Within the past five years, Ramirez & Co. has recently settled a long standing trade reporting dispute with the Financial Industry Regulatory Authority, (“FINRA”), with respect to Auction Rate Securities, (“ARS”) data reported to the MSRB.

From April 2011 through May 4, 2018, the firm, as a program dealer for ARSs, submitted information regarding the result of an auction or interest rate reset to the SHORT System, but failed to report a minimum denomination involving 11 CUSIPs and inaccurately reported the maximum interest rate for approximately five CUSIPs. The minimum denomination reporting failures occurred because the firm's reporting system, which transmits data to the MSRB's Electronic Municipal Market Access (EMMA) System for SHORT reporting, did not require the entry of the minimum denomination field. When Ramirez submitted information to EMMA regarding certain CUSIPs, it did not populate the minimum denomination field, and rather than rejecting the report as incomplete, the system accepted the submission and populated the field with a zero. The maximum interest reporting failures occurred because Ramirez reported the auction's interest rate rather than the ARS's maximum interest rate. Therefore, as a result of these system related reporting issues, Ramirez was cited for the following, MSRB Rule G-34 (Market Information Requirements), G-27 (Supervision) and G-8 (books & records) and agreed to pay a monetary fine. Ramirez has since made the necessary adjustments to its reporting systems and all information is flowing properly.
