INTER-DEPARTMENTAL MEMORANDUM

TO: Proposition HHH Citizens Oversight Committee
FROM: Los Angeles Housing Department
DATE: April 28, 2022
REGARDING: **Proposition HHH-Funded Project Homekey 2.0 Status Report**

RECOMMENDATION

That the Committee review this report, and Note and File.

SUMMARY

On May 10, 2022, LAHD released a Request for Proposals (RFP) to solicit proposals to operate nine pre-selected sites as Permanent Supportive Housing as part of Homekey Program Round 2 (Project Homekey 2.0) sponsored by the California Department of Housing & Community Development (HCD). Since the Owner/Operators were selected and approved by Council in September 2022, LAHD has been working with HCD, the Owner/Operators, and the Housing Authority of the City of Los Angeles (HACLA) to meet State and City program requirements and prepare for the transfer and rehabilitation of these properties.

On April 5, 2023, Linc Housing informed LAHD that it would no longer be moving forward with the 7639 Van Nuys project due to the anticipated rehabilitation cost. As of that date, no agreements between the City and Linc Housing had been executed.

At this time, due to the urgency to initiate rehabilitation work and begin leasing in the project, LAHD recommends that the project remain under its current ownership with HACLA and that the City enter into loan and regulatory agreements with HACLA to provide acquisition and rehabilitation funding for the project. HACLA has conceptually agreed to take on the project, pending the approval of its Board of Commissioners on May 25, 2023. City Council approval of this change will also be sought in May 2023.

HACLA anticipates beginning rehabilitation work at Van Nuys by July 1 and completing it within 90 days, and plans to begin lease-up during rehabilitation with full occupancy expected by August 31. HACLA, which owns and operates nearly 7,000 units of public housing and has a standardized process for rehabilitation work, anticipates that the approved funding for rehabilitation at 7639 Van Nuys will be sufficient.

LAHD is now finalizing loan agreements with each Owner/Operator and preparing to transfer properties to their Owner/Operators with an estimated date for all properties of May 31. Owner/operators have been directed to prepare plans and seek permits with an expected construction start date of July 1. Projects are expected to begin leasing units not undergoing construction by August 1 and achieve 50% lease-up by December 31 or sooner. Construction on the remaining units, common areas, office/service spaces and other items as needed is expected to be completed on the schedules provided by the Owner/Operators. 100% lease-up is expected one month after the completion of construction.

Project Homekey 2.0 Timelines as of April 28, 2023						
Address	CD	Units	Anticipated Transfer	Anticipated Construction Completion for Accessibility	Anticipated Lease Up Ready	Anticipated 100% Lease Up

*HACLA Board and City Council authority is required to approve HACLA as ongoing owner/operator for this project, anticipated in May. If approved, this project will remain under HACLA's ownership.

**Per the PEP amendment under review at the May 4, 2023 AOC meeting, this project will no longer receive HHH funds.

PROJECT DESCRIPTIONS

7639 Van Nuys

7639 Van Nuys Blvd., Los Angeles, CA 90043
New Construction
36 Units
Council District 6

The Van Nuys Boulevard property is a newly-constructed, four-story, 36-unit multifamily property located at 7639 Van Nuys Blvd, Van Nuys, CA 91405. The building will be adapted focusing on two areas: 1) repairs to ensure habitability, health and safety, and ADA improvements; and 2) repairs to improve functionality given the target population. The majority of the renovations will be focused on improving ADA accessibility at the property. Four ADA mobility units will be created as well as two audio/visual communication units, and the remainder of the units will be renovated to meet ADA adaptability standards. Additional ADA improvements in common areas are also planned, including an accessible path of travel throughout the building and grounds, installing fully ADA-compliant signage, and adding two-way communication upgrades at elevators on each floor.

The property currently consists of eight 1-bedroom units and 28 2-bedroom units. Two 2-bedroom units will be repurposed to serve as community/office space and as a property manager's unit. Additionally, an existing rooftop deck and interior courtyard will be modified to meet ADA and population-specific needs. Once completed, the project will offer a community room, case management offices and meeting rooms, and a property manager's office at the ground floor lobby as well as a community courtyard and rooftop patio for outdoor recreation. Parking is available at the property via secured ground level and subterranean parking garages. Additional building amenities include an elevator, trash chutes, mail area, bike storage area, and security features including security cameras and an electronically secured front door. All units will contain a full kitchen including a range, refrigerator, and garbage disposal. All units will also include air conditioning and heating and in-unit washer and dryer. Half of the units on site will be set aside for homeless households and the remaining units will be designated for households who are at-risk of homelessness.

6531 S Sepulveda Blvd

6531 S Sepulveda Blvd, Los Angeles, CA 90045

Extended Stay Hotel

133 Units (proposed reduction to 101 units)

Council District 11

The Extended Stay Hotel located at 6531 Sepulveda Blvd. was constructed in 1999. The developer plans to add one-bedroom units, community space, office space and space for supportive service staff, reducing the unit count to 101. The scope of work also includes meeting accessibility requirements for common areas, units fully accessible to mobility-impaired individuals, and units with communication features for hearing and visually impaired residents.

LAHD has worked with HACLA and its relocation consultant, ESA on relocation plans and for hotel guests currently staying on-site. HCD awarded relocation funds in the amount of \$818,750, and LAHD has negotiated with the sellers to set aside relocation funds in escrow in the amount of \$511,717. The total amount available for relocation is \$1,330,467 and the relocation consultant has estimated relocation benefits to total \$1,265,190.

HACLA SITES

Three sites to be owned and operated by HACLA will receive a \$15-million loan of HHH funds for rehabilitation. HACLA's original proposal was for four sites, but in February 2022 they submitted a request that the loan be used to fund three sites. This request is pending City Council approval and a subsequent revision to the HHH Project Expenditure Plan. The three sites are detailed below.

5050 W Pico

5050 W Pico Blvd., Los Angeles, CA 90019

New Construction

79 Units

Council District 10

5050 Pico is a 79-unit new-construction multifamily property. All units will serve Homeless populations at 30% AMI or lower. LAHD will provide a loan to HACLA to fund rehabilitation. Currently, HACLA is working on a rehabilitation design and accessibility requirements for the site.
