DISCUSSION

Individual Strategies: Successes and Challenges

The status and next steps for each individual strategy are provided in Attachment 1. Strategies that have made significant progress or are facing significant challenges are detailed below.

Successes

- Proposition HHH Implementation (Strategy 10D):
 - o The first Proposition HHH (Prop HHH) bonds were issued in the amount of \$89,083,314 for the first round of Permanent Supportive Housing (PSH) and Facilities projects. This issuance funded:
 - Nine (9) PSH projects comprised of 615 total units, 416 of which are PSH; and
 - Six (6) facilities providing services to persons experiencing homelessness, including clinics, service centers, transitional housing and a City-sponsored navigation center.
 - o The second Prop HHH Facilities Program Request for Proposals was released, with applications due on November 3, 2017.
- The City began negotiating a Memorandum of Understanding (MOU) with the County of Los Angeles (County) and the Housing Authority of the City of Los Angeles (HACLA) to support development, operations and supportive services in permanent supportive housing (Strategy 10D). According to the MOU template approved by the County Board of Supervisors, the City will finance development of PSH units, HACLA will provide operating subsidies in the form of project-based Section 8 vouchers, and the County will fund

- supportive services in PSH units with County Measure H revenue. The MOU is scheduled to be executed in the second quarter of FY 2017-18.
- The Housing and Community Investment Department (HCID) completed 316 affordable units in Q1 of FY 2017-18 (Strategy 10A). HCID also preserved or extended expiring affordability covenants on 15 units in Q1, and performed outreach to another 2 owners regarding an additional 70 units (Strategy 7S).
- 497 landlords have received incentive payments through HACLA's Homeless Incentive Program (Strategy 7H).
- The Los Angeles Police Department (LAPD) continued implementation of Mental Health Intervention Training (MHIT) for all Homeless Outreach and Proactive Engagement (HOPE) officers and other LAPD officers (Strategy 3A). In Q1, an additional 12 HOPE officers and 170 officers citywide completed MHIT training. To date, 95% of HOPE officers and a total of 1,564 officers have been trained.
- In-reach services are now being provided in all three regional municipal jails (Strategy 3D).
 To date, 846 homeless inmates have been offered services, and 480 consented to receiving services. 287 Coordinated Entry System (CES) referrals have been made and 41 CES assessments have been completed.
- To date, the City has received more than 2,000 Accessory Dwelling Unit (ADU) applications, whereas previous years saw 50-70 ADUs constructed annually (Strategy 7K). State laws AB 2299 and SB 1096, which streamline the process for residents to build and convert existing structures to Accessory Dwelling Units (ADUs), have been in effect since January 1, 2017. The Department of City Planning (DCP) is currently working with the City Attorney on a draft ordinance to comply with and complement the existing State laws (CF 16-1468).
- The Los Angeles Homeless Services Authority (LAHSA) released a Request for Proposals (RFP) to award \$4.7 million in Measure H funding for Crisis and Bridge Housing for TAY and Single Adults (Strategy 7O). Funds were awarded for 302 new beds. 202 of these beds 110 crisis beds and 92 bridge housing beds are located in the City. Additionally, approximately \$80,000 of one-time Measure H funding was provided to five crisis housing programs to purchase equipment and/or to perform minor rehabilitation work on their structures to facilitate pet accommodations; four of these programs are located in the City.
- Strategy 7Q Support the House LA Initiative:
 - The DCP released a draft of the proposed Permanent Supportive Housing (PSH) Ordinance for public comment on August 31, 2017 (Strategy 7Q). Two staff public hearings were held, in addition to five informational open house events. The draft ordinance is tentatively scheduled to be considered at the City Planning Commission's November 16th meeting. This ordinance will significantly reduce predevelopment costs for PSH projects by potentially reducing the pre-development timeline from three years to one year.
 - O DCP's Transit Oriented Communities (TOC) Guidelines went into effect on September 22, 2017. 19 applications have already been received under the new guidelines, including five 100% affordable projects, representing 283 units. 106 of these will be affordable to extremely low-income households (less than 30% of Area Median Income [AMI]), 69 will be affordable to very-low income households (30-50% of AMI), and 108 will be affordable to low income households (50-80% of AMI).

 3,116 employment applications have been received through the Targeted Local Hire Program as of September 30, 2017 (Strategy 9B). As a result, twenty City departments have hired or made offers to 111 candidates, 15 of whom indicated they have experienced homelessness.

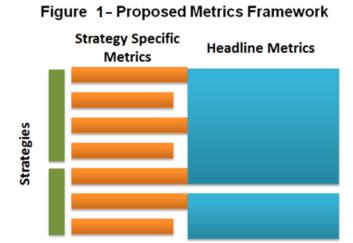

Challenges

- The Los Angeles County Department of Public Health declared a Hepatitis A outbreak on September 19, 2017, further highlighting the need for expanded access to public restrooms for persons experiencing homelessness. Strategy 6F - Expand Access to Public Restrooms includes the option to extend operating hours at restrooms in the City's Recreations and Parks facilities. The CAO is preparing a report in response to a Council motion (Bonin-Huizar; C.F. 17-1092) regarding expanded bathroom access for persons experiencing homelessness.
- Strategy 9J Social Impact Financing/Pay for Success (SIF/PFS) requests a report-back on the feasibility of implementing an SIF/PFS model within the City of Los Angeles. The Economic and Workforce Development Department reports that a large-scale SIF/PFS program would not be feasible due to the financial impact to the General Fund. However, a small-scale PFS system incorporated into the LA:RISE program is ongoing. A report-back from EWDD is forthcoming on this strategy, and should be considered as part of the ongoing strategy review.

