeles Unified School District (LAUSD) Blue Bin Recycling Program at 204 LAUSD middle schools and high schools throughout the City. Inclusive of elementary schools, the program now serves over 500 schools and contributes to landfill diversion with an estimated 30 to 60 tons per week of recyclables delivered to materials recovery facilities. The program works in conjunction with education and outreach efforts at the schools to increase recycling participation and reduce blue bin contamination. Funding is provided by the Citywide Recycling Trust Fund. Related costs consist of employee benefits.

| 7. | Early Retirement Incentive Program Delete funding and regular authority for 107 positions as a result of the Early Retirement Incentive Program (ERIP). Restoration of positions for critical services is reflected in the Early Retirement Program category. Library service hours will be reduced as a result of the reduced staffing. Related costs consist of employee benefits. | (7,450,752) | (107) | (10,256,196) |

| 8. | Library Operations Regular authority for 27 positions identified as critical to the on-going operations and management of the City's Library Program that were eliminated through the ERIP program are restored. The positions to be restored are one Assistant City Librarian, two Division Librarians, one Personnel Director, seven Principal Librarian I, one Principal Librarian II, one Principal Public Relations Representative and 14 Senior Librarian positions. Funding and authority for 30 Librarian II positions are eliminated in order to offset the direct salary costs for restoration of the positions. Related costs consist of employee benefits. | 10. | Eliminate Funded Vacancies Delete funding and regular authority for 94 vacant positions throughout the Department. Reduce the salary savings rate from six percent to two percent and restore funding of \$2,002,280 to the salary account. This action will result in a reduced number of positions that the Department will have to keep vacant and will have no impact or reduction in service. Related costs consist of employee benefits. The 2010-11 Proposed Budget for the City Employees' Retirement System is the City's contribution to the system and is based on rates recommended by an actuary in accordance with the Charter. Also included in the contribution rate are the costs for the Family Death Benefit Plan, Excess Benefit Plan, and Limited Term Retirement Plan.

The City will issue tax and revenue anticipation notes to fund the General Fund retirement contribution (\$335.4 million) in July 2010 rather than spreading the payments throughout the year. Additionally, the proprietary departments (Harbor and Airports) will fund their portion of the retirement contribution (\$71.3 million) in July 2010. As a result of these July payments, the retirement fund will gain additional interest earnings, which can be used to discount the overall City contribution while maintaining the required level of annual receipts. The discount will reduce the required contribution to the retirement fund by \$14 million. The appropriation for the payment of the entire principal and borrowing costs on the tax and revenue anticipation notes is in the 2010 Tax and Revenue Anticipation Notes, Debt Service Fund.

The proposed City budget contribution increase of approximately \$37.2 million is primarily attributable to an increase in the contribution rate. The rate includes the effect of the City's Early Retirement Incentive Program (ERIP) and reduced covered payroll under ERIP. Additionally, the rate reflects recent changes to the City Employees' Retirement System funding policies including widening the Market Value of Assets Corridor to an upper limit of 150 percent and a lower limit of 50 percent. The City's contribution expressed as a percentage of payroll is 24.49 percent in 2010-11 versus 19.43 percent in 2009-10. The system's funded ratio, using actuarial value of assets, decreased from 82.2 percent to 77.45 percent as of June 30, 2009.

FIRE AND POLICE PENSION FUND

BASIS FOR THE PROPOSED BUDGET

| 200 | 9-10 | <u> </u> | | _ | 2010-11 |

| \$ - | \$ | - | General Fund | \$ | 98,670,987 |
| 355,308,320 | | 355,255,676 | Tax and Revenue Anticipation Notes | | 296,012,962 |
| \$ 355,308,320 | \$ | 355,255,676 | Total | \$ | 394,683,949 |

The 2010-11 Proposed Budget for the Fire and Police Pension Fund is the City's contribution to the system and the amount is funded through the issuance of tax and revenue anticipation notes and the General Fund. This includes the contribution amount required under the Charter for all pension plans (Tiers 1-5) and the amount required for the excess benefit plan.

The Proposed Budget includes an alternative payment schedule whereby the City will pay three-fourths of the contribution on July 15, 2010 through the issuance of tax and revenue anticipation notes and the remaining one-fourth on June 30, 2011. This represents \$296,012,962 and \$98,670,987, respectively. Funding to provide for the final June 30, 2011 payment is included in the Unappropriated Balance. By funding a major portion of the required contribution through the issuance of notes, rather than spreading the payments throughout the year, the pension fund will gain additional interest earnings on that amount, which can be used to discount the City contribution by approximately 1.7 percent. This discount of approximately 1.7 percent reduces the required City contribution to the pension fund by approximately \$7 million and is already reflected in the above. The appropriation for the payment of the entire principal and borrowing costs on the tax and revenue anticipation notes is in the 2010 Tax and Revenue Anticipation Notes, Debt Service Fund.

The approximately \$39.4 million increase in the City contribution from 2009-10, is largely due to an increase in the contribution rate based on the latest actuarial valuation as well as the deferral of the final installment of the City's contribution until June 30, 2011 instead of prepaying the full amount on July 15, 2010. Expressed as a percentage of the City's budgeted payroll, the City contribution is 30.72 percent in 2010-11 compared to 28.3 percent in 2009-10. It should be noted that the new rate also reflects recent changes to the Los Angeles Fire and Police Pension System's funding policies including increasing the asset smoothing period from five to seven years and widening the Market Value of Assets Corridor to an upper limit of 140 percent and a lower limit of 60 percent. The System's overall funded ratio, using actuarial value of assets, decreased from 92.6 percent to 89.4 percent as of June 30, 2009.

BUSINESS IMPROVEMENT DISTRICT TRUST

BASIS FOR THE PROPOSED BUDGET

The 2010-11 Proposed Budget for the Business Improvement District Trust Fund relates to current year funding as follows:

| | Amount | | % Change |
|----------------------------|--------|---------|----------|
| 2009-10 Adopted Budget | \$ | 126,854 | |
| 2010-11 Proposed Budget | \$ | 838,187 | |
| Change from 2009-10 Budget | \$ | 711,333 | 560.75% |

The Business Improvement District Trust Fund was established by Mayor and Council action (C.F. 96-0482) to provide seed money for the formation of Business Improvement Districts (BIDs) and to pay assessments on City-owned properties within the boundaries of active BIDs. The seed money is used to retain consultants who work on behalf of new or renewing BIDs to conduct feasibility studies and perform other activities related to BID formation. The City's BID policy allows up to \$40,000 to be made available in the form of a grant for a feasibility study. There are currently 38 established BIDs and 15 BIDs in some stage of formation.

CAPITAL FINANCE ADMINISTRATION FUND

BASIS FOR THE PROPOSED BUDGET

The 2010-11 Proposed Budget for the Capital Finance Administration Fund relates to current year funding as follows:

| | Amount % | | Change |
|----------------------------|----------|-------------|--------|
| 2009-10 Adopted Budget | \$ | 205,554,130 | |
| 2010-11 Proposed Budget | \$ | 219,201,682 | |
| Change from 2009-10 Budget | \$ | 13,647,552 | 6.6% |

The Capital Finance Administration Fund is a special purpose fund established to consolidate non-general obligation bond, long-term City debt financing program expenditures. These financing programs mostly utilize a lease or "lease purchase" paid from General Fund appropriations and the sale of public securities (either lease revenue bonds or certificates of participation) to acquire various facilities and capital equipment items for use by City departments.

The Capital Finance Administration Fund is administered by the City Administrative Officer. Budgeted within this Fund are the lease payments required by each financing's lease and trust indenture, as well as any trustee fees or other administrative expenses required under the terms of the financing. All unencumbered balances remaining at the end of the fiscal year revert to the Reserve Fund. All items within this budget are obligatory since they are a requirement of the respective leases and trust indentures. The financings were mostly issued through the Municipal Improvement Corporation of Los Angeles (MICLA).

The Capital Finance Administration Fund reflects a 6.6 percent increase due mainly to the debt service obligations on the recently completed Police Administration Building project and the recently completed MICLA bond issuance (Series 2009-C, D & E), and the anticipated increase in interest rates resulting from the downgrade of the City's bond ratings.

^{*} Other funds consist of GO Bonds, MICLA financing and Solid Waste Resources Revenue Fund. The amounts from these funds are provided for informational purposes only. Cumulative projected funding for the Los Angeles River Revitalization Project is no longer included in this table.

The Proposed Capital Improvement Expenditure Program (CIEP) provides for the utilization of special funds which are restricted to the construction or improvement of permanent facilities and General Fund financing of necessary capital improvements for which special fund financing is unavailable or ineligible.

The City's financial policies adopted in 2005-06 recommend the programming of one percent of General Fund revenue to fund capital or infrastructure improvements. For 2010-11, General Fund revenues are projected to be \$4.339 billion, resulting in a one percent target totaling \$43.39 million. The 2010-11 Proposed CIEP General Fund financing totals \$6.35 million (0.15 percent), which is below the one percent target by \$37.04 million.

The projects proposed for funding in the CIEP were selected on a priority basis using criteria such as: (1) recognition of safety or environmental needs; (2) commitment to or coordination with the activities of other agencies; (3) additional service requirements for growing areas; (4) participation with citizens in the funding of assessment act projects; (5) completion or continuation of previously authorized work; (6) protection of previous investment in public works; (7) provision of efficient facilities to support ongoing operations; and, (8) maximization of grant funds.

The CIEP has been separated into three sections for purposes of presentation. Following the summary information is the **Municipal Facilities** category, which includes the construction or improvement of City-owned structures and facilities such as parks, libraries, fire and police stations, yards and shops. Funds for these projects are provided from the General Fund and various special funds. Not included in the Summary Total are projects funded from General Obligation Bonds (GO Bonds), the Solid Waste Resources Revenue Fund (formerly the Sanitation Equipment Charge Revenue Fund), or lease financing through the Municipal Improvement Corporation of Los Angeles (MICLA), which are handled outside the budget.

Following the Municipal Facilities Category is the **Physical Plant** category, which includes a variety of street-related projects primarily funded by Gas Tax funds. Additional funds are provided by the Proposition C Anti-Gridlock Transit Improvement Fund, Local Transportation Fund, Stormwater Pollution Abatement Fund, Street Lighting Maintenance Assessment Fund, General Fund and bond proceeds from Proposition O. These funds will provide for the following types of projects: flood control and pollution abatement, storm damage repair, street widening and reconstruction, street lighting, traffic control, bikeways and water quality improvement.

Following the Physical Plant Category is the Wastewater System Improvement Program (WSIP), which includes the **Wastewater Facilities** projects funded from the Sewer Construction and Maintenance Fund. The WSIP has been developed as a separate program to reflect the conversion to an enterprise operation to support revenue bonds.

The proposed sources of funds for the Capital Improvement Expenditure Program and the change from the 2009-10 Budget are as follows:

Angeles River Revitalization projects from various sources. These funds are provided for informational purposes only.

The total 2010-11 program cost for Municipal Facilities capital improvements is approximately \$996 million. The program cost consists of \$5.9 million in General Fund appropriations, \$12 million in special fund appropriations, and \$979 million from other sources of funding, including MICLA-issued financing and the Los Angeles River Program.

Major capital projects include:

- Critical infrastructure repairs and improvements to address maintenance, health, and safety issues at a number of
 City facilities. Repairs include roof repair, lead-paint removal, asbestos removal, fire/life-safety system upgrades,
 elevator modernization and upgrades of various other building systems. Funding is provided for only the most
 critical infrastructure repairs.
- Assessment and clean up of contaminated soil at City facilities, such as fueling locations and parks.

On-going municipal facilities capital projects include:

- Construction of Neighborhood City Halls in Council Districts (CD) 7 and 14. CD 7 NCH construction is expected to be completed in July 2010 and CD 14 construction is expected to be completed by December 2010.
- Construction of the East Valley Multipurpose Center to provide services to senior citizens. Construction is expected
 to be completed by February 2011.
- Construction of two public parking structures. The Vine Street Parking structure consists of a 475 space parking structure with a 2,500 square foot ground floor retail component and is expected to be completed by June 2011.
 The Aiso Street Parking structure consists of a 300 space parking structure with a public plaza and is expected to be completed by December 2010.

