Budget Summary

INTRODUCTION

The “Budget Summary” provides a ready reference and summary of the City’s annual budget.

This booklet includes information about City revenues and appropriations, state and federal assistance, and related fiscal matters.

Some information is included on the City’s proprietary departments—Airports, Harbor, and Water and Power. These departments are not part of the City’s regular operating budget since they generate their own revenues and are not supported by taxes.

Increase in Power Revenue Transfer	36.5
Special Parking Revenue Fund Transfer	10.0
Reserve Fund Transfer	3.6
One-time Revenue from Parking Facilities	53.2
Departmental Reductions	99.1
Employee Furloughs	63.3
One-time Deferral of 1% Capital Improvement Expenditure	37.0
Various Other Reductions and Additions	50.1
<hr/>	
Total Budget Balancing Proposals	<u>\$ 492.4</u>

The City's Fiscal Year 2010-11 Adopted Budget, which includes the General Fund and most special revenue funds, totaled \$6.7 billion, which is a \$135 million (1.9%) decrease from the Fiscal Year 2009-10 Adopted Budget. General Fund revenues for Fiscal Year 2010-11 are projected to be \$4.375 billion, a net decrease of \$24 million (0.5%) from the Fiscal Year 2009-10 Adopted Budget. The 2010-11 Adopted Budget reflects the elimination of 3,345 General Fund positions, including the elimination of positions for employees who took advantage of the Early Retirement Incentive Program, and lay-offs and other position eliminations that occurred during Fiscal Year 2009-10 and that are scheduled to occur in Fiscal Year 2010-11.

The Reserve Fund is projected to begin the fiscal year with a balance of \$127.2 million or 2.91% of General Fund budgeted revenues. In compliance with the City's Financial Policies, 2.75% of budgeted General Fund revenues are allocated to the Emergency Reserve (\$120.3 million) with the balance set aside in the Contingency Reserve (nearly \$6.8 million).

CITY OF LOS ANGELES BUDGET SYSTEM

The City's budget system is the process of allocating resources to programs for public services. The following is an outline of the City's budget system.

Budget Formulation involves annually developing the Mayor's proposed budget for the ensuing fiscal year. The Mayor's proposed budget details City objectives, programs to achieve them, and funding levels.

Budget Adoption is the legislative process for reviewing and adopting the Mayor's proposed budget either as submitted or with Council modifications. Also approved through this process are the resolutions needed to implement the budget.

Budgetary Control concerns the accomplishment of the work program within budgeted funds and the receipt of estimated revenues.

Cost Control is the reduction of unnecessary costs and the attainment of increased efficiency.

BUDGET FORMULATION AND ADOPTION

The City's fiscal year runs from July 1st to June 30th. Early in the fiscal year, the Mayor releases a budget policy letter that defines City objectives for the next fiscal year. This letter guides City departments, bureaus, and other offices in preparing their annual budget requests, which are submitted in the fall.

By early March, the Mayor reviews the revenue projections prepared by the Controller and the Office of the City Administrative Officer (CAO). In hearings with CAO and general managers, the Mayor also reviews the various budget requests. The Mayor's proposed budget is then prepared and submitted to the Council. The City Charter requires that the proposed budget be delivered to the Council by April 20th of each year.

The five members of the Budget and Finance Committee examine the proposed budget in public hearings involving the department managers, CAO, and staff. The Committee then develops recommendations for Council consideration. The Charter requires Council by Majority vote to adopt or modify the proposed budget by June 1st.

Once the Council has acted, the Mayor has five working days to approve or veto any Council changes made to the proposed budget.

Once the Mayor has acted, the Council has five working days to sustain or override by two-thirds vote the Mayor's actions. The result of this process is the adopted budget for the next fiscal year.

AUTHORIZED CITY STAFFING

Not including Proprietary Departments

Positions

The 2009-10 Adopted Budget included 1,528 resolution (temporary) authorities in addition to Authorized City Staffing counts. The 2010-11 Adopted Budget includes 1,328 resolution authorities in addition to Authorized City Staffing counts.

Note: Beginning in 2006-07, all Commission positions are no longer included in departments' regular position authority total. Prior-year totals and All Others totals have been adjusted to reflect this change.

CAPITAL IMPROVEMENT EXPENDITURE PROGRAM

The City annually prepares the capital improvement expenditure program designed to keep street, sewers, municipal buildings, and other facilities in a safe and efficient operating condition. Physical plant projects are infrastructure improvements such as streets, storm drains, and bikeways. Municipal Facilities projects are public facilities such as libraries, animal shelters, police and fire stations, and parks.

The City also has significant obligations for its sewer system due to mandates of federal and state clean water laws, requiring modifications to the Hyperion Treatment Plant, the three other wastewater treatment facilities and the extensive collection system to meet increasing regulations.

Additionally, improvements have begun on the City's Stormwater System to meet federal and state mandates regarding water quality in surface runoff. These costs are expected to grow substantially in future years to comply with mandated standards.

American Recovery and Reinvestment Act Funds

The American Recovery and Reinvestment Act of 2009 (ARRA) was signed into law by President Barack Obama on February 17, 2009. The Act has five major strategic objectives: 1) Preserve and create jobs and promote economic recovery; 2) Help those most affected by the recession; 3) Provide needed investments to improve economic efficiency through technology, science, and health care; 4) Invest in transportation, environmental protection, and infrastructure for long-term economic benefit; 5) Stabilize State and local governments' budgets with the intent to preserve essential services and mitigate the need for State and local tax increases.

Of the \$787 billion in total ARRA funding provided nationally, approximately \$135 billion was available to state and local governments including the City of Los Angeles in the form of competitive/discretionary or formula grants. In some instances, the City has received ARRA funds for the purpose of acting as the fiscal agent for other local governmental entities.