CHS Metrics

The Homeless Strategy Committee and the Mayor and City Council approved the CHS metrics framework in June 2017 (C.F. 15-1138-S25). The framework is comprised of strategy-level and headline metrics. Strategy-level metrics were proposed by strategy leads and are specific to each individual strategy. Headline metrics are less specific than strategy-level metrics and apply to multiple strategies. Each strategy has at least one strategy-level metric assigned to a headline metric, and each headline metric has at least two strategy-level metrics assigned to it. This ensures that outcomes from multiple strategies can be combined to create a broader picture of the outcomes of the CHS across all strategies. Figure 1 illustrates the relationship between strategy-level metrics and headline metrics.

139 strategy-specific metrics were identified across all of the CHS strategies. This report adds an additional metric to Strategy 10A Full Funding for Affordable Housing Trust Fund to track Proposition HHH bond issuances. 65 of these metrics across 20 strategies were scheduled to report data on or before FY 2017-18 Q1. Departments report that data for 11 of these metrics are not yet available. As such, this quarter, data is available for 54 metrics across 19 CHS strategies.

Metrics data for Q1 is presented in Attachment 2 at the individual strategy level and in Attachment 3 summarized at the headline level.

Data associated with each headline metric is summarized as follows:

- Expansion of supply of affordable and homeless housing:
 - o 316 HCID-financed affordable housing units were completed (Strategy 10A).
 - Proposition HHH bonds were issued in the amount of \$89,083,314 for 615 total units (Strategy 10A).
 - 3 projects have taken advantage of the various CEQA streamlining measures (e.g. Transit Oriented Development, Transit Oriented Communities, etc.), totaling 917 units, 139 of which are restricted as affordable housing (Strategy 7G).
 - o 2,081 applications have been received and 631 permits have been issued for Accessory Dwelling Units (ADUs) (Strategy 7K).
 - Seven agencies are providing supportive services according to HACLA's definition and quality standards (Strategy 4E).
- Number placed in permanent housing:
 - A total of 1,253 persons and 2,021 households have been placed in permanent housing through interactions with Los Angeles Homeless Services Authority (LAHSA) providers and contractors and LAPD Homeless Outreach and Proactive Engagement (HOPE) teams and as a result of HACLA's Homeless Incentive Program (Strategies 3A, 4A, 4F, 7B, and 7H).
 - o 17% of adults exiting bridge housing exited to permanent housing (Strategy 7O).
- Number placed in temporary housing:
 - 48 individuals were placed in temporary housing through contact with the LAPD HOPE teams (Strategy 3A).
 - o 18 individuals served through the Pilot Safe Parking Program (Strategy 6B).
- Number who are prevented from becoming homeless or being discharged into homelessness:
 - o 411 families received prevention services through CES in order to stabilize and maintain existing housing (Strategy 4F).
- Number who Retain Housing from Date of Placement:
 - 95% of persons retained housing for 12 months through efforts to strengthen CES technology, staffing and standardization (Strategy 4A).
 - o 100% of households retained housing over the following year through integration and strengthening of family and transition age youth CES (Strategy 4F).
- Number who gain employment or enroll in vocational training/education:
 - 20 adults were placed in competitive employment through social enterprise (Strategy 9A).
 - 15 adults were placed in competitive employment at the City of Los Angeles (Strategy 9B).

- o 33 women were employed through homeless women's employment development (Strategy 9L).
- o 10% of emergency shelter participants saw an increase in income (Strategy 70).

Now that metrics are being regularly reported, we will begin working with strategy leads to define annual targets for each strategy, based on available resources, as applicable. Where possible, these targets will be presented compared to the need for services provided through each strategy. This will allow the City to more readily identify gaps in resources and implementation challenges.

Please also refer to Strategy 7Q for related exercises that will also result in CEQA efficiencies and incentives for affordable housing, including permanent supportive housing. ·	 As of January 1, 2017, the City is implementing two new state laws (AB 2299 and SB 1069), which will significantly increase the ability of residents to build and convert existing structures to Accessory Dwelling Units (ADUs). Since that time, the City has seen a significant increase in ADU production, from between 50-70 a year previously, to more than 2,000 ADU applications already through October 12, 2017. While state law is now in effect, the City is pursuing the adoption of its own, more tailored ADU ordinance. This ordinance is intended to apply the new state laws to the development and conversion of ADUs within the City, but adds additional regulation governing their allowable size and location. The PLUM Committee voted in support of the ordinance with several modifications on March 21, 2017. The Department is currently working with the City Attorney's Office for Form and Legality review of the draft ordinance.