City Municipal Facilities projects financed by the General Fund are subject to a one percent assessment for the arts (Ordinance No. 164,244). The assessment is due on the total cost of construction, improvement or remodeling work for each CIEP project. The 2010-11 CIEP contains \$60,500 from the General Fund to comply with this mandate. This assessment is also payable on MICLA-financed construction projects. These assessments will be paid out of individual project or program accounts.

The following table details the proposed amount by funding source for the 2010-11 Municipal Facilities CIEP. The program is organized into seven sections based on these funding sources:

2010-11 Proposed Amount by Funding Source

| Fund | | 2010-11 Amount | | |
|---|-----------|--------------------------------------|--|--|
| General Fund Park and Recreational Sites and Facilities Fund Special Parking Revenue Fund | \$ | 5,980,500 1,000,000 11,000,000 | | |
| Sub-Total Budget | <u>\$</u> | 17,980,500 | | |
| Los Angeles River Revitalization Projects | | 979,000,000 | | |
| Sub-Total Other Funds | \$ | 979,000,000 | | |
| Total Program | <u>\$</u> | 996,980,500 | | |

The category rankings for all projects are based on the following criteria. Projects may qualify under multiple categories. Category rankings are in priority order:

| Category 1 | Projects that eliminate or mitigate health and safety hazards to City employees or the public (landfills, asbestos removal, toxic waste). |
|------------|--|
| Category 2 | Projects that are Federal, State, or otherwise legally-mandated. |
| Category 3 | Projects that may have been previously designed and are ready for construction; projects that will have an immediate payback or are fee supported; or projects that cannot be postponed. |
| Category 4 | Projects that improve work site efficiency or projects that have high benefit but could be postponed. |
| Category 5 | Projects that are highly desirable, but optional. |

GENERAL FUND

Monies for capital improvements to various City facilities listed in this section are funded through General Fund appropriations.

CATEGORY PROJECT TITLE ACTIVITY* 2010-11 AMOUNT

1, 2 Building Hazard Mitigation C \$ 1,000,000

Funding is provided for the continued removal of unanticipated asbestos, lead paint, lead and mold hazards encountered during maintenance and construction in City buildings. This work includes hazard removal around pipe chases, air-conditioning chiller casings, roofing materials and floor tiles. Re-insulation costs are also included.

1, 2 Citywide Elevator Repairs C \$850,000

Funding is provided for the continued repair and upgrade of elevators at City-owned buildings. Only replacement of obsolete equipment that is no longer operational due to lack of spare parts or that cannot be repaired in a timely manner will be done.

1 Citywide Infrastructure Improvements C \$ 1,700,000

Funding is provided to continue to address health and safety-related infrastructure issues on a Citywide basis. The list of projects includes safety and security of repairs, air-conditioning, water supply systems, fixtures and other critical maintenance items.

1 Citywide Roof Repairs C \$800,000

Funding is provided for continued roof repairs at City facilities with the most critical problems.

2 Contaminated Soil Removal/Mitigation C \$ 1,570,000

Funding is provided to continue outside consultant studies of soil analysis at contaminated sites and technical expertise in preparing mitigation plans for regulatory approval. Funding is also provided for assessments and clean-up plans, contaminated soil clean up at City Facilities such as fueling locations, and continued in-house site assessments when needed.

2 One Percent for the Arts C \$ 60,500

Funds are provided for the one-percent assessment on General Fund projects. The construction portion of the City's capital improvement program is subject to a one-percent assessment for the arts. Funds provided represent the one-percent assessment on General Fund projects. Projects funded through special funds or through MICLA financing will be assessed separately. Fee assessments on General Fund projects are transferred to the Arts and Cultural Facilities and Services Trust Fund on an annual basis.

GENERAL OBLIGATION BONDS

General Obligation Bonds represent an indebtedness of the City secured by its full faith and credit. An ad valorem tax on real property is levied to pay the principal and interest on General Obligation Bonds. Projects include the renovation and construction of police facilities, fire facilities, animal shelters, branch libraries and zoo facilities. The reinforcement, renovation and replacement of City-owned seismically deficient bridges and buildings and the installation of fire/life safety systems in City buildings are also included. This section would typically identify the anticipated bond issuance for 2010-11 for voter-approved General Obligation Bond projects. However, there will be no issuance of General Obligation Bonds this fiscal year for Municipal Facilities projects.

| CATEGORY | PROJECT TITLE | ACTIVITY* | 2010-11 AMOUNT |
|----------|------------------------------|-----------|----------------|
| 1, 2 | Fire Facilities Bond Program | R/W, D, C | No Issuance |

In November 2000, the voters approved Proposition F, which authorized the issuance of \$378.5 million in General Obligation Bonds to finance the construction and expansion of 19 neighborhood fire/paramedic stations and an emergency air operations/helicopter maintenance facility. Bonds were sold in 2001-02 (\$113.1 million), 2002-03 (\$49.2 million), 2003-04 (\$97 million), 2005-06 (\$89.8 million) and 2006-07 (\$29.4 million). To date, all bonds authorized by voters have been issued. Out of 20 original fire facility projects authorized by the voters, 19 will have been completed by the end of 2009-10. The remaining original project is Fire Stations 82, which is expected to be completed by April 2012. However, in April and September 2009, the Mayor and Council approved two new projects to replace Fire Stations 7 and 39, using accrued interest and program savings. These two new fire stations should be completed in 2013-14.

In November 2000, the voters approved Proposition F, which authorized the issuance of \$154.1 million in General Obligation Bonds to finance the construction and refurbishment of eight animal shelters. Bonds have been issued for land acquisition, design and construction in 2001-02 (\$36.7 million), 2002-03 (\$31 million), 2003-04 (\$75.4 million) and 2006-07 (\$11 million). To date, all bonds authorized by voters have been issued. Out of the eight animal shelter projects, seven have been completed. The remaining project is the South Los Angeles Animal Shelter project which should be completed by 2012-13.

In March 2002, the voters approved Proposition Q, which authorized the issuance of \$600 million in General Obligation Bonds to finance new and replacement emergency response facilities and police stations and repair existing police and fire facilities. Including bond premiums, a total of \$616.3 million in bonds were issued as follows: 2002-03 (\$155.6 million); 2003-04 (\$70 million); 2004-05 (\$374.4 million) and 2006-07 (\$16.3 million). All bonds authorized by voters have been issued. To date, all construction projects have been completed and fire facility renovation projects will be completed in 2009-10. Four new Phase II police facility renovation projects have been authorized and are anticipated to be completed in 2012-13.

In June 1990, the voters approved the issuance of \$376 million in General Obligation Bonds to reinforce, renovate and replace City-owned seismically deficient bridges and buildings. The identified structures have been retrofitted to be in full compliance with all building codes. Therefore, asbestos removal, disabled access and building renovations required by the seismic retrofit will be included. To date, all bonds authorized by voters have been issued. The Building Program is nearing completion. The Bridge Improvement Program will seismically strengthen 59 bridges throughout the City. Retrofit of 24 bridges has been completed and 15 bridges will be under construction in 2010-11.

In November 1998, the voters approved Proposition CC, which authorized the issuance of \$47.6 million in General Obligation Bonds to finance the design and construction of major zoo projects and infrastructure repairs. The bonds were sold as follows: \$6.5 million in 1999-00, \$15 million in 2001-02 and \$26.1 million in 2002-03. Out of the 12 projects funded by Proposition CC, nine projects are complete, one project is in the design phase (Rainforest of the Americas) and two projects are in construction (Pachyderm Forest and Reptile and Insect Interpretive Center). The Pachyderm Forest project is expected to be completed in September 2010. The Reptile and Insect Interpretive Center is expected to be completed in August 2011.

1 Los Angeles River Revitalization Program PP, D, C \$979,000,000**

This program includes all capital projects relating to or adjacent to the Los Angeles River. For 2010-11, there are forty-three on-going capital projects totaling approximately \$979 million. Twenty-five of these projects are bridges which traverse the Los Angeles River and various flood control channels. The remaining projects include recreational bike paths, parks and facilities, riparian system restoration and the implementation of the Los Angeles River Revitalization Master Plan. The total estimated expenditure for 2010-11 is \$55 million. Funding for these projects is provided through a variety of funding sources. The major funding source for the CIEP is from gasoline taxes with contributions from the Local Transportation Fund, Street Lighting Maintenance Assessment Fund, Proposition C Transit Improvement Fund, Stormwater Pollution Abatement Fund and the General Fund. The estimated gas tax allocations to the CIEP are nearly \$20.51 million. This is an increase of \$15.02 million from the 2009-10 gas tax total of \$5.49 million. This significant increase in capital projects funding is based on projections of 12 months' revenues from the excise tax, 12 months' revenues from the sales-excise tax swap, and the remaining 2009-10 fourth quarter revenues from the Traffic Congestion Relief Fund (commonly known as Proposition 42 funds). Although the Local Transportation Fund (LTF) funding is shown as decreasing by \$902,000, from \$7.86 million to \$6.96 million, it actually represents the amount projected to be drawn down from the Los Angeles County Metropolitan Transportation Authority in 2010-11 based on project readiness. In keeping with the current practice, the Department of Transportation anticipates drawing down on allocations that have accrued since 2007-08. The Street Lighting Maintenance Assessment Fund allocation is decreased by \$334,000 from \$3.5 million to \$3.17 million. Proposition C Fund funding remains the same at \$495,000.The Stormwater Pollution Abatement Fund allocation is increased by \$762,000 from \$388,000 to \$1.15 million. The General Fund allocation is \$366,000.

Funding from the Stormwater Pollution Abatement Fund in the amount of \$1.15 million is for six flood control projects. Five of the projects are eligible for reimbursements.

The CIEP includes \$16.9 million to continue street reconstruction, resurfacing, rehabilitation and street widening, bridge reconstruction, and miscellaneous safety improvements and maintenance projects. Funding is provided from the Gas Tax Fund (\$16.54 million) and General Fund (\$366,000). The General Fund allocation is for repair of a site on Mt Lee Road that belongs to the Department of Recreation and Parks. The Gas Tax allocation of \$16.54 million includes restoring \$3.9 million in funding to six projects that were deferred in 2008-09 due to a shortfall in revenue receipts caused by the downtown in the economy. In addition, \$4.9 million in funding is provided to repair streets damaged by the storms in 2010. These projects are eligible for reimbursements.

Local Transportation Fund financing of \$6.96 million is provided to continue the design and construction of City bikeway projects. The funds are provided in a reserve account (Projects to be Designated by Ordinance or Resolution), as specific projects will not be identified until after the start of the fiscal year when project applications will be submitted to the Los Angeles County Metropolitan Transportation Authority.

Funding in the amount of \$7.48 million is provided for street lighting projects, of which \$3.82 million is from the Gas Tax Fund and \$495,000 is from the Proposition C Fund for General Benefit Lighting projects. An additional \$3.17 million is provided from the Street Lighting Maintenance Assessment Fund for remaining street lighting projects.

The Traffic Control portion of the CIEP is \$150,000 for Traffic Signal upgrades associated with Street Lighting improvements at selected intersections.

Proceeds resulting from bonds issued and authorized through Proposition O will also provide funding for projects approved by the Council and Mayor. Proposition O was approved in November 2004. A total of \$322.5 million in general obligation bonds has been issued to fund water quality improvement projects. An additional issuance of \$126.7 million is anticipated for 2010-11. The remaining amount to be issued after 2010-11 from the \$500 million authorization is \$50.8 million. Oversight and direction of the program is provided by a five-member Administrative Oversight Committee consisting of representatives from the City Administrative Officer, the Chief Legislative Analyst, the Office of the Mayor, the Department of Water and Power, and the Board of Public Works. Monitoring of the program is also provided by a nine-member Citizens Oversight Advisory Committee consisting of four members appointed by the Mayor and five members appointed by the City Council President.

CAPITAL IMPROVEMENT EXPENDITURE PROGRAM

BASIS FOR THE PROPOSED BUDGET

WASTEWATER SYSTEM IMPROVEMENT PROGRAM

The 2010-11 Proposed Budget for the Wastewater System Improvement Program (WSIP) relates to current year funding as follows:

| | Amount | % Change |
|----------------------------|---------------------|-----------|
| 2009-10 Adopted Budget | \$ 822,565,213 | |
| 2010-11 Proposed Budget | \$ 721,579,236 | |
| Change from 2009-10 Budget | \$ (100,985,577) | (12.28) % |

The Proposed Budget includes the Wastewater Capital Improvement Expenditure Program (\$145,500,000) and the related capital labor and expense costs (\$79,533,610). Also included in the WSIP are the costs of operating and maintaining the Wastewater System (\$267,940,587), payment of debt service on Wastewater System Revenue Bonds (\$179,469,418), a 45-day operating reserve (\$34,047,921), an insurance reserve (\$3,000,000), and other various expenses (\$12,087,700).

The WSIP is funded entirely from Wastewater System revenues, which are deposited into and expended from the group of funds known as the Sewer Construction and Maintenance (SCM) Fund. The SCM Fund was fully converted to an enterprise fund in order to support revenue bonds, approximately \$3.3 billion of which have been issued to date. A number of separate funds were created to properly account for revenues and expenditures and interest earnings on bond proceeds.

The current WSIP is focused on the Collection System Settlement Agreement (CSSA). New operating regulations from State and federal agencies continue to be imposed on the System, thereby increasing costs.

BUDGET HIGHLIGHTS

- Construction of collection system projects continued as required by the Collection System Settlement Agreement.
- Various projects to upgrade operating systems and replace compressors at the Hyperion Treatment Plant, as well as replacement of equipment that has reached the end of its useful life.
- Reduced staffing levels in the Bureaus of Contract Administration, Engineering, and Sanitation albeit sufficient to meet the requirements of the Collection System Settlement Agreement.
- Continuing construction of facilities to reduce odors emanating from the collection system.
- \$3.7 million in retirement and incentive payouts resulting from the Early Retirement Incentive Program are budgeted for 2010-11. Additional payouts will be appropriated in the following year.
- Sewer Service Charge receipts reflect no rate adjustments in FY 2010-11 and have been adjusted based on expected water conservation.

CITY ETHICS COMMISSION PUBLIC CAMPAIGN MATCHING FUND

BASIS FOR THE 2010-11 PROPOSED BUDGET

The Fiscal Year 2010-11 Proposed Budget for the City Ethics Commission Public Campaign Matching Fund relates to current year funding as follows:

| 2009 | 9-10 | 2010-11 |
|-------------------|---------------------------|-----------------------------------|
| Adopted Budget | Estimated Expenditures | Proposed Maximum Appropriation |
| \$ 3,075,200 | <u>\$510,000</u> | <u>\$3,073,160</u> |

Charter Section 471(C)(1) requires that the present day value of \$2 million based on 1991 dollars be appropriated from the General Fund into the Public Campaign Matching Fund each fiscal year. The present day value is tied to the Consumer Price Index (for all consumer items other than housing) for the Los Angeles-Riverside-Orange County metropolitan statistical area. Accordingly, the required annual appropriation amount adjusted for 2010-11 is \$3,073,160.

Charter Section 471(C)(2) specifies that the Public Campaign Matching Fund balance shall <u>not</u> exceed the present day value of \$8 million in 1991 dollars. Accordingly, the maximum fund balance adjusted for inflation for 2010-11 is \$12,292,640.

The Fund's cash balance at the beginning of 2009-10 was \$10,404,120. Given the expenditures from this year's special election and the projected interest income earned, the Fund estimated cash balance at the end of 2009-10 is projected to be approximately \$12,200,000. Since the 2010-11 appropriation amount added to the Fund projected yearend cash balance will not exceed the Charter prescribed Maximum Fund Balance, an additional appropriation of \$92,640 will be required for 2010-11.

Maximum 2010-11 Fund Balance per the Charter: \$12,292,640

Estimated Cash Balance June 30, 2010: 12,200,000

Required Appropriation for 2010-11: 92,640 **Total 2010-11 Fund Balance with Appropriation:** \$12,292,640

EMERGENCY OPERATIONS FUND

BASIS FOR THE PROPOSED BUDGET

The 2010-11 Proposed Budget for the Emergency Operations Fund (EOF) relates to current year funding as follows:

| | Amount | | % Change |
|----------------------------|--------|-----------|----------|
| 2009-10 Adopted Budget | \$ | 387,886 | |
| 2010-11 Proposed Budget | \$ | 287,100 | |
| Change from 2009-10 Budget | \$ | (100,786) | (26%) |

The 2010-11 Proposed EOF Budget provides specialized expense and equipment items for City departments that respond to emergency events. This budget provides specific resources to assist the member departments of the Emergency Operations Organization (EOO) to prepare for, respond to, mitigate, and recover from local emergencies such as terrorist attacks, earthquakes, fires and other disasters. The major items funded are public outreach, Emergency Operations Center (EOC) supplies and software licenses, technical equipment, and emergency preparedness training for City personnel. The EOF is supervised by the Emergency Operations Board (EOB), which is chaired by the Chief of Police. The Chief of Police and the Coordinator of the EOO approve expenditures from the Fund.

GENERAL CITY PURPOSES

BASIS FOR THE PROPOSED BUDGET

The 2010-11 Proposed Budget for General City Purposes (GCP) relates to current year funding as follows:

| | Amount | % Change |
|----------------------------|--------------------|----------|
| 2009-10 Adopted Budget | \$ 109,808,932 | |
| 2010-11 Adopted Budget | \$ 89,781,641 | |
| Change from 2009-10 Budget | \$ (20,027,291) | (18.2)% |

The contracts and programs will be monitored by various City departments. These monitoring departments and the City Clerk are responsible for drafting appropriate contracts (subject to the approval of the City Attorney) and presenting them to the contractors for execution. These departments also handle contract compliance and payment request approvals. At the conclusion of every contract, the monitoring departments perform initial and final contract close-out reviews. In addition to contract monitoring, the City Clerk's Office is responsible for assuring citywide consistency in the GCP Program.

PROMOTION OF THE IMAGE OF THE CITY

Financial support for advertising the merits of the City in connection with such events as conventions, parades, official visits of foreign dignitaries, or any other special events or projects which would either create tourism in the City or result in favorable advertising or publicity of the merits of the City.

| 6. Medicare Contributions. Funds are provided for the City's contribution to the hospital insurance portion of the FICA tax. Congress mandated participation of all state and local employees hired on or after April 1, 1986 in the Medicare system. Employers and employees are required to make matching contributions of 1.45 percent of gross wage earnings. A reduction is reflected to correspond to the Early Retirement Incentive Program and the proposed reduction in the City workforce. Salary adjustments are based upon the projected number of employees subject to Medicare. | \$ 38,625,515 | \$ 34,498,755 | \$ (4,126,760) |
| 7. Retirement Contributions. Funds are provided for the continuation of the City's defrayal of a portion of certain employees' contribution to the Los Angeles City Employees' Retirement System (LACERS). This contribution is based on total estimated eligible salaries. It was instituted in 1975-76 in lieu of a portion of a salary increase and it was increased in 1982-83 for the same reason. The actual percentage paid by an employee for retirement varies based upon age of entry into City employment, except for employees hired after January 1, 1983, who pay a flat six percent of their compensation and receive no defrayal. The number of employees annually decreases as members either retire or leave the City. | 11,333,578 | 5,903,654 | (5,429,924) |
| City employees' retirement contribution rate was increased to six percent. The savings includes \$2.7 million for the General Fund. | | | |
| 8. Social Security Contributions. As of July 1, 1991, the City is required to pay the Social Security tax for all part-time employees who are not members of LACERS. As an alternative to Social Security, the Part-time, Seasonal and Temporary (PST) plan was developed in 1993-94 (C.F. 91-2279) to save the City approximately \$2 million each year. | 1,658,300 | 1,464,970 | (193,330) |

| 9. Pensions Savings Plans. As instructed by the Mayor and Council (C.F. 91-2279), a retirement plan was developed for part-time, seasonal, and temporary employees as an alternative to Social Security. The part-time, seasonal, and temporary (PST) plan saves the City about \$2 million annually. Approximately 4,000 to 6,000 employees participate in the plan which complies with the provision of the Federal Omnibus Budget Reconciliation Act requiring employees to be either members of a qualified retirement plan or Social Security. Individuals who become permanent employees, such as police and fire recruits, can transfer the contributed amounts into the City's Deferred Compensation Plan. The Personnel Department and the Deferred Compensation Plan Advisory Committee administer the plan with the assistance of an outside administrator selected through a competitive bid process. | 38. LA's BEST. Since 1988, LA's BEST has been providing a safe and supervised education, enrichment, and recreation program every day after school to children, ages 5 to 12, from Los Angeles' most economically challenged neighborhoods - at no cost to parents. LA's BEST currently operates in 168 elementary schools throughout the City of Los Angeles serving more than 24,000 students daily with an on-site staff of 1,700 plus more than 1,500 volunteers. LA's BEST is a nationally recognized after school enrichment program that has shown the rest of the nation that a dedicated effort to keep students in school can work. Funds for 2010-11 will allow LA's BEST to continue at 48 sites in 15 Council Districts, fund central office positions providing direct program support for all LA's BEST sites, provide resources for an independent evaluation, and expand the research based Kidzlit Literacy program to additional LA's BEST sites. | 41. Performance Management Unit. Funding is provided for the Performance Management Unit within the Office of the Mayor. The Performance Management Unit will continue to add accountability on how the City provides its services, hold General Managers and their respective departments accountable to specific service delivery targets, and provide assistance to departments in identifying and overcoming obstacles. The unit is responsible for measuring progress against the goals set by the Mayor and City departments; work with the City's department managers and the City Administrative Officer to identify efficiencies; and, measure the effectiveness of ongoing City programs. The unit will continue to create operational efficiencies and future budgetary savings through the application of best management practices among the City's departments. A reduction of \$310,000 is reflected due to the City's fiscal constraints. | \$ | 810,000 | \$ | 500,000 | \$ | (310,000) |
| 42. Green Retrofit and Workforce Program. In April 2009, the City approved the establishment of a Green Retrofit and Workforce program (C.F. 16-1963). This was in anticipation of the American Recovery and Reinvestment Act (ARRA) Energy Efficiency Block Grant (EEBG) funds coming to the City. The plan to distribute \$37 million in EEBG funds has been approved by the U.S. Department of Energy, which allocates \$16 million towards the retrofit of City municipal buildings. Two positions are provided in the Mayor's Office to oversee the multi-department taskforce and the Retrofit and Workforce Advisory Board. Funds are provided from the Workforce Investment Board (\$75,000), the Community Redevelopment Agency (\$100,000), and the Department of Water and Power (\$75,000) for these efforts. | | - | | 250,000 | | 250,000 |

HUMAN RESOURCES BENEFITS

BASIS FOR THE PROPOSED BUDGET

The 2010-11 Proposed Budget for Human Resources Benefits relates to current year funding, as follows:

| | Amount | % Change |
|----------------------------|----------------|----------|
| 2009-10 Adopted Budget | \$ 517,660,900 | |
| 2010-11 Proposed Budget | \$ 550,779,000 | |
| Change from 2009-10 Budget | \$ 33,118,100 | 6.4% |

The Proposed Budget includes costs for the direct payments, exclusive of personnel and administrative costs, for various human resources benefits provided to City employees. These benefits consist of: (1) payment of all workers' compensation and rehabilitation bills, claims and awards; (2) payment of subsidies for the City's benefits program, i.e., health, dental, optical, disability, life insurance and the Employee Assistance Program; (3) payment of unemployment insurance; and, (4) payment of other benefits as approved by the Mayor and Council.

| PROGRAM CHANGES Changes in Special – \$33,118,100 1. Workers' Compensation. Funding for Workers' Compensation is increased by approximately 18.2 percent in Fiscal Year 2010-11 to reflect the transfer of funding for the sworn and civilian Third Party Administrator services. 2. Civilian Flex Program. The Civilian Flex Program consists of health and dental insurance benefits, as well as base life insurance, base disability, and Flex Credit benefits. There is a decrease of approximately 7.2 percent in this account due to the separation of 2,000 employees on July 1, 2010, no increase in health care benefit rates, and no growth in the civilian workforce in 2010-11. Funding is also provided in this account to support costs for the Civilian FLEX Benefits Third Party Administrator. 3. Supplemental Civilian Union Benefits. Included with the Supplemental Civilian Union Benefits are the benefits negotiated by individual bargaining units. There is a decrease of 16.6 percent in this account from the prior year due to reductions in enrollment and negotiated supplemental union benefits. 4. Police Health and Welfare Program. The Police Health and Welfare Program consists of health, dental, and life insurance for sworn police employees. There is an overall increase in plan rates. The average cost per officer per month will increase from \$920.11 in 2009-10 to \$977.59 in 2010-11. 5. Fire Health and Welfare Program. The Fire Health and Welfare Program consists of health, dental, and life insurance for sworn fire employees. There is an overall increase of approximately 3.3 percent in this account due to an anticipated increase in plan rates. The average cost per firefighter per month will increase from \$954.07 in 2009-10 to \$1,002.25 in 2010-11. 6. Unemployment Insurance. Funding is provided for unemployment benefit costs for 2,000 employees. 7. Employee Assistance Program. JUDGMENT OBLIGATION BONDS DEBT SERVICE FUND

BASIS FOR THE PROPOSED BUDGET

The 2010-11 Proposed Budget for the Judgment Obligation Bonds Debt Service Fund relates to current year funding as follows:

| | Amount | | % Change |
|----------------------------|--------|------------|----------|
| 2009-10 Adopted Budget | \$ | 7,295,480 | |
| 2010-11 Proposed Budget | \$ | 10,761,715 | |
| Change from 2009-10 Budget | \$ | 3,466,235 | 47.5% |

The Judgment Obligation Bonds Debt Service Fund is a special purpose fund established to pay debt service on bonds issued to finance liabilities resulting from adverse decisions by the California courts in the following litigation matters: (a) the Kimpel Settlement; (b) the Harper Settlement; (c) the May Day Settlement (federal case only); and (d) various judgments or stipulated judgments relating to City misconduct in connection with certain plaintiffs' City employment, inverse condemnation incidents, and personal injuries caused by City employees or occurred on City property. A total of \$39 million in bonds was issued to settle the Kimpel lawsuit. The final payment on the Kimpel Settlement bonds will occur in 2010-11. A total of \$20.6 million in bonds was issued to settle the Harper lawsuit. The final payment on the Harper Settlement bonds will occur in 2018-19. An estimated total of \$56.6 million in bonds is expected to be issued to settle the May Day Settlement and various judgments or stipulated judgments as mentioned above with final payment to occur in 2019-20.

Debt service on these bonds is an unconditional obligation of the City.

1. Kimpel Settlement (2000-A, 2000-B)

The 2000-A and 2000-B bonds were issued as a result of a settlement and stipulated judgment entered against the City by the United States District Court in several cases collectively known as the "Kimpel Settlement." The Kimpel settlement is an action in the U.S. District Court by police officers alleging claims under the federal Fair Labor Standards Act. As a result, a stipulated judgment of approximately \$39 million was entered against the City.

LA INC. THE LOS ANGELES CONVENTION AND VISITORS BUREAU

BASIS FOR THE PROPOSED BUDGET

The 2010-11 Proposed Budget for LA INC. the Los Angeles Convention & Visitors Bureau (LA INC.) relates to current year funding as follows:

| | | Amount | % Change |
|-------------------------------|------------------------------------|---|----------|
| 2009-10 Budget | City TOT Other Revenue Total | \$ 9,154,000 <u>8,928,000</u> \$18,082,000 | |
| 2010-11 Proposed Budget | City TOT Other Revenue Total | \$ 9,347,462 <u>9,095,000</u> \$18,442,462 | |
| Change from 2009-10 Budget | City TOT Other Revenue Total | \$ 193,462 <u>167,000</u> \$ 360,462 | 2% |

The City has contracted with LA INC. to market Los Angeles as a meeting, convention and vacation travel destination. In 2010-11, the City funding to LA Inc. will increase slightly from \$9.154 million to \$9.347 million. The annual City allocation to LA Inc. is an amount equivalent to a one percent Transient Occupancy Tax (TOT). The TOT is a 14% tax on hotel occupants. The hotel industry had introduced two initiatives to the City Council over the last 29 years to increase the TOT by two percentage points to fund the sales and marketing programs of LA INC. LA Inc.'s TOT appropriation was later reduced from 2% to 1% as part of the 2003-04 budget process.

The slow recovery in the US economy, combined with the slow improvement in business and leisure travel, will result in little change in hotel occupancy over the next fiscal year. The City is estimating to receive approximately \$122.7 million for FY 2010-11 from the TOT revenues.

RESOURCES

The LA INC. budget is based on an estimate of all resources anticipated to be available during 2010-11. These resources include the City's annual TOT appropriation and private industry revenues derived by Bureau activities.

The Bureau's anticipated total resources are categorized as follows:

| Source of Funds | Actual 2008-09 | Estim ated 2009-10 | Budget 2010-11 |
|--|----------------|--------------------|-------------------|
| City of Los Angeles LA INC | | | |

| Total Available Funds | \$19,753,224 | \$18,082,000 | \$18,442,462 |

City Appropriation and Trust Fund Retention

LACVB Trust Fund receives an amount equivalent to a one percent TOT . Each year, 95% of the projected trust fund receipts are paid in accordance with the agreement between the City and LA Inc. The remaining five percent is retained in the trust fund in the event of a shortfall of TOT collections. LA Inc. prepares its annual budget based on 100% of the TOT allocation. In the event that funds remain in the trust fund on June 30, these monies will be paid to LA Inc. at the start of the next fiscal year.

PRIVATE INDUSTRY REVENUE

Participant Support - \$1,300,000

Participant Support is comprised of payments for new and renewing participants in general Bureau activities. Given the economic environment currently being experienced by the travel and tourism industry, Participant Support is expected to be comparable to the 2009-10 Estimates.

Cooperative Programs - \$1,550,000

Cooperative Program Income is attributed to private industry participation and support of specific Bureau promotional programs and marketing alliances. Given the economic environment currently being experienced by the travel and tourism industry support is expected to be comparable to the 2009-10 estimates.

Sponsorship - \$950,000

Sponsorship revenue is attributed to corporations and business entities that are included in marketing and promotion activities.

Los Angeles World Airports International (LAWA) Marketing Alliance - \$5,200,000

The International Marketing Alliance program focuses on increasing international demand to yield the optimal utilization of LAWA's airport system and delivering the greatest value for Los Angeles by focusing on protecting and increasing LAWA's share of the highest producing passenger markets. LA Inc. contracts separately with LAWA for these services.

Income from Operations - \$95,000

This revenue is derived from the sales of collateral materials, and interest earned through cash flow management.

PROGRAM INFORMATION

To sustain visitor spending and reduce revenue erosion, strategies and tactics for each segment of the visitor economy will be re-evaluated, based on actual results for fiscal year 2009-10.

Convention & Meetings Sales & Services - \$6,000,462

The mission of Convention and Meetings Sales and Services is to market Los Angeles as a destination for meetings, conventions and trade shows. The Bureau's sales are segmented between two different target audiences: Convention Center users and those seeking meeting space in hotels.

The pattern of site selections has changed since the recession of 2009, with associations and businesses making decisions closer to event dates. The hi-tech market segment, historically active in Los Angeles, continues to remain weak. Competitive developments in other cities have adversely effected the City's positioning among national meeting planners. The February 2010 opening of the JW Marriott hotel and the April 2010 opening of the Ritz Carlton hotel at LA Live have generated a large amount of interest from convention meeting planners and helped to offset the negative impact of the recession.

LAWA International Marketing - \$5,200,000

In fiscal 2008-09, LAWA reduced funding of the joint marketing alliance with the Bureau to \$5.2 million. LA Inc. is anticipating to receive the entire \$5.2 million amount for fiscal year 2010-11.

The jointly labeled LAWA/LA Inc. international regional offices plan to create renewed interest among airlines, tour operators and travel agents by providing more flights and by developing additional travel offers to Los Angeles.

Due to the strong connection between passenger arrivals and cargo volumes (50% of air cargo arrives on passenger flights), and the alignment of regional offices with key cargo markets, the scope of the LAWA/LA Inc.'s Strategic Marketing Alliance was expanded to include cargo marketing.

This fiscal year, staff will align activities promoting international travel to fit the changing demands of an airline industry that is undergoing significant and rapid change. The Los Angeles Travel Academy, produced in cooperation with UCLA, will hold 10 sessions in FY 2010-11. Throughout the fiscal year, travel agents from Mexico, the United Kingdom, Canada, Korea, Japan and other key markets will participate in the Travel Academy.

Domestic Marketing - \$5,267,000

The Domestic Marketing arm of LA Inc. is responsible for the formation of cooperative marketing alliances and the Bureau's development of industry revenue in cooperative marketing and advertising campaigns. Marketing is responsible for the maintenance and distribution of visitor information services and, manages communications and consumer services on the web.

Domestic Marketing enhances the perception and economic vitality of Los Angeles by managing the image, identity and brand of Los Angeles through advertising, public relations and promotions. LA Inc. will partner with other corporate entities to create and distribute regional and national advertising campaigns. The increase in expenditures reflects an increase in the web marketing of Los Angeles.

LA Inc. will continue to create and launch specific cultural promotions in conjunction with partners, such as the Los Angeles County Museum of Art, the Museum of Contemporary Art and the Museum of Science and Industry. LA Inc. anticipates creating a special promotion for LA Arts Month for a third consecutive year. The Bureau expects to receive cooperative sponsorship income from entities interested in promoting culture and arts in Los Angeles.

Los Angeles Sports & Entertainment Commission - \$500,000

The Los Angeles Sports & Entertainment Commission (LASEC) was founded in 1995 with the mission to "seek, host, promote and retain major sporting and entertainment events that positively impact the local economy for the City of Los Angeles."

Most recently, for the third time LASEC hosted events in support of the Bowl Championship Series National Championship Football Game where the teams, their bands, as well as the media booked hotels in the City. LASEC contributed to the bids to win the GRAMMY Awards annually in February, and the Pac-10 Basketball Tournament annually in March, the Primetime EMMY Awards annually in September and the Breeders Cup World Thoroughbred Championships in 2008 and 2009. LASEC assists the Los Angeles Marathon in developing international travel to the City to encourage event participation.

In the immediate future, LASEC will partner with local venues to host nationally televised events like the NHL Draft in 2010, the NBA All-Star Game and Weekend in 2011 and the NCAA Men's Basketball Western Regional Championship in 2013.

Finance, IT and Human Resources - \$1,475,000

This area provides operational support to Convention & Meetings Sales & Services, International and Domestic Marketing and the Los Angeles Sports & Entertainment Commission. This includes Administrative Services, Finance, Human Resources, Payroll, Information Technology and Strategic Partnerships. Together, these departments are responsible for maintaining financial controls, operational efficiency and contract compliance in all entities.

Total 2010-2011 LA INC Budget: \$18,442,462

PRODUCTIVITY GOALS

In order to delineate production standards for 2010-11, the following exhibits itemize Convention & Meetings Sales and Services bookings and leads goals which are subject to recommendations by the Advisory Board and approval of the LA Inc. Board of Directors.

The highlights of the exhibits are as follows:

LIABILITY CLAIMS

BASIS FOR THE PROPOSED BUDGET

The Fiscal Year 2010-11 Proposed Budget for Liability Claims relates to current year funding as follows:

| | 2009-10 Budget | 2009-10 Estimated Expenditures | 2010-11 Proposed Budget |
|-----------------|-------------------|--------------------------------------|-------------------------------|
| Under \$100,000 | \$ 10,000,000 | \$ 9,000,000 | \$ 10,000,000 |
| Over \$100,000 | 31,000,000 | 33,540,000 | 38,850,000 |
| Total | \$ 41,000,000 | \$ 42,540,000 | <u>\$ 48,850,000</u> |

A total appropriation of \$48.8 million is proposed for Liability Claims. Funding in the amount of \$10 million is provided for Liability Claims under \$100,000 and \$38.8 million for Liability Claims over \$100,000. The Los Angeles Administrative Code authorizes the Mayor to delegate authority to the City Attorney to settle claims and pay judgments against the City in an amount not to exceed \$50,000; an additional \$50,000 (up to \$100,000) is subject to the concurrence of the Claims Board. Claims or judgments over \$100,000 must have the approval of the Mayor and Council.

Until 1994-95, Liability Claims under \$15,000 were budgeted in the City Attorney's Budget. Liability Claims over \$15,000 were budgeted in the Unappropriated Balance. Beginning in 1995-96, this Budget was created to account for all expenditures for the City's Liability Claims. Beginning in 2005-06, claims for police-related litigation previously paid from the Reserve for Extraordinary Liability Claims Account was paid from this account.

The 2009-10 estimated expenditures does not include cases paid with interim funding from the Reserve Fund which are anticipated to be reimbursed through a Judgment Obligation Bond to be released in June 2009. The base increase for 2010-11 reflects settlements approved in 2009-10 with obligations due 2010-11, cases on appeal with potential payouts and those matters still pending. The proposed budget also includes \$2 million in funding for Attorney Conflict Panel cases managed by the Office of the City Administrative Officer. Adjustments to the fund may be necessary during the year as cases reach the trial stage and judgments or settlements are determined.

MEASURE R LOCAL TRAFFIC RELIFF AND RAIL EXPANSION FUNDS

BASIS FOR THE PROPOSED BUDGET

The Fiscal Year 2010-11 Proposed Budget for Measure R – Traffic Relief and Rail Expansion Funds relates to current year funding as follows:

| | Amount | % Change |
|----------------------------|------------------|----------|
| 2009-10 Adopted Budget | \$ 22,790,270 | |
| 2010-11 Proposed Budget | \$ 32,956,500 | |
| Change from 2008-09 Budget | \$ 10,166,230 | 44.6% |

In November 2008, the voters in Los Angeles County approved the imposition of an additional one-half cent sales tax for a period of 30 years to:

- Expand the County Metro rail system, including providing a direct airport connection;
- Make local street improvements, such as synchronizing signals, filling potholes, repairing streets and making neighborhood streets and intersections safer for drivers, bicyclists and pedestrians in each community;
- Enhance safety and improve the flow of traffic on freeways and highways;
- Make public transportation more convenient and affordable (especially for seniors, students, the disabled and commuters); and,
- Provide alternatives to high gas prices, stimulate the local economy, create jobs, reduce pollution and decrease dependency on foreign oil.

Collection of Measure R sales tax receipts began on July 1, 2009 and the first disbursement of funds to the City occurred in December 2009. Measure R Funds must be used to augment, not supplant other City programs. Misuse of the funds will require repayment, with interest, and will prohibit the City from receiving funds for a period of three years. Interest earned on funds allocated shall be expended only for those purposes for which the funds were allocated. Funds will be audited on an annual basis and the use of those funds will be overseen by a three member panel of retired judges known as the Proposition R Independent Taxpayers Oversight Committee of Metro. The Mayor of the City of Los Angeles, the County Board of Supervisors and the Los Angeles County City Selection Committee each select one member of the Oversight Committee.

The City receives an allocation from a 15 percent share of the revenue collected, based on the City's percentage share of the population of Los Angeles County. For 2009-10, County estimates for City revenue was approximately \$21 million over the seven-month collection period. For 2010-11, considering a 12-month collection period and an 11 percent reduction in sales tax revenue, the estimated revenue is approximately \$33 million. According to Los Angeles County Metropolitan Transportation Authority (Metro), the Local Return Funds can be used for major street resurfacing, rehabilitation and reconstruction; pothole repair; left turn signals; bikeways; pedestrian improvements; streetscapes; signal synchronization; and, transit.

In addition, the City receives an allocation from a 20 percent share of the revenue collected for transit capital and operations. This amount is determined by existing funding formulas and is reflected in the Measure R Bus Operations Fund. Revenue receipts from this allocation are an estimated \$1.7 million in 2009-10 and an estimated \$2.4 million in 2010-11.

All transit projects funded by Metro through the Measure R Transit Capital Fund will require a three percent local match. Identification of matching funds will assist Metro in delivering transit projects within the City more quickly.

BUDGET HIGHLIGHTS

 The 2010-11 Proposed Budget assumes the Metro's Countywide forecasted sales tax revenue adjusted down by 11 percent.

Measure R Local Return Fund

Local Return Funds are:

- Set aside for the three percent local match requirement for the following Measure R projects in the City of Los Angeles:
 - Crenshaw Transit Corridor;
 - Exposition Boulevard Light Rail Transit;
 - Green Line Extension to Los Angeles International Airport;
 - Regional Connector;
 - San Fernando Valley I-405 Corridor Connection;
 - San Fernando Valley North-South Rapidways;
 - San Fernando Valley East North-South Rapidways; and,
 - The Westside Subway Extension.

It is estimated that approximately half of the \$13.8 billion of transit capital projects are in the City. This means that approximately \$207 million will be required by the City as a match for these projects. It is hoped that front-loading the funds set aside for the City match will encourage Metro to give priority to those projects within the City limit.

- Being used to create jobs locally.
 - Funds will augment the City Sidewalk Access Ramp construction program by providing an additional 900 access ramps. When combined with the base program of 900 access ramps, this will allow the City to complete 1,600 access ramps during 2009-10. A total of 11 City jobs are created. This will accelerate City efforts to ensure that all constituents have equal access to the City's public infrastructure.
 - Funds will provide for the creation of three new positions within the Department of Transportation that will be responsible for administering and accounting for the programs and uses of these funds.
- Regional Transit Consulting Services Funding is provided to assist the City in planning and coordinating the
 efficient intersection of the Mass Transit System with land use strategies.
- Bicycle Plan/Program Five percent of the estimated revenue is to provide for bicycle projects within the City.
- Pedestrian Plan/Program Five percent of the estimated revenue is to provide for pedestrian projects within the City.
- ◆ Transportation Grant Fund Annual Work Program Funding in the amount of \$18.7 million is to provide for front and matching funds for the City's transportation grant projects. Funding for this purpose has previously been provided solely through the City's Proposition C Fund. Due to a shortfall in the Proposition C in 2010-11, Measure R Local Return funds are provided to supplement Proposition C funds in order to mitigate potential delays or cancellation of projects in this Program.
- Harbor Gateway II Funding is provided as front-funding for this ATSAC project.
- Bridge Program Funding is provided to complete the City's match for the 6th Street Bridge project.

Measure R Bus Operations Fund

Bus Operations Funds are:

 Designated to support City transit programs. The Department of Transportation, working with the Mayor, the City Council and the City Administrative Officer, will provide a plan for the use of these funds during 2010-11.

DEPARTMENT OF NEIGHBORHOOD EMPOWERMENT FUND

NEIGHBORHOOD COUNCIL FUNDING PROGRAM BASIS FOR THE PROPOSED BUDGET

The 2010-11 Proposed Budget for the Neighborhood Council Funding Program relates to current year funding as follows:

| | New Appropriation | Balance From Prior Year | Total Appropriation |
|----------------------------|----------------------|----------------------------|------------------------|
| 2009-10 Adopted Budget | \$ 4,005,000 | \$ 1,613,470 | \$ 5,618,470 |
| 2010-11 Proposed Budget | \$ 4,050,000 | \$ 966,000 | \$ 5,016,000 |
| Change from 2009-10 Budget | | | \$ (602,470) |
| Percent Change | | | -10.7% |

The Neighborhood Council Funding Program provides funding to certified neighborhood councils for operation and neighborhood improvement purposes designated by each neighborhood council and within guidelines identified and monitored by the City.

If a neighborhood council enrolls during a fiscal year, its appropriation is prorated based on the quarter during which it enrolls. On June 22, 2005, the City Council adopted a policy through which individual unspent neighborhood council fund balances would roll over at the end of each fiscal year for a period of time not to exceed three years from the date of initial allocation. In addition, the Controller is requested to re-appropriate each neighborhood council's prior year unexpended funds at the close of the fiscal year to the ensuing fiscal year's account for that same neighborhood council.

On December 18, 2007, the City Council (C.F. 05-0894-S5) approved a modification of the Neighborhood Council Funding Program to ensure that a neighborhood council shall not have more than \$150,000 in available funds at any given time. The policy provides that, at the end of each fiscal year, the appropriation for each neighborhood council is reduced to \$100,000 and, at the beginning of the subsequent fiscal year, each neighborhood council would receive a new appropriation of \$50,000. Therefore, the maximum appropriation for each neighborhood council would never exceed \$150,000 at any given time. In the 2009-10 Budget, the City Council (C.F. 09-0600) approved a 10 percent reduction to the annual allocation from \$50,000 to \$45,000 and correspondingly reduced the maximum balance for each neighborhood council from \$150,000 to \$145,000. The 2010-11 Budget proposes to maintain the same level of funding and transfer the administration of the Neighborhood Council Funding Program from the Department of Neighborhood Empowerment to the Community Development Department.

Pursuant to Council policy, no neighborhood council funds in excess of \$100,000 are anticipated to be available for reprogramming in 2010-11. Based on actual neighborhood council expenditures as of March 31, 2010, it is projected that \$966,000 in unspent neighborhood council funds will be available in 2010-11. There are currently 90 enrolled neighborhood councils and a new appropriation of \$4,050,000 is recommended for 2010-11 to provide each neighborhood council with its annual allocation of \$45,000.

PROPOSITION A LOCAL TRANSIT ASSISTANCE FUND

BASIS FOR THE PROPOSED BUDGET

The Fiscal Year 2010-11 Proposed Budget for the Proposition A Local Transit Assistance Fund relates to current year funding as follows:

| | Amount | % Change |
|----------------------------|--------------------|----------|
| 2009-10 Adopted Budget | \$ 183,872,076 | |
| 2010-11 Proposed Budget | \$ 128,942,274 | |
| Change from 2009-10 Budget | \$ (54,929,802) | (29.9%) |

The Proposition A Local Transit Assistance (Proposition A) Fund Proposed Budget is allocated by the County by population and provides for the use of the one-half cent sales tax revenues for the planning, administration and operation of Citywide public transportation programs. Proposed appropriations comply with the Proposition A Local Return Program Guidelines adopted by the Metropolitan Transportation Authority (Metro), which administers this program approved by the voters in November 1980. The Metro-approved guidelines for Proposition A funds reflect a distribution of funding as follows: 40 percent for discretionary and incentive projects; 35 percent for rail transit and 25 percent for local jurisdictions.

BUDGET HIGHLIGHTS

♦ The City's Proposition A Fund is unable to sustain current transit service levels. Due to the structural deficit in the Proposition A Fund budget, and in order to keep the Proposition A Fund solvent for the next two years, the 2010-11 Proposed Budget assumes eliminations of some transit services and routes, changes to some transit services and routes, and some fare increases. Details of transit service route eliminations are included in the following pages. Additionally, comprehensive detail of all recommended changes are available at: http://ladotlbl.tmdinc.net

Commuter Express:

Routes to be eliminated

413 - Van Nuys/Burbank/North Hollywood/Los Angeles

430 - Brentwood/Pacific Palisades/Los Angeles

575 - Simi Valley/Warner Center

DASH:

Routes to be eliminated:
Central City East
Downtown Route C
Downtown Route DD
Fairfax
Hollywood/West Hollywood
Hyde Park Shuttle
Van Nuys/Studio City
Warner Center (North & South)

Commuter Express:

Routes with Service Changes:

142 - San Pedro/Long Beach

419 - Chatsworth/Northridge/Granada/Mission Hills

422 - Central LA/Hollywood/Thousand Oaks

423 – Newbury Park/Thousand Oaks/Woodland Hills/Encino/Downtown LA

DASH:

Routes with Service Changes:
Downtown Route D
El Sereno/City Terrace
Highland Park/Eagle Park
Lincoln Heights/Chinatown
Northridge
Wilmington

In 2010-11, the fare increases assumed are estimated to be from 35 cents to 90 cents, depending upon the transit zone traveled, for a one-way cash fare trip for Commuter Express and 10 cents for a regular one-way cash fare trip for DASH services.

DEFINITIONS

Metro/MTA – Los Angeles County Metropolitan Transportation Authority.

Call for Projects (Call)– Process created by Metro to allocate discretionary, countywide capital to regionally significant projects.

TGF – Transportation Grant Fund, which receives Metro grant and City matching funds for local transportation projects.

The Proposition C Transit Improvement Fund (Proposition C) receives funds from the one-half cent sales tax increase approved by County of Los Angeles voters in 1990. The funds are allocated Countywide on a percapita basis and may be used for public transit, paratransit and repair and maintenance of streets used by public transit. The Metro-approved guidelines for Proposition C funds reflect a distribution of funding as follows:

| Discretionary | 40% |
|--|-----|
| Transit-Related Highway Improvements | 25% |
| Local Return (Allocation to Jurisdictions) | 20% |
| Commuter Rail | 10% |
| Security | 5% |

BUDGET HIGHLIGHTS

- Funding provided in the 2010-11 Proposition C Budget for the Exposition Light Rail Extension (Expo) reflects the City's continued funding commitment to this project that will run from the Los Angeles Central Business District and connect to the existing Blue Line light rail system in Downtown Los Angeles. The City has committed to contribute \$40 million to the construction of Expo through approximately 2010.
- Signal Synchronization: Funding is provided in City departments, including the Department of Transportation (DOT) and the Department of Public Works, to increase efficiencies of the City's roadway system by the use of the Automated Traffic Surveillance and Control (ATSAC) and Adaptive Traffic Control System (ATCS) traffic signal synchronization systems. The ATSAC system is a computer-based traffic signal control system that monitors traffic conditions and system performance, selects appropriate signal timing (control) strategies and performs equipment diagnostics and alert functions. The ATCS projects will upgrade signal timing features to existing ATSAC locations.
- Transportation Grant Fund Work Program: Funding provided in departmental appropriations and the Transportation Grant Fund Work Program line item reflects the cash flow needs for projects underway that were funded in previous year MTA Calls for Projects, the State Department of Transportation's Safe Routes to Schools Program and the City's match for TEA-21 projects. The specific projects utilizing these funds will be addressed in the 2010-11 TGF Report. It should be noted that the City's Measure R Local Return Fund also provides funding, representing the balances of funding needs, for this program.

| Transportation Grant Fund Work Program. Budgeted front and matching funds enable the City to supplement various grants received from Metro and other organizations for City projects as part of the Transportation Grant Fund Annual Work Program (TGFAWP). In 2009-10, funding for salaries of positions in various City departments supporting the TGFAWP are provided through the budget. That is, the salary appropriations for positions supporting the TGFAWP are reflected in this Fund's specific departmental appropriation line items. Funds in this TGFAWP line item reflect available funding for expense and equipment items for specific projects. These funds, including any unanticipated reimbursements, will be appropriated through an interim report to the Mayor and Council during 2010-11. To assist with clearing a backlog of funded projects and to create the maximum number of jobs in 2010-11, additional funding in the amount of \$18,700,000 is available through the City's Measure R Local Return Fund. | | 7,725,358 | | 6,163,763 |

SOLID WASTE RESOURCES REVENUE FUND

BASIS FOR THE PROPOSED BUDGET

The 2010-11 Proposed Budget for the Solid Waste Resources Revenue Fund relates to current year funding as follows:

| | Amount | % Change |
|----------------------------|-------------------|----------|
| 2009-10 Adopted Budget | \$ 313,411,375 | |
| 2010-11 Proposed Budget | \$ 313,059,145 | |
| Change from 2009-10 Budget | \$ (352,230) | (0.1)% |

The Solid Waste Collection, Transfer, Recycling, Recovery of Waste Resources and Disposal Fee (Solid Waste Fee) is imposed on all single-family dwellings in the City and upon multiple-unit dwellings for which the City provides refuse collection services. All receipts from the Solid Waste Fee are deposited into the Solid Waste Resources Revenue Fund (SWRRF) and are used for principal and interest payments, lease payments, direct acquisitions, and associated expenses to acquire and repair sanitation equipment utilized in the collection and disposal of household refuse.

The Municipal Code was amended in Fiscal Year 2006-07 to change the existing Sanitation Equipment Charge into a comprehensive Solid Waste Collection, Transfer, Recycling, Recovery of Waste Resources and Disposal Fee. This amendment allows the City to charge a fee covering all costs associated with the collection, disposal, and recycling of solid waste. This includes, but is not limited to, the following activities: salaries; direct and indirect overhead costs; landfill costs, including disposal, resource recovery facilities or refuse to energy and fuel facilities, and closure of Cityowned landfill facilities; the development, acquisition, construction, operation, and maintenance of equipment, alternative fuel infrastructure, recycling, green waste processing, transfer facilities, or resource recovery facilities used in the collection, recycling, or recovery of solid waste resources; and, storage of solid waste related equipment. Further, these revenues can be used for the payment of principal and interest on both existing and future revenue bonds for the above listed activities that are eligible for funding from bond proceeds.

BUDGET HIGHLIGHTS

- The Solid Waste Fee was increased in September 2008 to achieve full cost recovery of the City's solid waste
 resources programs. Full cost recovery includes, but is not limited to, Sanitation and General Services direct
 and related costs, tipping fees, debt service, fuel and capital costs, and Department of Water and Power billing
 fees.
- General City Purposes funding of \$21.8 million is provided to reimburse the SWRRF for costs attributed to the Solid Waste Fee Lifeline Rate Program and solid resources collection and disposal service to other City departments and events. In consideration of Proposition 218, these costs cannot be subsidized with revenues from the Solid Waste fee using the existing financial model. On February 3, 2010, the Mayor and Council approved a fee revision that reduces the Lifeline subsidy to 30 percent of the fee, phased in over a two year period beginning in 2010-11 (C.F. 09-0600-S159). The appropriations reflect this rate revision.
- The Early Retirement Incentive Program resulted in approximately 62 departures funded from the SWRRF in the Bureau of Sanitation and Department of General Services. Retirement and incentive payouts totaling \$1.3 million are budgeted for 2010-11. Additional payouts will be appropriated in the following year as per respective labor agreements.
- Funding for solid waste tip fees is moved from General Fund reimbursements to special purpose fund appropriations to facilitate the management and timely disbursement of contract hauling and disposal costs.

Solid Waste Resources Revenue Fund

SPECIAL PARKING REVENUE FUND

BASIS FOR THE PROPOSED BUDGET

The 2010-11 Proposed Budget for the Special Parking Revenue Fund (SPRF) relates to current year funding as follows:

| | Amount | % Change |
|----------------------------|------------------|----------|
| 2009-10 Adopted Budget | \$ 38,844,673 | |
| 2010-11 Proposed Budget | \$ 55,383,347 | |
| Change from 2009-10 Budget | \$ 16,538,674 | 42.6% |

The Special Parking Revenue Fund (SPRF) receives all monies collected from parking meters and City-owned parking lots in the City in accordance with Division 5 of the Los Angeles Administrative Code. Under the Ordinance that took effect July 1, 2000, SPRF monies have been used for the following purposes: (1) purchasing, leasing, installing, maintaining, operating, regulating and policing of parking meters and metered spaces; collection of meter revenue and related expenses (for the purposes of this section, the policing of parking meters shall not include the routine and customary issuance of parking citations); (2) the purchase, improvement and operation of off-street parking facilities; (3) the painting and marking of streets and curbs required for the parking of motor vehicles within parking meter zones; (4) repayment of borrowed City funds; and (5) the payment of debt service costs incurred for off-street parking facilities. Off-street parking facilities financed from the SPRF should be in close proximity to the business districts in which parking meter zones are established and should be paid from the receipts of parking meters installed in those business districts.

The Ordinance has been amended since as follows:

- In June 2001, to provide for the use of the SPRF funds for City employee parking;
- In June 2004, to allow funding of the Central Library Validation Program;
- In December 2008, to allow the City Council to declare a surplus in the fund and transfer it to the Reserve Fund after providing for the payment of debt service and the cost of operations and maintenance, and establishing a contingency account, with an expiration date on the amendment of June 30, 2009; and,
- In July 2009, to extend the effective date of the surplus amendment through June 30, 2010 and to specify that funds loaned from accounts to contribute to a surplus transfer must be returned to the affected accounts within two years.

BUDGET HIGHLIGHTS

- The 2010-11 Proposed Budget:
 - Extends the effective date of the surplus amendment to the SPRF ordinance through June 30, 2011;
 - Anticipates the upgrade of 10,000 single-space parking meters with credit card capabilities, with anticipated revenue enough to offset the cost of implementation;
 - Provides \$10 million in the Capital Improvement Expenditure Program to contribute to the land acquisition cost for a proposed parking facility on Broadway between Sixth and Eighth Streets in Council District 14;
 - Focuses on providing reliability and ensuring safety in the maintenance, operation, and upgrade of the City's parking meter and off-street parking system; and,
 - Provides for no surplus transfer.

SPECIAL POLICE COMMUNICATIONS/ 9-1-1 SYSTEM TAX FUND

BASIS FOR THE PROPOSED BUDGET

The 2010-11 Proposed Budget for the Special Police Communications/9-1-1 System Tax Fund relates to current year funding as follows:

| | Amount | % Change |
|----------------------------|----------------|----------|
| 2009-10 Adopted Budget | \$ 23,710,407 | |
| 2010-11 Proposed Budget | \$ 22,422,918 | |
| Change from 2009-10 Budget | \$ (1,287,489) | (5.43%) |

On November 3, 1992, the voters approved an ordinance adding Article 1.16 to Chapter 11 of the Los Angeles Municipal Code, imposing a Special Police Communications/9-1-1 System Tax. The special tax is imposed for 20 years, commencing in 1993-94 and ending in 2013-14. The special tax will pay for up to \$235 million in bonds to finance the following: co-location of the downtown Police Communications Center with the Fire Communications Center to a site that provides adequate space for both and allows for future growth; creation of a San Fernando Valley Communications Center to serve the emergency communications needs of the San Fernando Valley and West Los Angeles; replacement and expansion of the police radio communication system to utilize additional radio frequencies made available by the Federal Communications Commission in conjunction with those frequencies already in use; replacement of obsolete radios and acquisition of mobile data terminals for patrol officers; and, provide a Citywide communications back-up system. Lease revenue bonds secured by this special tax were issued as follows:

| 1. Issu | , | | |
|---------|--|----------|-------------------------------------|
| | Use of Proceeds: New money Amount of Issue: Principal Outstanding July 1, 2010: Final Payment: | \$ \$ | 70,285,000 15,355,000 2011-12 |
| 2. | Issue: Series 1999-E Refunding (MICLA AJ) Use of Proceeds: Refunded Series 1996-B (MICLA Z) Amount of Issue: Principal Outstanding July 1, 2010: Final Payment: | | 65,040,000 21,065,000 2013-14 |
| 3. | Issue: Series 2002-F (MICLA AO) Use of Proceeds: New money Amount of Issue: Principal Outstanding July 1, 2010: Final Payment: | | 52,325,000 23,180,000 2013-14 |
| 4. | Issue: Series 2002-G Refunding (MICLA AP) Use of Proceeds: Partial Refunding of Series 1999-D (MICLA AI) Amount of Issue: Principal Outstanding July 1, 2010: Final Payment: | \$ \$ | 16,320,000 16,320,000 2013-14 |

As provided in the Special Tax Ordinance, appropriations from the Special Police Communications/9-1-1 System Tax Fund are made to the Office of the City Clerk and the Office of the City Administrative Officer to finance the cost of collecting and administering the special tax. The Ordinance also provides for appropriations to pay lease payments and other special purposes incidental to meeting the requirements of the Lease Agreement and related bond covenants. The proposed appropriations are described below:

| APPROPRIATIONS | 2009-10 2 Budget | 010 -11 Proposed Budget | |
|-----------------------------------|---------------------|-------------------------------|--|
| City Administrative Officer | \$ 32,857 | \$ 32,857 | Provides reimbursement for the cost of collecting and administering the special tax. |
| City Clerk | 336,401 | 351,694 | Provides reimbursement for the cost of collecting and administering the special tax. |
| Overhead Costs - City Departments | 516,259 | 538,898 | Provides reimbursement for related costs incurred in the collection and administration of the special tax. |
| Bond Administration | 10,000 | 10,000 | Provides funding for trustee fees and other administrative costs. |
| Insurance | 50,000 | 50,000 | Funds annual insurance premiums. |
| Lease Payments | 20,963,490 | 20,914,469 | Provides funds for lease payments due on March 1 and June 1, pursuant to the lease of the Police Communications/ 9-1-1 System, MICLAs AI, AJ, AO and AP. Lease payments are used by the bond trustee to pay principal and interest on the bonds. |
| Lease Reserve | 1,776,400 | 500,000 | Provides funding for tax delinquency coverage, County collection fees and a reserve for tax refunds. |
| Loss Reserve | 25,000 | 25,000 | Funds a loss reserve fund that would pay deductibles for replacing equipment. |
| TOTAL APPROPRIATIONS | \$ 23,710,407 | \$ 22,422,918 | |

The Bond Debt Service Reserve and the Lease Reserve were established to stabilize the tax rate over the remaining life of the special tax. The tax rate for 2010-11 is projected to be \$0.95 per 100 square feet of improvements, a 6.74% increase over the 2009-10 tax rate.

STORMWATER POLLUTION ABATEMENT FUND

BASIS FOR THE PROPOSED BUDGET

The 2010-11 Proposed Budget for the Stormwater Pollution Abatement (SPA) Fund relates to current year funding as follows:

| | Amount | % Change |
|----------------------------|------------------|----------|
| 2009-10 Adopted Budget | \$ 29,721,450 | |
| 2010-11 Proposed Budget | \$ 31,067,522 | |
| Change from 2009-10 Budget | \$ 1,346,072 | 4.5% |

Adopted in August 1990, the Stormwater Pollution Abatement (SPA) Charge imposed a fee on all properties in the City based on stormwater runoff and pollutant loading associated with property size and land use. The charge is collected by the Los Angeles County Assessor on the annual property tax bill. Annual receipts are approximately \$28.4 million. SPA funds are used to treat and abate stormwater under the guidelines and regulations set forth by the United States Environmental Protection Agency (U.S. EPA) for stormwater discharges from large municipal storm drain systems. The SPA Fund also reimburses the General Fund for the costs of stormwater related activities in various City departments, offices and bureaus, including related costs. Funds are further provided for the construction of flood control and pollution abatement projects.

The State of California, Regional Water Quality Control Board, Los Angeles Region (Regional Board) regulates the treatment and abatement of stormwater through a National Pollutant Discharge Elimination System (NPDES) Municipal Stormwater Permit. This Permit is issued to the County of Los Angeles, the City of Los Angeles, and 83 other cities in the County that operate their municipal storm drain systems as co-permittees of the County. The new Permit was adopted on December 13, 2001, and was effective February 1, 2002.

One of the regulatory tools of the Regional Board is oversight of Total Maximum Daily Loads (TMDLs), which are calculations of the maximum amount of a pollutant that a water body can receive and still meet water quality standards. The City is currently subject to fifteen (15) TMDLs. There are more than sixty (60) TMDLs that will be issued to the City by the Regional Board and the U.S. EPA by March 2012, per a court order consent decree. The total cost of complying with all 60 TMDLs is estimated to be \$8 billion over the next 20 years.

Adopted by the U.S. EPA on August 1, 2002, the Los Angeles River and Ballona Creek Trash TMDLs set a numeric target of zero trash in the water to be achieved within a ten-year timeframe. The City met a September 30, 2008 deadline to reduce the level of trash by 40 percent from an established baseline limit. In addition, the City Council endorsed these TMDLs by adopting a goal of 50 percent trash reduction by September 30, 2009, which the City has met.

The Dry Weather Pathogen, or Bacteria TMDL, for Santa Monica Bay (SMB) was adopted by the U.S. EPA on July 15, 2003. It allows no exceedance days for bacteria during the summer months and three days exceedance during the winter months. The City has complied with the Bacteria TMDL through the construction of eight (8) Low Flow Diversion projects, which divert storm drain flow to the Hyperion Treatment Plant for treatment during dry weather conditions rather than allowing runoff flows to reach the Bay.

Adopted by the U.S. EPA on July 2003, the Wet Weather Bacteria for Santa Monica Bay Beaches TMDL includes an 18-year implementation schedule so that by 2021, there will be no more than 17 days of exceedances of allowable levels of bacteria in stormwater discharges during wet weather. The City coordinates this effort with the Cities of El Segundo and Santa Monica, California Department of Transportation and the County of Los Angeles and has prepared an implementation plan to achieve the goals of this TMDL. The plan uses an adaptive management approach through an iterative process to meet the first two milestones of this TMDL, which are 10 to 25 percent reductions in exceedance days. The Implementation Plan was submitted to the Regional Board on July 15, 2005. The City has implemented a variety of institutional measures and structural devices identified in the Implementation Plan to comply with TMDL requirements. These efforts have been supported by the Proposition O Clean Water Bond (Proposition O) passed by the voters of the City of Los Angeles in November 2004_{8,47}

The U.S. EPA adopted the Bacteria TMDL for Marina Del Rey (MDR) in March 2004. Similar to the SMB Bacteria TMDL, the MDR requires monitoring plans, implementation plans, reports and scientific studies to be submitted to the Regional Board. The City, in conjunction with the County of Los Angeles as the lead agency for this TMDL, has implemented a variety of institutional measures and structural devices to comply with TMDL requirements.

The U.S. EPA adopted the Nitrogen TMDL for the Los Angeles River in March 2004. This TMDL places a limit on various nitrogen species at the City's major publicly owned treatment works in the Los Angeles River watershed. To remove nitrogen and meet discharge requirements by 2007, the City has converted the existing facilities at the D.C. Tillman and the Los Angeles/Glendale Water Reclamation Plants to provide nitrogen removal facilities (nitrification and denitrification). On-going monitoring has shown a reduction in nitrogen as a result of the upstream treatment plants' upgrades.

Adopted by the U.S. EPA on July 2003, the Los Angeles Harbor, Inner Cabrillo Beach (ICB) and Main Ship Channel (MSC) Dry and Wet Weather Bacteria TMDLs are intended to reduce bacteria levels in the ICB and MSC. These TMDLs require both dry and wet weather compliance within five years. The goal of the dry weather TMDL is to reduce the ICB and MSC to no more than three days of exceedances during the wet season. The City has implemented several stormwater Best Management Practices and structural control devices to achieve these goals. The last element of this effort is the installation of a bird exclusion system that will be completed by June 2010.

The Toxic Pollutants TMDL for the Ballona Creek Estuary was adopted by the U.S. EPA in December 2005. This TMDL sets limits for cadmium, copper, lead, silver, zinc, chlordane, DDT, total polychlorinated biphenyls (PCBs) and total polycyclic aromatic hydrocarbons (PAHs). This TMDL requires a Toxicity Identification Evaluation as a special study to identify the sources of toxicity and steps to reduce the toxicity. Compliance with the Toxic Pollutants TMDL is to be achieved through a phased approach with complete compliance by 2021. The City will use a combination of institutional and structural Best Management Practices to comply with this TMDL. The City will submit its implementation plan to the Regional Board by January 2011, per TMDL requirement.

The U.S. EPA approved the Toxics Pollutants TMDL for Marina del Rey Harbor in March 2006. This TMDL sets limits for copper, lead, zinc, chlordane and total polychlorinated biphenyls (PCBs) in the sediment and limits for PCBs in the water column and fish tissue. Compliance with this TMDL is to be achieved through a phased approach by 2016 if a TMDL Specific Implementation Plan is pursued, or by 2021 if an Integrated Resources Approach is pursued. A combination of institutional and structural Best Management Practices will be used to comply with this TMDL.

The U.S. EPA adopted the Bacteria TMDL for Ballona Creek, Ballona Estuary and Sepulveda Channel in March 2007. This TMDL requires compliance with summer and winter dry weather requirements by 2013. If an Integrated Water Resources Approach is implemented, the dry weather compliance requirement is 2021. The City will implement a combination of institutional and structural Best Management Practices to comply with this TMDL. The City submitted its implementation plan to the Regional Board in January 2010, and is awaiting their comments. In addition, the City will address the bacteria non-point discharges from Del Rey Lagoon.

The Metals TMDL for Ballona Creek and the Los Angeles River was adopted by the U.S. EPA in October 2008. This TMDL regulates the discharge of copper, lead, selenium, and zinc to Ballona Creek, the Los Angeles River, and its tributaries. Through a phased approach, the City will implement institutional and structural Best Management Practices to comply with the dry and wet weather requirements of this TMDL. The City submitted its implementation plan to the Regional Board in December 2009, and is awaiting their comments.

Proposition O authorized the issuance of \$500 million in general obligation bonds to fund water quality improvement projects. Oversight and direction of the program is provided by a five-member Administrative Oversight Committee (AOC) consisting of representatives from the City Administrative Officer, the Chief Legislative Analyst, the Office of the Mayor, the Department of Water and Power and the Board of Public Works. Monitoring of the program is also provided by a nine-member Citizens Oversight Advisory Committee (COAC) consisting of four members appointed by the Mayor and five members appointed by the City Council President. Specific projects to be funded from these bonds are subject to the criteria developed by the AOC and the COAC. Bond funds in the amount of \$37 million, \$8 million, \$101 million and \$176.5 million were issued in July 2005, August 2006, August 2008 and August 2009, respectively. It is projected that approximately \$126.7 million will be issued in 2010-11.

Proposition O provides funding for the design and construction of water quality improvement projects and does not provide funds for operation and maintenance. Funding will be provided through the City's annual budgetary process as projects become operational. A dedicated revenue stream will be needed in future years to operate and maintain the facilities constructed with Proposition O bond funds.

REVENUE

The City has not seen an increase in the Stormwater Pollution Abatement Charge for 17 years (since 1993). Due to new NPDES Municipal Stormwater Permit requirements, the City will experience an increase in its operational costs. The current rate structure of \$1.92 per month for an average single-family residential parcel is not sufficient to cover the additional costs. The City is working with the County of Los Angeles and other public agencies to formulate a plan to provide additional revenue through a clean water fee. This effort is underway and is expected to be completed by the summer of 2010.

The increased revenue will provide funding for the City's Clean Water Initiative and will assist in meeting TMDL water quality compliance requirements. This effort includes, but is not limited to, additional street sweeping and catch basin cleaning activities, and the construction, operation, and maintenance of flood control and green multi-benefit rain water infiltration projects including those constructed under the Proposition O Clean Water Bond Program.

BUDGET HIGHLIGHTS

- Funds are provided for five grant-funded flood control/green street projects in the Capital Improvement Expenditure Program.
- Funds are provided for non-capital expenses associated with maintaining the National Pollutant Discharge Elimination System (NPDES) Municipal Stormwater Permit.
- Continue the Developer Plan Review Fee to recover costs associated with ensuring that new developments comply with applicable storm water runoff water quality standards.

STREET LIGHTING MAINTENANCE ASSESSMENT FUND

BASIS FOR THE PROPOSED BUDGET

The 2010-11 Proposed Budget for the Street Lighting Maintenance Assessment Fund relates to current year funding as follows:

| | Amount | % Change |
|----------------------------|------------------|----------|
| 2009-10 Adopted Budget | \$ 60,502,046 | |
| 2010-11 Proposed Budget | \$ 69,290,375 | |
| Change from 2009-10 Budget | \$ 8,788,329 | 14.5% |

In compliance with Chapter 3 of Division 6 of the Los Angeles Administrative Code, the City established a Street Lighting Maintenance Assessment Fund (SLMAF). Monies from property assessments for Street Lighting Districts are deposited in the Fund and are able to be used for the installation, maintenance, operation, repair and replacement of Street Lighting Systems. Street Lighting Districts are established by a vote of property owners within a certain area. Currently, there are 12,500 Street Lighting Districts covering approximately 70 percent of the City.

The following page provides a Five Year Forecast on revenues and expenditures for the Fund. The forecast is provided to illustrate that the revenue to the fund is insufficient to maintain the existing capital program or current service levels over the forecast period. Assessment adjustments, through the voter approved Proposition 218 process, will be necessary in the future to maintain services.

In 2010-11, the Bureau of Street Lighting is on the second year of a five year initiative to change 140,000 assessment district street light fixtures to energy efficient light emitting diodes (LED). The proposed budget assumes a \$12.0 million loan from the Los Angeles Department of Water and Power (LADWP) and expenditures of \$13.8 million to purchase and convert 30,000 units.

Through this initiative and other energy efficiency programs such as the series to multiple circuit conversions, the Bureau expects to minimize the impact on the SLMAF with energy savings, rebates, and decreased maintenance costs. The Five Year Forecast will change depending on progress achieved with implementation of the LED and series to multiple conversion programs.

¹ Includes Energy Conservation Loan for 2009-10 and 2010-11, which is provided on a reimbursement basis. It is unknown what amount, if any, will be provided in subsequent years. Street Lighting reports the Bureau will apply for funds on a yearly basis.

² Increases in 2010-11 and beyond reflect projected DWP rebate receipts from LED conversion energy savings.

³ Salaries reflect annual COLA adjustments.

⁴ Function moving to PW Bureau of Engineering in 2010-11.

⁵ Fleet replacement is based on the current fleet replacement schedule for existing vehicles. Historically, fleet replacement has been funded by SLMAF.

⁶ 2009-10 and 2010-11 reflect decreased salary expenditures due to vacancies and budget balancing measures.

⁷ Funds budgeted in this category are not always fully expended in the fiscal year budgeted and become "Prior Year Unexpended Appropriations" on Schedule 19 For the purposes of this exhibit, expenditure amounts are reflected as estimated expenditures during the fiscal year regardless of the appropriation amount.

⁸ Expenditures in this category are from a prior \$5 million loan from DWP for specific projects that are expected to be complete in 2009-10.

⁹ Decreases in 2010-11 and beyond reflect projected energy savings due to the LED conversion.

¹⁰ Projected energy rebates and savings are dependent on the scheduled purchase and installation of the LED fixtures.

Once all appropriations and transfers have been made from the TDA for departmental and Municipal Access, funds in the amount of \$7,899,868 remain. These funds will be transferred to the General Fund.

PURPOSE OF FUND

The cable television franchise fee is a payment to the City for the use of City streets and rights of way. It is calculated at the rate of five percent of gross revenue received by the cable companies. Forty percent of all funds received and collected from telecommunications franchise holders are deposited into the TDA The remaining 60 percent is deposited into the General Fund. TDA funding may be used for PEG access related purposes and other telecommunications needs.

In addition to the five percent franchise fee, as of April 2009 the TDA also receives one percent of franchise holders gross receipts that must be used for capital costs related to PEG access programming. Funds from the PEG capital cost franchise fee that are not appropriated for specific purposes are held in a reserve account. It is anticipated that \$4,755,170 of 2010-11 funds dedicated to PEG capital costs will be carried over and held in reserve.

UNAPPROPRIATED BALANCE

BASIS FOR THE PROPOSED BUDGET

The 2009-10 Proposed Budget for the Unappropriated Balance relates to current year funding, as follows:

| | | % Change | |
|----------------------------|----|-------------|-------|
| 2009-10 Adopted Budget | \$ | 60,467,038 | |

| Change from 2009-10 Budget | \$ | 107,019,862 | 177 % |

In accordance with Charter Section 312, the Unappropriated Balance provides funds for appropriations after the budget adoption to meet contingencies as they arise. Specific funding, personnel, equipment and/or procedures cannot be adequately defined for contingencies that occur during the fiscal year. By recognizing such contingencies in the Unappropriated Balance, start-up funding is provided. Use of monies in the Unappropriated Balance is subject to approval of specific reports and recommendations to the Mayor and Council.

Bank Fees – \$1,100,000. In 2009-10, a total of \$7 million was provided to cover the City's cost for bank fees. The Office of Finance has implemented a credit card convenience fee to reduce expenditure for bank fees, where the projected savings is \$2.1 million for 2010-11. A total of \$4.9 million is provided in the Treasurer's Budget for bank fees. An additional \$1.1 million is provided in the Unappropriated Balance to serve as a contingency in the event full-year savings for bank fees are not realized.

Budget Balancing Bridge – \$23,582,000. Funding is set aside in the event that implementation delays impact budgeted savings.

Early Retirement Incentive Program Payout – \$33,698,900. In accordance with the Early Retirement Incentive Program (ERIP) agreement, participants in the program will receive their separation payment, sick and vacation payouts in two installments, the first half in 2010-11 and the second half in 2011-12. All of the participants are anticipated to retire by June, 2010. The payouts will be determined upon employees' retirement date. The amount set aside excludes payouts for proprietary department employees. Funds will be transferred from the Unappropriated Balance to each department during the fiscal year.

East Valley Multi-Purpose Senior Center – \$35,000. One-time funds were provided in the 2009-10 Budget for temporary lease costs for the East Valley Multi-Purpose Senior Center. This Center was scheduled to move into a Recreation Parks Facility during 2009-10. However, a move-in date has not been determined. Funds are provided to cover potential lease costs in 2010-11 until the Center is officially moved into a City facility.

Fire and Police Pensions Contribution – \$98,671,000. Funding is set aside to pay for the remaining installment of the City's contribution to the Los Angeles Fire and Police Pension System (LAFPPS) on June 30, 2011. The amount equates to one fourth of the City's total contribution. The first installment of \$296,012,962, representing three-fourths of the contribution, will be paid through the 2010 TRANS on July 15, 2010. The total City contribution to LAFPPS is \$394,683,949.

GSD- Petroleum Products – \$2,000,000. Funding is set aside as a contingency to address price increases and volatility in the petroleum products market.

Litigation E xpense Acc ount – \$75 0,000. Funding is set aside for the City Attorney to augment the Department's Litigation Expense Account (LEA). The LEA provides funding for outside service providers to perform various legal services such as investigations, medical testimony, messenger services, collections, depositions, transcripts and photocopies or case related travel/transportation expenses. Appropriations may be made on an interim basis or during the course of mid-year and/or year-end departmental reconciliations. The City Attorney has seen an increase in expenses as the cost for such services has risen.

Outside Counsel Including Work ers' Compensation – \$3,750,000. Funding is set aside for the City Attorney to retain outside counsel attorneys to assist in litigation and transactional matters. Currently, the City Attorney retains outside firms when the type of litigation involved requires specialized expertise or where appropriate staffing resources are not available in-house. Funding will also provide for existing sworn Workers' Compensation cases only, as it is anticipated that no new workers' compensation cases are being assigned to Outside Counsel, with the exception of a few conflict cases which cannot be handled the City Attorney. All potential cases are reviewed on a case-by-case basis and are referred to the Office of the City Attorney Outside Counsel Committee for consideration prior to obtaining Council and Mayor approval.

Professional Standar ds Division – \$1,500,00 0. Funding is set aside for the Fire Department Professional Standards Division to meet legal mandates and process internal investigations in a timely manner.

Water and Electricty – \$2,400,000. Funding is set aside as a contingency to account for the impact on the City's electricity costs due to the Department of Water electricity rate adjustment.

WATER AND ELECTRICITY

BASIS FOR THE PROPOSED BUDGET

The Fiscal Year 2010-11 Proposed Budget for Water and Electricity relates to current year funding as follows:

| | Amount | % Change |
|----------------------------|-------------------|----------|
| 2009-10 Adopted Budget | \$ 51,674,102 | |
| 2010-11 Proposed Budget | \$ 50,428,995 | |
| Change from 2009-10 Budget | \$ (1,245,107) | (2.4)% |
| | | |

The Proposed Budget provides funding in the amount of \$11.7 million for water and \$38.7 million for electricity for a total appropriation of \$50.4 million. The budget provides for a \$1.2 million decrease from 2009-10. Additional funding of \$2.4 million is set aside in the Unappropriated Balance as a contingency to account for the impact on the City's electricity costs due to the Department of Water electricity rate adjustment.

2010 TAX AND REVENUE ANTICIPATION NOTES, DEBT SERVICE FUND

BASIS FOR THE PROPOSED BUDGET

The 2010-11 Proposed Budget for the 2010 Tax and Revenue Anticipation Notes, Debt Service Fund, relates to the current year funding as follows:

| | 2009-10 Adopted Budget | 2010-11 Proposed Budget | % Change |
|--|------------------------------|-------------------------------|----------|
| Debt Service – Pension Fund | \$ 357,717,123 | \$ 299,578,938 | (16.3)% |
| Debt Service – Retirement Fund | 300,247,031 | 339,489,504 | 13.1% |
| Debt Service – Cash Flow (Interest Only) | 7,563,555 | 8,993,287 | 18.9% |
| Total Debt Service | \$ 665,527,709 | \$ 648,061,729 | |

The 2010 Tax and Revenue Anticipation Notes (TRAN), Debt Service Fund, is a special purpose fund established to pay debt service on notes issued to fund both the City's annual contribution to the Fire and Police Pension Fund (Pension Fund) and the Los Angeles City Employees' Retirement System Fund (Retirement Fund) as well as to alleviate the short-term cash flow deficits occurring early in the fiscal year when certain taxes and revenues have not yet been received.

Part of the Fiscal Year 2010-11 appropriation to the TRAN Debt Service Fund includes the payment of the entire debt service on notes issued in relation to the Pension and Retirement Funds. Issuance of these notes will permit the City to make the entire annual contribution to the Retirement Fund and three-fourths of the annual pension contribution to the Pension Fund in July 2009. This early payment will allow both the Pension and Retirement Funds to earn additional interest that will be used to discount the required City contribution without reducing the Funds' annual receipts.

As explained in the Blue Book for the Pension Fund, the appropriation of \$299.6 million in the Debt Service Fund is the estimated cost of repaying the entire principal and borrowing costs on the notes issued for the pension contribution for 2010-11.

As explained in the Blue Book for the Retirement Fund, the appropriation of \$339.5 million in the Debt Service Fund is the estimated cost of repaying the entire principal and borrowing costs on the notes issued for the retirement contribution for 2010-11. The special fund portion of the retirement contribution (\$71.3 million) will be paid by the Departments of Airports and Harbor.

The Controller's Office has requested \$550 million in temporary cash flow borrowing. The issuance of these notes will permit the City to provide effective cash flow management for the City's General Fund, which is less than borrowing internally from special funds. The principal portion of the TRAN for cash flow purposes has not been appropriated in the Budget, since this principal is treated as temporary borrowing rather than as an expenditure. The cash flow appropriation of \$9.0 million is for the interest only portion of the debt service on the notes.

The principal and interest on the TRAN will be paid from the City's General Fund revenues set aside during the fiscal year. Issuance of the TRAN for pension, retirement and cash flow are combined to achieve efficiencies and will not contribute to the overall indebtedness of the City. The total savings from the pension and retirement prepayment is approximately \$18.7 million. The total estimated interest earned on investing the revenues set aside to pay the TRAN beginning in February 2011 is approximately \$200,000. The total net savings to the General Fund of issuing the TRAN is approximately \$4.5 million.

2010-11 PROPOSED BUDGET DEPARTMENTAL METRICS

Fiscal Year 2010-11 marks the second year that performance metrics have been integrated into the City budget. In 2009-10, departments identified their core activities and submitted an initial set of performance indicators to measure the effectiveness of individual programs. In 2010-11, these activities and indicators have been themed around six core functions:

- I. Public Safety
- II. Community Environment
- III. Transportation
- IV. Culture, Education & Recreation
- V. Socio-Economic Development
- VI. Support Services

Each core function contains one or more department services goals, which are in turn supported by a set of departmental programs, each with its own performance metric. This cascading set of functions, goals, programs and metrics allows members of the public to evaluate the effectiveness of individual programs and the contribution of these programs to broader goals.

The charts on the following pages present actual performance for 2008-09 and an estimate of performance achieved in 2009-10. The 2009-10 data is based on information submitted by departments in January 2010. This data does not reflect adjustments that may have occurred since the 2009-10 Mid-Year Financial Status Report wherein a significant revenue decline (\$110 million) was identified and prompted various actions to reduce staffing and expenses.

In future budgets, the City intends to include performance targets for the upcoming fiscal year. However 2010-11 targets are not included in this budget because of the uncertainty over the City's financial situation and the budgetary decisions that will impact key services.

Updated 2009-10 and 2010-11 performance data and targets will be obtained from departments after final adoption of the 2010-11 Budget.
